

CARE Edu Grade – Symbols and Definition

Grading of Management Courses

CARE would adopt an eight-point scale for grading on the scale of **A****** to **B**; with **A****** being the highest and **B** being the lowest grade. Grading will be assigned on two levels A) National Level and B) State level. National level grading will benchmark the institutes against institutes on all-India basis while the state-level grading would exhibit the standing of the institute at the state level.
