Detailed Rationale& Key Rating Drivers
The ratings assigned to bank facilities/instruments of PNB Housing Finance Ltd (PNBHFL) continue to derive strength from its strong management team, consistent growth in loan portfolio, healthy asset quality, diversified resource profile, adequate capitalization levels, comfortable liquidity position and stable profitability margins of the company. The ratings continue to draw comfort from the strong promoter in Punjab National Bank [PNB] and the brand linkages with PNB. The ability of the company to maintain its profitability, asset quality and liquidity position and continued branding of PNB remain the key rating sensitivities.

Detailed description of the key rating drivers
Key Rating Strengths
Strong promoters and management
PNBHFL has strong promoter in PNB which continues to be the largest shareholder in the company with 39.08% stake as on March 31, 2017. PNBHFL shares the brand linkages with PNB. The shared brand name and logo indicates the strategic importance of the company to PNB, Although, as the company has grown, the reliance on PNB in the form of management and funding support has reduced. The company's operations are managed by an independent team comprising of professionals with strong domain knowledge and extensive experience in the mortgage business.
The company is led by Mr Sanjaya Gupta (Managing Director) who has a rich experience of over 29 years in housing finance industry. Under his leadership, PNBHFL launched the business process re-engineering initiative namely 'Kshitij' which has improved the operational efficiency and has helped PNBHFL emerge as one of the largest HFCs in the country.

Healthy financial performance
PNBHFL registered significant increase in its AUM y-o-y which stood at Rs. 41,492 crore as on March 31, 2017, as against Rs. 27,555 crore as on March 31, 2016. PNBHFL reported a growth of 45% in its interest income which was supported by robust growth in disbursements by 43% to Rs.20,639 crore in FY17. The high growth in disbursement is primarily attributable to steps taken by the management of PNBHFL to improve its customer reach by penetrating existing markets and entering new territories (Bhubaneswar, Kanpur, Kolhapur, Rajkot, Madurai) besides various marketing initiatives including building of business tie-ups with various financers for sourcing of housing and non-housing loans, creation of visibility at project sites and expansion of direct sales team and launch of multimedia brand campaign. During the last year 16 new branches were made operational, totaling to 63 branches with presence in 39 unique cities as on 31st March, 2017. The Company also services its customers through 27 outreach programs. The company also added two new underwriting hubs (catering to the branches as outreach centers) during the year, taking the total count to 18 hubs. Greater incremental disbursements have been undertaken in Western and Southern Zone. This has also helped in de-risking the geographical distribution.
Approximately 54% (P.Y. 59%) of the total disbursement in FY17 was for housing loans segment (yield of 9.46%), 31% (P.Y. 29%) for non-housing loans segment (yield of 11.22%) and 14% (P.Y. 12%) in construction finance segment (yield of 13.15%). There is higher growth seen in disbursement in the Non-Housing and construction segment given the higher yields and lower operating costs (origination and employee costs) in these segments as compared to the housing loan segment wherein there is intense competition from banks/FIs.
As per the management, the interest spread computed based on monthly average balances has increased marginally from 2.18% during FY16 to 2.21% in FY17 on account of marginally lower reduction in interest on advances as against reduction of borrowing costs particularly during Q4FY17 wherein interest spread improved to 2.37%. The interest on borrowed funds reduced during FY17 on account of reduction in policy rates by RBI, reduction in borrowing costs from various sources. PNBHFL was successful in maintaining its interest spreads owing to a prudent borrowing mix (reliance on public deposits, long term bonds and commercial paper as against the high cost bank borrowings) and higher growth seen in the higher yielding wholesale loan book although the yield on loans also reduced during the year with the lending rates being reduced particularly for housing loans by the company due to intense competition from banks and other HFCs.
Growth in portfolio as well as implementation of Enterprise System Solution (ESS) has resulted in operational efficiencies resulting in lower operating costs and higher returns. Consequently, ROTA (Adj.) has increased from 1.33% in FY16 to 1.38% for FY17 besides reduction in interest costs upon equity infusion due to reduction in overall gearing levels to 6.81x as on March 31, 2017 (P.Y. 13.84x) upon equity infusion of Rs. 3000 Crore, post the IPO issue in November 2016.
PNBHFL reported Profit after Tax (PAT) of Rs. 524 crore on a total income of Rs. 3908 crore during FY17 (refers to the period April 01 to March 31), as compared with a PAT of 326 crore on a total income of Rs. 2699 crore during FY16.

Healthy asset quality

PNBHFL reported healthy asset quality parameters with Gross NPA ratio of 0.22% (P.Y.:0.22%) and Net NPA ratio of 0.15% (P.Y.:0.14%) as on March 31, 2017. The Net NPA to net-worth ratio has also declined from 2.01% as on March 31, 2016 to 1.06% as on March 31, 2017 as a result of equity infusion although there has been marginal increase in NNPA from Rs. 38 crore as on March 31, 2016 to Rs. 59 crore as on March 31, 2017. The Gross NPA on 2 years lagged basis continues to be low at 0.51% as on March 31, 2017.

The healthy asset quality can be attributed to adequate systems in place post the BPR exercise and success in resolution of NPAs using SARFESI Act. Also, PNBHFL, in addition to the provision on NPAs (Rs. 26.78 crore) and Provision for Standard Assets (Rs. 193.97 crore) as per NHB Directions, has provided for Provision for Contingency amounting to Rs. 39.48 crore to take care of any contingencies which may arise in future. As on 31st March, 2017 the Company was carrying total provision (Non-performing Assets and Standard Assets) of INR 220.75 crore (excluding contingent provisions) as against Gross Non-Performing Assets of Rs. 85.77 crore. The provision coverage ratio (Provision for Standard Assets and NPAs/ Gross NPAs) stood at 257% as on March 31, 2017 (254% as on March 31, 2016). However, there has been marginal increase in delinquency since Q3FY17 (post announcement of demonetization) with PAR >0 days being 2.85% (Rs. 1097 crore) as on March 31, 2017 as against 1.59% (Rs. 431 crore) as on March 31, 2016. The maximum delinquency has been seen in the retail housing loan portfolio (DPD>0 days) being 2.62% (P.Y. 1.33%) as on March 31, 2017 and LAP segment wherein DPD>0 days stood at 4.59% (P.Y. 1.90%). There are no delinquencies seen in the LRD book whereas DPD>0 days stood at 4.04% and 1.56% for the construction finance segment respectively.

Largely the NPAs are from older book (1.5% for the book > 36 months). The average ageing of housing loans is 19 months and for non-housing is 15 months. Thus, the sustainability of the asset quality is to be seen with the seasoning of loans. Also, given the increasing proportion of non-housing retail loans in the overall book, the sustainability of the asset quality performance in this segment remains to be seen and will be critical for the credit profile of the company going ahead.

Diversified resource profile and comfortable capitalization

PNBHFL has demonstrated strong resource (both equity and debt) raising capacity to fund business growth. It has raised funds through various market instruments, public deposits as well as loans from various banks and financial institutions including NHB. PNBHF also raised funds from Asian Development Bank and International Finance Corporation.

As on March 31, 2017, PNBHFL's debt profile comprised Bank loans (including overdraft) of Rs.2,469 crore, Bonds of Rs.14,571 crore, National Housing Board finance of Rs.2,748 crore, deposits aggregating Rs.9,987 crore and External Commercial Borrowings of Rs.1512 crore and commercial paper of Rs.4,370 crore. The proportion of short-term borrowings in the form of Commercial Paper which had risen to 19% as on March 31, 2016, as PNBHFL did not intend to lock in its borrowings costs at high levels given the expectation of further decline in interest costs has now reduced to 12.26% of the overall mix.

During FY17, PNBHFL also raised capital of Rs. 3000 crore from the IPO issue in November 2016. Consequently, the capitalization levels have improved to 21.62% on March 31, 2017 (P.Y. 12.70%) with Tier-I CAR of 16.48% (P.Y. 9.04%) as against the minimum prescribed CAR of 12% by National Housing Bank (NHB). Also, the company had securitized a significant portion of their assets during FY17 of Rs. 3377 crore (off-book portfolio of Rs. 2961 crore o/s as on March 31, 2017 as against Rs. 378 crore as on March 31, 2016) before the IPO issue in November so as to avoid breaching the gearing levels of 16x while continuing to grow its portfolio. The leverage levels of the company are comfortable being 6.81 times as on March 31, 2017 (P.Y. 13.84 times).

Comfortable liquidity profile

Liquidity profile of the company continues to remain comfortable. As on March 31, 2017, PNBHFL has well-matched liquidity profile as per the Structural Liquidity Statement prepared in line with NHB Guidelines. There are no negative cumulative mismatches in any of the buckets, although the NHB Guidelines and ALCO policy of the committee allows negative cumulative mismatches upto 15% in the 6-12 month bucket, 30% for one to three years and 45% for three-five years bucket.

PNBHFL has short term investments and balance in current accounts to the tune of Rs.2318 crore as on March 31, 2017 besides Rs. 961 crore held in form of long term investments (SLR investments being maintained to the extent of 12.50% of the public deposits outstanding in the second preceding quarter) and unutilized bank lines of Rs.569 crore which would help it in meeting its liquidity requirements.

Outlook

The housing finance segment in India has emerged as one of the most secured and resilient asset classes witnessing healthy growth rates and low delinquencies. As a result, housing finance has continued to be a focus segment for both banks as well as housing finance companies registering a robust CAGR growth of roughly 19% during 2011-2016. Owing to the stress in their corporates portfolios, banks have been increasingly shifting their focus towards retail asset classes such as mortgage finance. As per CARE estimates, the size of mortgage finance market stood at over Rs.12.4 trillion as of March 2016 of which HFCs accounted for roughly 40% and banks for the remaining 60%. Although banks continue to

dominate the housing finance space in India given their extensive reach and access to low cost funds which has resulted into a rise in balance transfers from HFCs to banks; HFCs continue to mark their presence with their focus, systems as well as specialization in their target segment and geographies.
Continued healthy portfolio growth, stable margins and operating efficiencies as well as low credit costs have contributed to healthy profitability parameters of HFCs. While some of the players are witnessing rising NPA levels in their loans against property (LAP) and non- housing loans portfolio; the fact that individual housing loans (excluding LAP) account for bulk of the total mortgage finance portfolios of HFCs, the overall delinquencies are still low.
Over the last few years, many new HFCs backed by private equity players and or strong promoters with a focus on affordable housing have started operations. Recent initiatives such as lowering of risk weights for housing loans, revision in interest rates and on-lending spread caps under Rural Housing Fund by NHB in addition to Housing for All by 2022 are expected to boost credit growth in the affordable housing segment. Furthermore, initiatives such as RERA, 100% tax exemption to developers on profits from building affordable housing and services tax exemption are expected to help transparency and supply side issues.
HFCs are expected to maintain their good profitability on the basis of strong business growth and stable asset quality over the medium term. However, rising competition and the resultant possible dilution in credit underwriting norms, long-term funding and asset quality are the key challenges for the sector.

PNBHFL with its long track record and experienced management has been able to achieve stable and sustainable growth in business. However, continued branding of PNB, the ability of the company to maintain its profitability, asset quality and liquidity position remain the key rating sensitivities.

About the Company
PNBHFL (CIN: L65922DL1988PLC033856) was promoted by PNB as a 100% subsidiary, in the year 1988, with the objective of venturing into housing finance business. In December 2009, PNB entered into a strategic financial partnership with QIH (Quality Investments Holdings) earlier Destimoney Enterprises Limited (DEL) and PNB divested 26% stake in PNBHFL to QIH. In accordance with terms of Share Subscription Agreement, QIH further brought Rs.137.32 crore into the company in the form of compulsory convertible debentures in June 2010 which was converted into equity shares by September 30, 2012. Since then, PNB's equity share holding in the company was 51% and QIH's 49%. The company raised an amount of Rs. 3000 crore through the IPO issue in November 2016, post which the shareholding of PNB has naturally diluted to 39.08% as on March 31, 2017.

PNBHFL is a deposit- accepting housing finance company registered under National Housing Bank. It is engaged in providing housing loans and loan against property (LAP) to individuals for construction, purchase, repair and up-gradation of houses. It also provides wholesale loans viz corporate term loans, construction finance and lease rental discounting (LRD).

PNBHFL is the fifth largest housing finance company in India and reported an outstanding Assets Under Management (AUM) of Rs. 41,492 crore (including securitized loan portfolio of Rs.2961 crore) as on March 31, 2017 (Rs. 27,555 crore as on March 31, 2016) with housing loan portfolio of Rs. 22,880 crore, Non-Housing Loans (LAP, LRD, Corporate Term Loans) of Rs. 11,269 crore and Construction Finance Loans of Rs.4382 crore as on March 31, 2017.

PNBHFL reported Profit after Tax (PAT) of Rs. 524 crore on a total income of Rs. 3908 crore during FY17 (refers to the period April 01 to March 31), as compared with a PAT of 326 crore on a total income of Rs. 2699 crore during FY16.
