Ratings

Facilities	Amount (Rs. crore)	Rating ¹	Rating Action
Long Term Bank Facilities	6.52 (Reduced from 6.77)	CARE BB; Stable (Double B; Outlook: Stable)	Revised from CARE BB-; Stable (Double B Minus; Outlook: Stable)
Total Facilities	6.52 (Rs. Six Crore and Fifty-Two Lakhs Only)		

Details of facilities in Annexure-1

Detailed Rationale & Key Rating Drivers

The revision in the rating of Khattar Edibles Private Limited (KEPL) factors in the improvement in financial risk profile marked by growth in scale of operations and improvement in debt coverage indicators. The rating continues to derive strength from experienced management, moderate capital structure and moderate operating cycle. The rating, however, continue to remain constrained by risk associated with thin profitability margins and fragmented and competitive nature of industry.

Rating Sensitivities

Positive Factors - Factors that could lead to positive rating action/upgrade:

- Consistent increase in scale of operations as marked by total operating income of above Rs.150.00 crore.
- Improvement in profitability margins as marked by PBILD T and PAT margin above 8.50% and 2.00% respectively.

Negative Factors- Factors that could lead to negative rating action/downgrade:

- Deterioration in the capital structure as marked by overall gearing ratio of above 2.50x.
- Elongation in the operating cycle of the company beyond 60 days.

Detailed description of the key rating drivers

Key Rating Strengths

Experienced management: KEPL's is a family run business and its operations are currently being managed by Mr. Deepak Kumar and Mr. Umesh Kumar. Both of them are graduates by qualification and have accumulated experience of more than a decade in company's line of business through their association with this entity and other associate concern (currently not operational).

Growth in scale of operations and improvement in debt coverage indicators: The total operating income (TOI) of KEPL has increased to Rs.84.76 crore in FY21 from Rs.65.82 crore in FY20 reflecting a growth rate of 28.78% owing to higher intake from its existing customers. Further, the company has achieved a TOI of Rs.85.97 crore during 9MFY22 (refers to the period April 1 to December 31; based on provisional results).

Further, the debt coverage indicators of the company have improved as marked by interest coverage and total debt to GCA which stood at 3.15x and 2.93x respectively, during FY21 as against 2.90x and 6.07x respectively, during FY20. The improvement was mainly on account of higher PBILD T owing to increase in scale of operations consequently leading to higher gross cash accruals.

Moderate capital structure: The capital structure of the company as marked by overall gearing ratio stood moderate at 0.92x as on March 31, 2021 as against 11.16x as on March 31, 2020. Unsecured loans are treated as subordinated to debt as per the sanction letter. Thus, unsecured loans to the tune of Rs.8.70 crore is treated as subordinated to debt and the same have been added to the tangible net worth of the company in FY21.

Moderate operating cycle: The operating cycle of the company continue to remain moderate at 3 days for FY21 as against 16 days for FY20. The company maintains adequate inventory of around a month in the form of raw material to ensure uninterrupted manufacturing process. The products are mainly sold on cash basis with credit period of around a month allowed to few of its customers which results in an average debtor's period of 14 days for FY21. Similarly, it receives similar payable period from its suppliers which results in average creditor's period of around 17 days for FY21.

Key Rating Weaknesses

Thin profitability margins: The profitability margins of the company stood thin for the past three financial years i.e. (FY19-FY21) owing to competitive nature of industry. The company has two variants under rusks manufacturing with difference in profitability margins as the profitability margins are directly linked to variant sold. PBILD T margin of the company declined and stood at 6.59% in FY21 as against 7.53% in FY20 on the back of proportionate increase in overhead expenses. Further, PAT margin also stood at 0.84% in FY21.

¹Complete definition of the ratings assigned are available at www.careedge.in and other CARE publications

Fragmented and competitive nature of industry: The commodity nature of the product makes the industry highly fragmented with numerous players operating in the unorganized sector with very less product differentiation. In addition, launch of innovative strategy (such as competitive pricing, aggressive advertisement campaign, celebrity endorsements, etc.) by large multinationals to gain market share has increased the competition intensity as well. This results in limited flexibility over product pricing for the players in the industry.

Liquidity: Adequate

The liquidity position of the company remained adequate characterized by sufficient cushion in accruals vis-à-vis repayment obligations. The company has reported gross cash accruals to the extent of Rs.3.47 crore during FY21 and is expected to generate envisaged GCA of Rs.3.62 crore for FY22 against repayment obligations of Rs.2.62 crore. However, the company has low free cash & bank balances of Rs.0.61 crore as on March 31, 2021.

Analytical approach: Standalone

About CARE Ratings Limited:

Established in 1993, CARE Ratings Ltd. is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India (SEBI), it has also been acknowledged as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). With an equitable position in the Indian capital market, CARE Ratings Limited provides a wide array of credit rating services that help corporates to raise capital and enable investors to make informed decisions backed by knowledge and assessment provided by the company.

With an established track record of rating companies over almost three decades, we follow a robust and transparent rating process that leverages our domain and analytical expertise backed by the methodologies congruent with the international best practices. CARE Ratings Limited has had a pivotal role to play in developing bank debt and capital market instruments including CPs, corporate bonds and debentures, and structured credit.

Disclaimer

The ratings issued by CARE Ratings Limited are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings Limited has based its ratings/outlooks based on information obtained from reliable and credible sources. CARE Ratings Limited does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings Limited have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings Limited or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE Ratings Limited is, inter-alia, based on the capital deployed by the partners/proprietor and the current financial strength of the firm. The rating/outlook may undergo a change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE Ratings Limited is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE Ratings Limited's rating.

Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
