Details of instruments/facilities in Annexure-1

Detailed Rationale & Key Rating Drivers

The ratings assigned to the bank facilities and fixed deposit of Elgi Rubber Company Limited (Elgi) are constrained by the moderate capital structure and debt coverage indicators albeit improved during FY21, stretched liquidity with net losses incurred in the past years due to moderate performance of the subsidiaries and exposure of profit margins to volatility in raw material prices. The ratings however derive strength from vast experience of the promoters in the tyre reclaim and retreading business and established relationship with reputed customer profile.

Key Rating Sensitivities

Positive Factors- Factors that could lead to positive rating action/upgrade:

- Ability to improve PBILD margins to over 10% on consistent basis and generate adequate accruals with profitable turnaround of operations in subsidiaries
- Timely realization of asset monetization plans and reducing the debt levels

Negative Factors- Factors that could lead to negative rating action/downgrade:

- Any large debt funded capex leading to moderation in capital structure with overall gearing above 2x
- Any continued losses in the subsidiaries due to extended impact of covid pandemic

Detailed description of the key rating drivers
Key Rating Weakness

Moderate capital structure and debt coverage indicators: The debt profile of Elgi mainly consists of term loans (43%) and working capital (52%) and around 60% of debt lies in subsidiaries. The capital structure of the company stood moderate with overall gearing of 1.44x as on March 31, 2021 as against 1.58x as on March 31, 2020. The Promoters has infused funds in the past to support the operations and the unsecured loans and fixed deposits from promoters stood at Rs. 12 crores as on March 31, 2021. Due to net losses incurred in the past with marginal cash profits the debt coverage indicators stood moderate at Total Debt/GCA of 13.37x as on March 31, 2021 albeit improved from 154x as on March 31, 2020. The company has

¹Complete definition of the ratings assigned are available at www.careratings.com and other CARE publications

plans for selling the free hold land in Indian entity for around Rs. 9 crore in the next one year and also plans for leasing out the office space in headoffice premises for rental income of around Rs. 1.80 crore per year. The proceeds from the land sale are expected to reduce the debt levels and the timely monetization of the same is a key monitorable

Losses incurred in the past years however improved in FY21:

Elgi operates over 170 active franchises and generates almost 50% of its domestic revenues and around 25% of its consolidated revenues from the same. Elgi derives more than half of its revenues from the overseas markets, primarily from, Europe and North America and the remaining from the Indian market (standalone operations). Weak financial performance of the foreign subsidiaries due to demand slowdown following covid pandemic had resulted in net losses for the company in recent past. Over the past years, the company has closed two of its overseas subsidiaries, paring down loss-making operations. The company reported net loss of Rs.15.20 crore (PY: Rs.16.10 crore) in FY20. Nevertheless the profitability improved in FY21 due to better realization of products on account of revival in auto sector and the company reported net profit of Rs.1.10 crore.

Profit margins exposed to volatility in raw material prices: The key raw materials used by Elgi are Natural and Synthetic rubber, Carbon black, Steel coil and other rubber chemicals. The Natural rubber forms 25-33% of raw material consumption by value while carbon black forms 15-25% of consumption. High volatility in natural rubber prices is the result of international trade policies, fluctuations in demand and supply of natural rubber, fluctuation in oil prices and political changes. The PBILDT margins of the company had been volatile in the range of 2.90% to 9.00% over the past three years ended FY21.

Key Rating Strengths

Vast experience of promoters: Mr. Sudarsan Varadaraj, the Chairman and Managing Director of the company has over 4 decades of experience in the tyre re-treading and rubber reclaim business. His son Mr. Harsha Varadaraj, Whole time director has over 9 years of experience and looks after the Indian operations. The other directors in the company also have experience of 3-4 decades in the rubber industry. Mr. Jairam Varadaraj, director, aged 61 years, brother of Mr. Sudarsan Varadaraj is also the managing director of Elgi Equipments Limited which is engaged in air compressor manufacturing such as reciprocating compressors, screw compressors, and centrifugal compressors, and garage equipment for the automotive segment. Mr. Sudarsan Varadaraj is also in the board of Elgi Equipments Limited. Mr. Jairam Varadaraj is also the former Chairman of the Tamil Nadu State Committee of the Confederation of Indian Industry (CII) and past member of the Southern Region Council of CII.

Established and diversified clientele: The strong track record of the company and vast experience of promoters in the re-treading business have aided in establishing a strong customer network. Some of the top customers include major tyre manufacturers such as CEAT Limited (CARE AA; Stable/ CARE A1+), MRF Limited (CARE AAA; Stable/ CARE A1+) etc. The client profile is diversified with top 5 customers forming 21.83% of sales at standalone level and 10.4% at consolidated level in FY21.

Liquidity analysis- Stretched

Liquidity is stretched marked by lower accruals compared to the consolidated repayment obligations and the company had managed the liquidity shortfall through funds from promoters and sale of non-core assets in the past. The company had free cash balance of Rs.10.1 crore as on March 31, 2021. The company offers collection period of around 2 months to its customers while maintains inventory of 4-5 months. The company at standalone level has been sanctioned working capital limits of Rs.40 crore and the average utilization of the same stood around 70.02% for the past 12 months ended July 2021. The company had availed covid emergency loans of Rs.14.40 crore in FY21 to meet the working capital requirements. Company also availed covid moratorium from March to August 2020 as a relief measure offered by banks due to covid 19.

Industry outlook:

Indian tyre industry witnessed V Shaped recovery with stellar performance in Q4FY21 driven by strong revival in demand from the domestic automobile industry and exports. For Q4FY21, the industry recorded high sales growth of 40% y-o-y, while operating margins improved substantially by 66% on y-o-y basis. CARE Ratings opines that overall credit profile of the tyre industry is expected to remain stable; however, headwinds include slower-than-expected demand growth, sharp increase in RM cost and prolonged COVID 19 impact. While revenues in Q2FY22 would be driven by pent-up demand, H2FY22 sales would be on account stronger demand from rebound in economic activities post monsoon. Post heavy capex spends towards capacity addition over the last two years, tyre industry is expected to restrict capex plans in FY22 until the sector witnesses sustained surge in demand.

Analytical approach: Consolidated- In view of the significant investments and advances extended by the Elgi to its subsidiaries namely Borrachas e Equipamentos Elgi Ltda, Brazil (99.99% shares), Pincott International Pty Limited, Australia (100% shares), Elgi Rubber Company Limited, Kenya (99.99% shares), Elgi Rubber Company Limited, Sri Lanka (99.99% shares), Treadsdirect Limited, Bangladesh (100% shares), Elgi Rubber Company LLC, USA (100% shares), Elgi Rubber Company Holdings B.V., Netherlands (100%) shares, CARE has taken a consolidated view of the companies together for its analysis. The company had extended corporate guarantee to Rubber Resources B.V., Netherlands, Elgi Rubber Company Holdings B.V., Netherlands, Elgi Rubber Company LLC, USA for term loan and working capital limits.

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE's ratings do not convey suitability or price for the investor. CARE's ratings do not constitute an audit on the rated entity. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE or its subsidiaries/associates may also have other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is, inter-alia, based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE's rating. Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
