Rating

Facilities/Instruments	Amount (₹ crore)	Rating ¹	Rating Action
Issuer rating	0.00	CARE AAA (Is); Stable [Triple A (Issuer Rating); Outlook: Stable]	Assigned

Details of instruments/facilities in Annexure-1.

The issuer rating is subject to the entity maintaining a net debt/gross asset value less than 35%.

Detailed rationale and key rating drivers

The Issuer rating assigned to Embassy Office Parks REIT (EOPR or Embassy REIT) positively factors in its diversified asset portfolio of commercial office space, hospitality, and renewable energy assets spread across Bengaluru, Mumbai, Pune, and the National Capital Region (NCR). The properties of EOPR are occupied by marquee clients, resulting in strong collection efficiency. There has been a decline in the occupancy levels for Embassy REIT and it stood at 87% as on September 30, 2022, as against 88.5% as on September 30, 2021. The COVID-19 pandemic and the reduced marketability of the special economic zone (SEZ) area impacted the occupancy level. Nevertheless, CARE Ratings Limited (CARE Ratings) takes note of the fact that most of the leases expired or expiring were yielding rentals significantly lower than the current market rates, and therefore, EOPR is likely to benefit from the mark-to-market (MTM) opportunity as and when the vacant spaces backfill. EOPR's ability to improve the occupancy levels and realise MTM gains will be a rating monitorable.

Since its launch, EOPR has demonstrated strong financial risk management, characterised by low loan-to-value (LTV), comfortable debt/earnings before interest, taxes, depreciation, and amortisation (EBIDTA), and debt-service coverage ratio (DSCR) levels. CARE Ratings also takes note of EOPR entering into a non-binding offer letter with the Embassy sponsor to acquire two assets. While CARE Ratings believes that the debt protection metrics are likely to remain strong, the funding pattern for the acquisition(s) will be closely monitored.

The restrictions under the Securities and Exchange Board of India (SEBI) regulations, which limit the share of under-construction assets to less than 20% and net debt/gross asset value (GAV) to <49%, enhance credit protection.

These strengths far outweigh the refinancing risk associated with the non-convertible debenture (NCD) and term loan repayments at EOPR and its subsidiaries, respectively. Nevertheless, Embassy REIT has demonstrated raising of debt at competitive rates to refinance the Series I NCD of ₹3,650 crore (plus interest accrued). EOPR is also exposed to the execution and marketing risks associated with upcoming projects and the cyclicity of the real estate and hospitality sectors.

Rating sensitivities

Positive factors – Factors that could lead to positive rating action/upgrade

Not applicable

Negative factors – Factors that could lead to negative rating action/downgrade:

- Net debt/GAV of more than 35%.
- Consolidated net debt/EBIDTA² of more than 5.5x.

Detailed description of the key rating drivers

Key rating strengths

Fairly diversified asset portfolio of Embassy REIT: EOPR's asset portfolio consists of commercial office space across four cities, hospitality, and a captive solar plant of 100 MW capacity. As on September 30, 2022, EOPR had 43.2 million sq ft (msf) of commercial space area, of which 33.4 msf is completed and 87% is occupied, 7.1 msf of under-construction space, while 2.7 msf is proposed development. The commercial space is diversified in Bengaluru, Mumbai, Pune, and the NCR region. EOPR also has completed hotels with an inventory of 1,096 keys and under-construction hotels of 518 keys in Bengaluru, apart from a

¹Complete definition of the ratings assigned are available at www.careedge.in and other CARE Ratings Ltd.'s publications

² For the calculation of debt/EBIDTA, EBIDTA is calculated as defined in NCD documents. As per which, EBIDTA also include 50% of EBIDTA of Golfinks Software Park P Limited plus fitout rentals plus rental support income.

100-MW solar park located in Ballari, Karnataka. The commercial office space portfolio contributes nearly 90% of the REIT's total revenue. Diversification in asset class and geographies mitigates the micro-market and industry-specific issues to a certain extent.

Healthy occupancy level of commercial assets and recovery in the hospitality segment: The occupancy levels of commercial office spaces remained healthy at 87% as on September 30, 2022, although moderated from 88.5% as on September 30, 2021, due to the impact of COVID-19. Moreover, the majority of the vacant space lies in the SEZ. Areas in the SEZ are inherently witnessing delayed leasing. Embassy REIT is in the process of converting some of its SEZ space into non-SEZ, which will enhance its marketability. Moreover, the passage of the proposed Development of Enterprises and Services Hub (DESH) bill by the Government of India (GoI) may also aid the leasing progress in the SEZ. As such, another 1.65 msf of the area is due for expiry in H2FY23-FY24 (refer to the period from April 1 to March 31), which may impact the occupancy levels in the near term. Nevertheless, as informed by the management, there has been an increase in enquiries, and the occupancy may improve in the medium to long term. For H1FY23, EOPR has signed over 3.4msf of leases which is ~70% of the FY23 guidance given by management. Furthermore, most of the leases expired or expiring were old leases generating lower than the current market rates, providing reasonable MTM opportunity to Embassy REIT. The assets of EOPR are occupied by tenants with strong credit profiles, with almost half of the gross leasable area leased out to Fortune 500 companies. The rental collection efficiency was strong at above 99% despite COVID-19. The satisfactory weighted average lease expiry (WALE) of seven years provides revenue visibility for the longer term. While the hospitality assets have been impacted severely by COVID-19, there is a gradual recovery in occupancy. As such, its contribution overall to EOPR is insignificant.

Strong debt protection metrics of Embassy REIT: The debt protection metrics of EOPR, marked by an LTV of 26% and net debt to EBIDTA of less than 5.0x, remained comfortable, giving it headroom to raise additional debt to fund future growth plans. CARE Ratings also takes note of the non-binding offer letter entered with the Embassy sponsor to acquire two assets, viz, Embassy Splendid Techzone, Chennai, and Embassy Hub, Bengaluru. CARE Ratings expects the above metrics to remain largely unchanged after the acquisition.

Key rating weaknesses

Execution risk associated with projects undertaken: EOPR plans to incur a capex of ₹3,659 crore, on a consolidated basis, over the next two to three years, which is likely to be majorly funded with debt. While the execution risk will persist to timely complete the project, comfort is drawn from the successful track record of EOPR in executing such projects. As per CARE Ratings' estimates, the net debt/GAV and net debt/EBIDTA are expected to remain below 30% and 5.5x in the near to medium term.

High refinancing risk: The debt raised by Embassy REIT and its subsidiaries are to be repaid in a bullet payment at the end of three to five years, exposing it to high refinancing risk. However, such risks are mitigated to an extent given the high financial flexibility arising from the low LTV, which provides ample headroom to raise additional debt and equity-raising possibilities. CARE Ratings also takes note of the demonstrated track record of EOPR refinancing several debts itself as well as of its subsidiaries, including refinancing of the relatively high-cost Series-I NCD in November 2021.

Liquidity: Strong

The liquidity of EOPR is superior owing to the strong debt coverage indicators, aided by minimal interim principal payments. While the bullet repayment exposes it to high refinancing risk, EOPR's low debt/GAV allows ample headroom to raise additional debt, including raising LRD loans in SPVs from banks for refinancing of NCDs. All the NCD instruments have multiple call options before the final maturity, which enables them to refinance the NCDs prior to the due date. Regulations allowing participation from pension funds, insurance companies, and now foreign portfolio investments (FPIs) have provided access to a larger investor base. Further restrictions imposed under REIT regulations in terms of undertaking under-construction projects limit the cash outflow towards the capex. At the consolidated level, EOPR had cash and cash equivalents of ₹123 crore as on September 30, 2022.

Analytical approach

The analysis of Embassy REIT is carried out on a consolidated basis, which includes its subsidiaries and associates mentioned in Annexure-6. The consolidated approach is taken due to the strong operational, financial, and managerial linkages between the entities.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
