#### **Detailed rationale and key rating drivers**

CARE had, vide its press release dated Sep 11, 2020, placed the rating(s) of Kalinga Media & Entertainment Private Limited (KMEPL) under the 'issuer non-cooperating' category as KMEPL had failed to provide information for monitoring of the rating and had not paid the surveillance fees for the rating exercise as agreed to in its Rating Agreement. KMEPL continues to be noncooperative despite repeated requests for submission of information through phone calls and emails dated October 11, 2022 and October 21, 2022 among others.

In line with the extant SEBI guidelines, CARE has reviewed the rating on the basis of the best available information which however, in CARE's opinion is not sufficient to arrive at a fair rating. Moreover, in line with RBI circular and guidance note dated April 22, 2022 and July 26, 2022, respectively, in the absence of structured payment mechanism, the credit enhancement approach is not being followed for rated facilities.

### Users of this rating (including investors, lenders and the public at large) are hence requested to exercise caution while using the above rating(s).

The ratings have been revised on account of lack of adequate information and uncertainty around the credit risk profile of the company. The rating derives strength from experienced promoter group, comfortable gearing ratios. The above strengths, are, however, offset by short track record of operations, moderation in financial performance, inherent high dependence on advertisement revenue and high competitive intensity in the news broadcasting space

### Detailed description of the key rating drivers **Key Rating Weaknesses**

Moderation in Financial performance: The total operating income of the company deteriorated to Rs. 15.53 crores during FY22 as against Rs. 17.61 crores during FY21. The EBIDTA margins was -1.17% during FY22 vis-à-vis 10.53 % during FY21.=

Inherent high dependence on advertisement revenue: The company's major source of income is through advertisements as it contributed 50% of the total revenue over the past years.

High competitive intensity in the news broadcasting space: Indian news broadcasting space is reflected by high degree of competitive intensity. With large number of channels competing for both viewership as well as limited corporate advertisement budget, there is huge focus on exclusive coverage of events, news collection from remote corners of the country and retention of journalistic talent. With launch of multiple new channels in all the segments there is significant competition for viewership

<sup>^</sup>backed by unconditional and irrevocable corporate guarantee of parent entity i.e., Kalinga Institute of Industrial Technology Society.

<sup>@</sup> In line with RBI's circular and guidance note dated April 22, 2022 and July 26, 2022, respectively, CARE Ratings has removed the 'CE' suffix wherever the credit enhancement terms were not fully in compliance with the terms as per the RBI guidelines

leading to increase in carriage fee. The carriage fee pay-out gets influenced by other existing/new channels which may have deep pockets. With digitalisation, multi-system operator (MSO) and other cable operators will be able to carry more channels leading to reduction of carriage fee.

#### **Key rating strengths**

**Strong promoter group:** Though the company has short track record of promoters, however it is a subsidiary of Kalinga Institute of Industrial Technology Society (KIIT) which enjoys good reputation in Eastern India, which is demonstrated by the high enrolment rate of around 96-98%. KIIT had a total strength of 26,205 students in Academic year 2018-19 in various undergraduate, post graduate and doctorial programs at its institutes located in Bhubaneswar, Odisha.

**Comfortable leverage ratio**: The capital structure of the company is comfortable marked by debt equity ratio of 0.05 times in FY22 as against 0.16 times in FY21. The overall gearing stands at 0.20 times in FY22 vis-à-vis 0.24 times in FY21.
