<b>Total Long-Term Instruments</b>	<b>49.00</b> <b>(Rs. Forty-Nine Crore Only)</b>		

Details of instruments/facilities in Annexure-1

**Detailed Rationale & Key Rating Drivers**

The reaffirmation in the rating assigned to the instrument of Kumar Housing Township Private Limited (KHTPL) continues to remain constrained by considerable execution and marketing risk due to nascent stage of the project, high dependence on customer advances, leveraged funding structure, stretched liquidity and funding risk due to pending financial closure for project costs, other than land.

The rating continues to remain constrained by competition and geographical concentration of projects, and inherent cyclical nature of the real estate industry. The rating continues to derive comfort from experience of the promoter- Kumar group, which has around five decades of presence in the real estate business.

**Rating Sensitivities**

**Positive Factors - Factors that could lead to positive rating action/upgrade:**

- Significant advancement in execution of overall development portfolio without any time or cost overrun.
- Achieving financial closure for entire project costs with repayments linked to construction progress
- Receipt of higher-than-envisaged collections on account of better sales momentum, coupled with profit levels higher than envisaged.

**Negative Factors- Factors that could lead to negative rating action/downgrade:**

- Delay in attaining envisaged sales and realizing potential revenue leading to stressed cash flows.

**Detailed description of the key rating drivers**

**Key Rating Weaknesses**

**Project execution risk due to nascent stage of the project:** The company is developing a residential township admeasuring 104 lsf of total saleable area. Total project cost of the company is estimated to be around Rs.3867 crore. As on Jan 31, 2022, the company has incurred only Rs. 396 crore (including land cost of Rs.358 crore which constitutes 10% of total project cost. Hence, there exists significant execution risk.

**High dependence on customer advances and leveraged capital structure:** The company is yet to incur project cost of over Rs.3400 crore, which is planned to be funded through customer advances of more than Rs.3000 crore and balance through additional debt draw down. Thus, there is high dependence on customer advances to fund the project cost. Furthermore, since the project has not been launched yet and sales is not initiated, there are no committed receivables from sold units. In the absence of committed receivables, company remains exposed to any cash flow mismatches arising out of low demand. This apart, the debt levels of the company are significantly high and will remain elevated until medium term, owing to scheduled bullet repayment of debt facilities. Hence, the funding pattern of the company remains leveraged.

**Funding risk due to pending financial closure:** While the company has achieved financial closure for acquisition of land cost, however, it has planned to raise additional debt for construction cost of the project. The same is under planning stage and yet not sanctioned. Hence, there exists funding risk. Any delay in receipt of funds shall extend the construction timeline and thereby accentuate execution and saleability risk.

**Competition and geographical concentration of projects:** The project is proposed at Manjri, Pune region thus there is a geographic concentration. Any downturn in such market will impact the revenues going forward. Furthermore, there are many new upcoming projects in these areas which are being developed by other players in the market. The other projects will result in additional inventory, which may lead to downward pressure on selling prices and saleability risk.

**Inherent cyclical nature of the industry:** The company is exposed to the cyclicity associated with the real estate sector which has direct linkage with the general macroeconomic scenario, interest rates and level of disposable income available with individuals. In case of real estate companies, the profitability is highly dependent on property markets. Although the interest rates have moderated, buyer sentiments are yet to improve. Any adverse impact due to macro-economic factors including slow down and adverse regulatory changes may have an impact on the sales velocity and thus impact the cash flow of the companies operating in the real estate sector.

### Key Rating Strengths

**Experienced promoter and management in real estate business:** KPIPL belongs to the Pune based Kumar group founded in 1966 and is engaged in the business of real estate development. The group has been involved in developing residential and commercial buildings and has diversified into engineering construction and plant biotechnology business. The company is jointly spearheaded by the third generation of the promoter family of the group, Mr. Manish Vimalkumar Jain, Director, who is an MBA by qualification and holds around 25 years of professional experience in the real estate business. He is ably supported by Mr. Yogesh Yeshwant Bhawe, Director and Chief Financial officer who is a Chartered Accountant by profession and holds around 20 years of experience in the real estate business. The group exhibits rich experience in developing real estate spaces in residential segment in the Pune region with more than 60 lsf of spaces developed both in economic and luxurious segment since inception.

### Liquidity: Stretched

Liquidity is marked by low cash and bank balance as on December 31, 2021, however there are no debt repayment obligations due in current fiscal and next fiscal, until financial closure for entire project cost is achieved. The project is yet to be launched and the company has not initiated sales, hence, company is yet to generate any funds from its projects. This, reflects stretched liquidity in near to medium term until KHTPL offloads the inventory and realizes healthy milestone-based payments.

**Analytical approach:** Standalone

### About CARE Ratings Limited:

Established in 1993, CARE Ratings Ltd. is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India (SEBI), it has also been acknowledged as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). With an equitable position in the Indian capital market, CARE Ratings Limited provides a wide array of credit rating services that help corporates to raise capital and enable investors to make informed decisions backed by knowledge and assessment provided by the company.

With an established track record of rating companies over almost three decades, we follow a robust and transparent rating process that leverages our domain and analytical expertise backed by the methodologies congruent with the international best practices. CARE Ratings Limited has had a pivotal role to play in developing bank debt and capital market instruments including CPs, corporate bonds and debentures, and structured credit.

### Disclaimer

The ratings issued by CARE Ratings Limited are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings Limited has based its ratings/outlooks based on information obtained from reliable and credible sources. CARE Ratings Limited does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings Limited have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings Limited or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE Ratings Limited is, inter-alia, based on the capital deployed by the partners/proprietor and the current financial strength of the firm. The rating/outlook may undergo a change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE Ratings Limited is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE Ratings Limited's rating.

Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
