<b>Total Bank Facilities</b>	<b>19.81</b> <b>(Rs. Nineteen Crore and Eighty-One Lakhs Only)</b>		

Details of instruments/facilities in Annexure-1

### Detailed Rationale & Key Rating Drivers

Supertex Industries Limited (SIL) has not paid the surveillance fees for the rating exercise agreed to in its Rating Agreement. In line with the extant SEBI guidelines, CARE Ratings Ltd.'s rating on SIL's bank facilities will now be denoted as **CARE D/CARE D; ISSUER NOT COOPERATING\***.

**Users of this rating (including investors, lenders and the public at large) are hence requested to exercise caution while using the above rating(s).**

### Detailed description of the key rating drivers

At the time of last rating on September 20, 2021, the following were the rating strengths and weaknesses:

#### Key Rating Weaknesses

**Modest scale of operations:** The scale of operations of SIL increased with the total operating income (TOI) having grown by 31.00% y-o-y to Rs.126.25 crore in FY20 from Rs.96.29 crore in FY19 on the back of increase in volumes sold led by higher demand in the export market coupled with increase in the business of trading textile fabrics from 10% of TOI in FY19 to 17% of TOI in FY20 due to higher demand from existing customers. Nevertheless, the overall scale of operations continues to remain modest. Furthermore, during Q1FY21, the company posted lower TOI of Rs.1.87 crore (vis-à-vis Rs.18.77 crore in Q1FY20) due to nationwide lockdown imposed by the government during COVID-19 pandemic situation.

**Low profit margins:** PBILDT margin of SIL stood low at 3.50% in FY20, given the yarns processing nature of operations. Moreover, the same has been fluctuating in the range of 3.02% to 3.81% over FY17-FY20 owing to fluctuating raw material prices which are primarily linked with crude oil and variation in trading activities. Further PBILDT margin of the company has declined to 3.50% in FY20 vis-à-vis 3.81% in FY19 on account of proportionate increase in the cost of traded goods from 12.85% in FY19 to 16.38% in FY20 which fetches relatively lower margins. Moreover during FY20 realization from manufacturing of yarn has also reduced marginally. Despite of marginal deterioration in the PBILDT margin & increase in interest cost & depreciation expenses, the PAT margin has improved and stood at 0.79% in FY20 as against net loss incurred in FY19.

**Weak Debt coverage indicators:** SIL's debt coverage indicators stood weak marked by total debt to GCA has deteriorated and stood at 13.30 x in FY20 vis-à-vis 12.30x in FY19. Further the interest coverage ratio has also deteriorated marginally to 1.62x in FY20 vis-à-vis 1.75x in FY19. The same was attributable due to increase in the debt level and thereby interest cost during FY20.

**Working capital intensive nature of operations:** The operations of SIL are working capital intensive in nature on account of funds are being blocked primarily in receivables owing to higher credit period extended to the customers on the back of established relationship with them coupled with intense competition in the market, since the company is required to extend a credit period of over 100 days to its customers, which is also prevalent to the textiles industry. However, the collection period has improved to 115 days in FY20 (vis-à-vis 148 days in FY19). Further, the company maintains relatively low level of inventory due to easy availability of the raw material. On the other hand it receives credit period of around 60-90 days which led to average creditors' period of 60 days in FY20 (vis-à-vis 83 days in FY19). All taken collectively, the operating cycle stood high at 76 days in FY20 (vis-à-vis 97 days in FY19).

**Customer & Supplier concentration with foreign exchange fluctuation risk:** SIL is exposed to significant supplier & customer concentration risk, since more than 50% of sales cater to one customer and around 77% of its annual purchases are

<sup>1</sup>Complete definition of the ratings assigned are available at [www.careedge.in](http://www.careedge.in) and other CARE Ratings Ltd.'s publications

contributed by top 5 suppliers. SIL is also exposed to significant foreign exchange fluctuation risk, given the high contribution of exports to the net sales, which stood at 60% in FY20. Moreover, the company does not deprive any benefits from natural hedge in absence of the imports. However, the company enjoys forward contract facility from the bank; thereby serving as a hedge to the said foreign exchange exposure and mitigate the forex risk to an extent.

**Susceptibility of profit margins due to volatility in the prices of raw material:** The key raw material of SIL is Polyester textured filament yarn (PTY), Sizing Yarn and Partially Oriented Yarn (POY). These raw materials are derivatives of crude oil and its price is dependent on movement of crude oil prices. Further, key raw material has to be purchased from bigger players; therefore bargaining power of the company remains low. Accordingly, the profitability margins of the company are susceptible to fluctuation in raw material prices. With limited ability to pass on the increase in raw material costs in a competitive operating spectrum, any substantial increase in raw material costs would affect the company's profitability.

**Presence in competitive and fragmented industry:** SIL operates in a highly competitive and fragmented textile industry. The company witnesses intense competition from both the other organized and unorganized players domestically. This fragmented and highly competitive industry results into price competition thereby posing a threat to the profit margins of the companies operating in the industry.

### Key rating Strengths

**Long track record of the operations with highly experienced promoters:** SIL has established more than three decades of track record in textile processing industry in which the company has maintained long term relations with its customers and suppliers. SIL is managed by experienced directors who have average experience of around three decades in the business of polyester yarns manufacturing & fabric trading activities majority of which has been gained by them in the due course of their association with this company. The extensive experience of the promoters enables them to establish strong marketing connects and production process excellence for SIL.

**Comfortable capital structure:** SIL's capital structure remained comfortable although it has deteriorated marginally to 0.77x as on March 31, 2020 (vis-à-vis 0.71x as on March 31, 2019) mainly on account of increase in overall borrowings mainly due to addition of unsecured loan coupled with higher utilization of working capital limit as on balance sheet date.

### Liquidity position: - Stretched

The liquidity position remained stretched marked by tightly matched accruals to repay its debt obligations. Its average cash credit limit utilization remained high at 95% during past 12 months ended August 2020. Further, free cash and bank balance remained low at Rs.0.35 crore as on March 31, 2020 (vis-à-vis Rs. 0.47 crore as on March 31, 2019). The current ratio and quick ratio stood moderate at 1.28x and 1.15x respectively as on March 31, 2020 (vis-à-vis 1.40x and 1.21x respectively as on March 31, 2019). Further cash flow from operating remained positive at 2.34 crore in FY20 (vis-à-vis Rs. 1.26 crore in FY19). SIL has availed moratorium in debt servicing along with emergency credit line under RBI COVID-19 regulatory package from Axis Bank Limited & Punjab National and the same has been approved by the banker.

**Analytical approach:** Standalone

**About CARE Ratings Limited:**

Established in 1993, CARE Ratings Ltd. is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India (SEBI), it has also been acknowledged as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). With an equitable position in the Indian capital market, CARE Ratings Limited provides a wide array of credit rating services that help corporates to raise capital and enable investors to make informed decisions backed by knowledge and assessment provided by the company.

With an established track record of rating companies over almost three decades, we follow a robust and transparent rating process that leverages our domain and analytical expertise backed by the methodologies congruent with the international best practices. CARE Ratings Limited has had a pivotal role to play in developing bank debt and capital market instruments including CPs, corporate bonds and debentures, and structured credit.

**Disclaimer**

The ratings issued by CARE Ratings Limited are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings Limited has based its ratings/outlooks based on information obtained from reliable and credible sources. CARE Ratings Limited does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings Limited have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings Limited or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE Ratings Limited is, inter-alia, based on the capital deployed by the partners/proprietor and the current financial strength of the firm. The rating/outlook may undergo a change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE Ratings Limited is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE Ratings Limited's rating.

Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
