Details of facilities in Annexure-1

Detailed Rationale & Key Rating Drivers

Sadbhav Infrastructure Project Limited (SIPL) has not paid the surveillance fees for the rating exercise as agreed to in its Rating Agreement. The rating on SIPL's bank facilities will now be denoted as CARE B / CARE A4 (CWN); ISSUER NOT COOPERATING*. CARE Ratings notes that SIPL has been furnishing necessary monthly declarations to CARE, as per extant Securities and Exchange Board of India (SEBI) guidelines and it has been regular in debt servicing according to those declarations.

Users of this rating (including investors, lenders and the public at large) are hence requested to exercise caution while using the above rating(s).

The revision in rating assigned to the bank facilities of SIPL takes into account the sustained delay in the physical progress of works as on March 31, 2022, in respect of its hybrid annuity model (HAM) projects for various reasons. Notwithstanding the extension of time (EOT) granted by authority, delay in completion of these projects beyond agreed upon timelines, exposes company to performance risk thereby attracting levy of damages etc. The rating also factors issuance of notice of intention to terminate concession agreement (CA) by National Highways Authority of India (NHAI; rated CARE AAA; Stable) for one of its HAM projects- Sadbhav Bangalore Highway Private Limited (SBHPL). Inordinate delays in projects execution is expected to deteriorate financial performance of the company in the medium term.

Furthermore, the liquidity of Sadbhav group² continued to remain stretched given inordinate delay in materialization of various fund-raising plans and elongated gross current asset days. It was envisaged that the stake sale transaction in one of the special purpose vehicles (SPV)- Ahmedabad Ring Road Infrastructure Limited (ARRIL) shall be concluded by Q4FY22. However, the same is still awaited.

Sadbhav group had also entered into stake sale agreement with Adani group for sale of its entire stake in Maharashtra Border Check Post Network Limited (MBCNL) and the large proceeds from the same were envisaged to be received by October 2021. Management has indicated receipt of part tranche of Rs.290 crore during Q4FY22 (refers to the period from January 01 to March 31) while balance tranche of Rs.260 crore is now envisaged post receipt of approval from Government of Maharashtra (GoM) and completion of balance residual work by Q2FY23. The rating continues to remain on 'Credit Watch with Negative Implications' as materialization of aforementioned transactions as well as planned stake sale in its operational hybrid annuity model (HAM) projects and timely receipt of stake sale proceeds from the same as they are imperative for Sadbhav group.

Nevertheless, rating continues to derive strength from the established track record of the Sadbhav group in construction segment along with favourable prospects of road sectors amidst surge in competitive industry.

Detailed description of the key rating drivers

At the time of last rating on June 02, 2022, the following were the rating strengths and weaknesses:

Detailed description of the key rating drivers

Key Rating Weaknesses

Sustained delay in the execution of various HAM projects

As against the expectation of gradual ramp-up in the pace of execution, it continued to remain slow leading to delay in all its on-going HAM projects. The physical progress of works as on March 31, 2022 in respect of Sadbhav Vidarbha Highway Private Limited (SVHPL), Sadbhav Kim Expressway Private Limited (SKEPL) and Sadbhav Nainital Highway Private Limited (SNHPL) continued to remain delayed as mentioned by statutory auditor. In addition, NHAI has also issued notice of intention to terminate CA in one of the HAM projects- SBHPL due to delay in completion of work beyond EOT. Inordinate delay in project execution along with curing such delays beyond permitted extension of time (EOT) heightens risk related to levy of damages by

²Combining SEL (standalone) and Sadbhav Infrastructure Project Limited (SIPL; standalone) financials

*Issuer did not cooperate; Based on best available information

authority as per contractual terms which is further expected to deteriorate the credit profile of the group. Inordinate delays in projects execution is expected to deteriorate financial performance of the company in the medium term.

Inordinate delay in receipt of various stake sale proceeds

During last review, materialization of various fund-raising plans including ARIL, MBCNL and stake sale in various operational HAM projects was envisaged to improve the liquidity position of the group. The stake sale transaction in ARIL was expected to be concluded by Q4FY22. However, the same is still awaited despite receipt of NOC from Authority during November 2020. As indicated by the management, ARIL has received cash inflow of around Rs.98 crore during Q1FY23 towards payment compensation of exempted cars from the authority, majority of which have been used towards working capital requirements. Sadbhav group had also entered into stake sale agreement with Adani group for sale of its entire stake in MBCNL and the part proceeds from the same were envisaged to be received by October 2021. Management has indicated receipt of part tranche of Rs.290 crore during Q4FY22 while balance tranche of Rs.260 crore is envisaged post receipt of approval from Government of Maharashtra (GoM) and completion of balance residual work by Q2FY23. Furthermore, there is no movement with respect to stake sale deals of operational HAM projects.

Key Rating Strengths

Established track record of the Sadbhav group in Indian construction sector

SEL has a track record of over two decades in the Indian road construction sector. SEL has successfully completed construction of more than 8,400 lane km of road projects since its establishment.

GoI initiatives to improve prospects of road construction

The GoI, through the NHAI, has taken various steps to improve the prospects of the road segment. These include premium rescheduling for stressed projects, bidding of tenders only after 80% of land has been acquired for the project, release of 75% of arbitration award against submission of bank guarantee, and 100% exit within six months from the COD. NHAI has also made favourable changes in the clauses of the model concession agreement (CA) of HAM projects and linked interest annuities to the average MCLR of the top five scheduled commercial banks in place of bank rate. Furthermore, to ease the funding and smoothen the cash flows of the projects during the construction phase due to the COVID19 pandemic, NHAI has also permitted disbursement of monthly grants and bills against the works billed, as against the previous milestone-based payments until October 30, 2022. The relaxation in the bidding criteria such as the waiver of bid bond guarantee led to stiff competition in the road segment since Q3FY21. However, with the sizeable order inflows to mid-sized EPC contractors as well as tightening of norms by the NHAI, the competition is expected to relax.

Liquidity: Stretched

Gross current asset days elongated to 637 days during FY21 owing large proportion of receivables for ongoing HAM projects. Stretched current assets levels, sustained delay in scaling up of operations owing to large proportion of slow-moving order book and cost overrun in ongoing HAM projects are the prominent reasons for the stretched liquidity. Liquidity position was earlier expected to ease out gradually with improvement in the pace of execution and receipt of large cash inflow of around Rs.1100 crore in H1FY22 to shore up liquidity. Nevertheless, the liquidity of the group continued to remain stretched indicating no meaningful improvement in the gross current asset days. Utilization of the fund based working capital limits for the trailing twelve months ended April 2022 stood high. Liquidity is expected to remain weak given execution delays and inordinate delay in materialization of various fund raising plans.

Analytical approach: Combined

CARE has taken a combined view of SEL (standalone) and SIPL (standalone) for analytical purpose. This is because majority of the long-term debt raised in SIPL is backed by unconditional and irrevocable corporate guarantee of SEL. Further, SEL and SIPL have operational and financial linkages for funding investment in new projects, bridging of shortfall in select SPVs as well as up-streaming of cash flow of SPVs.

About the Company

SEL had floated a 100% subsidiary, SIPL, in January 2007, as a holding company for its BOT projects. During FY11, SEL diluted 22.22% of its stake through the issue of fresh equity of Rs.300 crore and compulsory convertible cumulative preference shares (CCCPs) of Rs.100 crore to private equity (PE) investors. Proceeds of PE were utilized by SIPL for fulfilling its equity commitment in BOT projects. During September 2015, SIPL raised Rs.425 crore through Initial Public Offer (IPO) of its equity shares. During FY20, SIPL executed share purchase agreement with IndInfravit Trust (IndInfravit) and sold its entire stake in eight operational build operate transfer (BOT) special purpose vehicles (SPV), while the stake sale is awaited in one operational

SPV. Post the transaction, Sadbhav Group had a portfolio of 14 BOT projects (four operational toll road projects, ten under construction HAM projects of which five HAM projects have received PCOD on partial length). Further, as per stock exchange announcement dated October 19, 2019, SIPL would be merged with SEL with effect from April 1, 2019 subject to various statutory and regulatory approvals including approval of National Company Law Tribunal (NCLT). Most of the requisite approvals have been obtained as per stock exchange announcement in January 2021.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
