*Details of instruments/facilities in Annexure-1.*

**Detailed rationale and key rating drivers**

The reaffirmation in the ratings assigned to the bank facilities, non-convertible debentures (NCD) of The Indian Hotels Company Limited (IHCL) considers IHCL's established parentage (With 35.74% stake held by Tata Sons Private Limited) by virtue of which the company enjoys significant financial flexibility, dominant position of the company in the Indian hospitality sector, strong brand image, its global presence and increasing focus on an asset light model. The ratings further consider the significant deleveraging exercise taken by IHCL to strengthen its balance sheet supported by increase in Average Room Rate (ARR) and occupancy levels in FY22 (FY refers to the time between April 01 to March 31). Consistent improvement in the operating metrics during the last two quarters, backed by increased domestic tourism and business travel activity, weddings/social MICE, and corporate events further adds comfort to the rating reaffirmation. Going forward, with industry leading pipeline of rooms mainly in the form of managed contracts, brand placement across different segments, marginal term debt obligations will further aid strengthening the position of IHCL in the domestic hospitality segment.

The rating strengths are however, marginally tempered by the current economic distress in both domestic and global regions leading to a check up on the leisure spendings, travel and other discretionary spending activities which impact the pricing power of the company. Further, IHCL's contingent exposure towards the rental dispute with Mumbai Port Trust (MPT) and delay in sea rock property development is also a key credit monitorable going forward. In addition to these, the company is also exposed to industry cyclical/seasonality, macro-economic cycles, and other uncertain activities (geo-political crisis, terrorist attacks,

<sup>1</sup>Complete definition of the ratings assigned are available at [www.careedge.in](http://www.careedge.in) and other CARE Ratings Ltd.'s publications

disease outbreaks, etc). However varied geographies/segments/offering portfolio will partially shield company against some of these inherent risks.

CARE ratings have withdrawn the ratings assigned to the following NCD issue of IHCL with immediate effect, as the company has repaid the NCD issue of Rs 495 crore and Rs 250 crore (ISIN: INE053A07182 and INE053A08123 respectively) in full and there is no amount outstanding under the issue as on date. In addition, CARE have also withdrawn the term loans and CP issue of IHCL based on the NDC provided by the banker and redemption certificate of CP received from the IPA agent. The rating to the facilities stands withdrawn with immediate effect.

### **Rating sensitivities**

#### **Positive Rating Sensitivities**

- ✓ Ability of the company to achieve a consistent operating profit margin of 25%.
- ✓ ROCE of more than 20%.
- ✓ Ability of the company to increase revenue contribution from management contracts to 20% of the total revenue.

#### **Negative Rating Sensitivities**

- × Deterioration in the overall gearing to more than 1.3x
- × Unanticipated occurrence of any event leading to disruption in travel/leisure activities

### **Outlook: Positive**

The outlook is on account of expected healthy improvement in the occupancy levels and ARR for the company aided by strong demand from domestic segment. The company had witnessed a strong Q1FY23, which is historically highest for the company in terms of profitability and turnover. CARE expects that with no major debt obligation for the company, increased focus on the management contract approach, IHCL is in a strong position to further consolidate its position as one of the largest hospitality companies in India. With an expected addition of around 1000 rooms across various segment in FY23, IHCL further aims to improve its geographical presence supported by asset light strategy. The outlook may be revised to stable if the key operational metrics (Occupancy rate and ARR) of the company demonstrate significant decline in the next two quarters.

### **Detailed description of the key rating drivers**

#### **Key rating strengths**

#### **Dominant position in the Indian hospitality sector with strong brand equity and global presence**

IHCL occupies a leading position in the Indian Hospitality industry through its diversified hotel inventory under 'Taj Hotels, Resorts and Palaces', Vivanta, SeleQtions and Ginger brands. IHCL has, over a period, strengthened its presence and operations across India and select overseas destinations. The company is also among the largest hospitality companies in Asia and has been recognised as the 'World's Strongest Hotel Brand' as per the Brand Finance Hotels 50 Report 2021 and Nation's strongest brand in 2022. The company has repositioned its brands and has a portfolio of economy, upscale, select hotels and luxury segments. The company has also strengthened its presence over the past few years with room inventory of 10,587 at the end of FY08 to a room inventory of 28107 rooms as of March 31, 2022 (Inclusive of pipeline). The company also has selective presence in the luxury segment in the US, the UK, Africa, Sri Lanka, the UAE, and Maldives through owned and managed properties. Apart from the room income, which accounts for 50% of the total consolidated revenues, the company also generates income from other avenues such as Food & Beverages (F&B), management fees, membership fees, etc. Income from management fees for FY22 stood at Rs 231 crore (PY: Rs.136.45 crore).

#### **Strong parentage and strategic importance to the Tata group; demonstrated support from parent, proven track record of management**

IHCL is a part of the USD 150+ billion Tata Group which comprises over 100 operating companies in seven business sectors, namely, communications and information technology, engineering, materials, services, energy, consumer products, and chemicals. The group has operations in more than 100 countries across six continents, and its companies export products and services to 85 countries. IHCL is one of the largest companies in terms of market capitalisation within the Tata group, with

market capitalisation of Rs.48,500 crore as of October 03, 2022. The company enjoys strong support from its key promoter Tata Sons Private Limited (TSPL) (35.74% stake) and is also an important strategic business for the Tata group.

### **Widespread portfolio across geographies and price points and strong pipeline**

As of March 31, 2022, IHCL has a vast room inventory of 20851 rooms spread across 88 locations in India and is present in geographies such as India, Asia, the US, Middle East, Africa, and the UK. The company offers rooms across different price points through its different brands Taj (luxury), Vivanta (upscale) and Ginger (economy). The widespread portfolio makes the company better placed to overcome downturn as well as any adverse geographical impact.

Further, the company also have a strong pipeline of 7166 rooms with management contracts being the majority part of the pipeline. As a part of the IHCL strategic plans, the company expects adopt asset light approach and hence is increasing its focus on management contracts.

### **Improved operational performance backed by rebound in the tourism**

Operating income of the company increased by ~91% driven by increased occupancy rate during FY22 coupled with healthy improvement in average room rate (ARR) in both owned category and management rooms category. During FY22, the company had recorded an occupancy level of 53% (PY: 39%) supported by an ARR of Rs 9717 leading to healthy revival in the scale of operations after two muted years.

### **Significant improvement in the capital structure**

During FY22, IHCL has raised ~ Rs 4000.00 crore in the form of right issue and QIP placement for debt reduction at both IHCL standalone and its subsidiaries level. This had resulted in the reduction of total debt to Rs 3887.87 crore (PY: Rs 5518.33 crore) as on March 31, 2022. Further, the company is net debt negative (Excluding lease liabilities). Post the fund infusion, the over all gearing of the company had reached below unity.

### **Future expansion plans with continued focus on asset light strategy**

IHCL has been expanding its footprint mainly through management contracts. As on March 31, 2022, the company has 12929 rooms under management contracts (Inclusive of rooms under pipeline) which accounts to ~46% of the total room inventory of the company, which is in line with the company's projection of having 50% managed rooms by FY25. During FY22, the company earned Rs 231.38 crore (PY: Rs.136.45 crore) through management and operating fees on consolidated basis. Although it accounts for over 7% of its consolidated revenue, the income from management contracts is expected to increase gradually.

### **Key rating weaknesses**

#### **US subsidiary and Roots Corporation continue to make losses**

IHCL's two major operating subsidiaries – Roots Corporation Ltd. (RCL) and United Overseas Holdings Inc. (USA) (UOH, Inc.) which were posting losses historically. In FY22, the company had acquired the entire shareholding of RCL and made it wholly owned subsidiary of IHCL and bringing "Ginger" in the brand hold of IHCL. RCL operates the economy brand 'Ginger' through RCL, which has a room inventory of 4756 rooms, and it operates two hotels and 299 rooms through UOH. The company has also started an exercise, wherein, it is repositioning the 'Ginger' brand from 'economy' hotel to 'lean-luxe' hotel and increasing ARR by Rs.1,000-1,500.

However, for the Q1FY23, both the subsidiaries had demonstrated healthy improvement in their operational performance and have reached around 80% of their pre covid operating levels.

#### **Litigation with Mumbai Port Trust**

There is a long-pending lease rental-related dispute with Mumbai Port Trust (MPT) on which the Taj Mahal Palace, Mumbai, is located, wherein MPT has demanded an additional rental claim of Rs.577.43 crore (13 times the previous annual rental) from 2006-07. The hotel stands on a 4,000 sq m plot belonging to the MPT. The company has filed a 'notice of motion' before the Bombay High Court for a stay against any further proceedings by the lessor, pending the resolution of this dispute. The matter is sub-judice and any adverse outcome could impact IHCL's liquidity and profitability significantly.

**Sea Rock property still awaiting clearances**

Since acquiring the property, a decade back, IHCL is still awaiting clearances from the Coastal Regulation Zone to rebuild the property. The funding pattern of the Capex to rebuild the property will determine the impact on IHCL's capital structure. The company has made a part payment towards acquisition of equity shares of ELEL Hotels and Investments Limited and made it a wholly owned subsidiary as on December 28, 2021. However, as per management, the company will not be infusing funds for sea rock property but will bring an external party for development once all the approvals are in place.

**Macro-economic factors and seasonal uncertainty**

The company is exposed to the changes in the macro-economic factors, industrial growth, and tourist arrival growth in India, international and domestic demand supply scenarios, competition in the industry, government policies and regulations and other socio-economic factors, which leads to inherent cyclicalities in the hospitality industry. These risks can impact the occupancy rate of the company and, thereby, the company's profitability. However, these risks are to an extent mitigated by the company through a judicious mixture of owned and leased hotels and through its extensive presence across the value chain and a strong brand image.

**Uncertain global economic outlook**

The global economy is still in a state of uncertainty driven by heightened recession fears, increased interest rates, Russia-Ukraine conflict and various other socio-political events. In such circumstances, the willingness to spend of travel/leisure segment will be limited as the individual will prefer to save for a future uncertainty rather than luxury. Instances/Decisions like these will adversely impact the performance of the industry on both operational and financial aspects.

**Hospitality Industry Outlook**

After an abysmal FY21, the Indian hospitality sector made a steady recovery in FY22 as successful vaccination drives and reduction in Covid cases have helped improve travel sentiment. Though the Omicron wave caused a temporary blip, FY22 has witnessed a sharp rebound in revenues. The revival can be largely attributed to pent-up demand for leisure and business travel, supported by increased bookings on account of weddings and significant uptick in MICE (meetings, incentives, conferences, and exhibitions). The sector is on track to achieve or even surpass the pre-Covid level occupancies in FY23. Demand for leisure travel, business travel for client meetings as well as project work are gaining steam.

**Liquidity: Strong**

Liquidity is marked by strong accruals against repayment obligations and liquid investments to the tune of Rs.1276 Crore as on June 30, 2022 (Up from Rs 1180 crore as on March 31, 2022). With a gearing of 0.60 times as of March 31, 2022, the company has sufficient gearing headroom, to raise additional debt for its capex. With an average utilisation of less 10% for the past twelve months, the company more than adequate to meet its incremental working capital needs over the next one year. Further, the company is also net debt (Excluding lease liabilities) negative considering the funds raised from QIP and rights issue.

**Analytical approach: Consolidated.** The list of subsidiaries considered for consolidation is given as Annexure-6.

## About the company

Incorporated in 1903, IHCL is promoted by Tata Sons Pvt Limited. It has long-standing operations spanning over 100 years and operates the largest chain of hotels in South Asia. IHCL, its subsidiaries and associates are widely recognised under the umbrella brand name 'Taj Hotels Resorts and Palaces', which has 240 hotels with a room inventory of 28,650 rooms (With Pipeline) globally across four continents, 12 countries and in over 100 locations. This includes presence in India, North America, the UK, Africa, Middle East, Malaysia, Sri Lanka, Maldives, Bhutan, and Nepal. IHCL has presence across luxury, upscale and value segments of the market through its various brands, i.e., Taj Hotels Resorts and Palaces, Vivanta, SeleQtions, AMA and Ginger, respectively. The group also has presence in air catering, spas, wildlife lodges and service apartments.

### About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

### Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
