### Detailed Rationale & Key Rating Drivers

CARE has reaffirmed the credit quality ratings assigned to UTI Overnight Fund, UTI Short Term Income Fund and UTI Treasury Advantage Fund. These funds are managed by UTI Asset Management Company Limited (AMC).

Schemes rated 'CARE AAAMfs' are considered to have highest degree of safety regarding timely receipt of payments from the investments that they have made.

CARE's fund credit quality ratings are opinions on the overall credit quality of specific Debt Mutual Fund scheme. CARE's fund credit quality rating is not a recommendation to purchase, sell, or hold a security / fund. It neither comments on the current market price, suitability for a particular investor nor on the prospective performance of the fund with respect to appreciation, volatility of net asset value (NAV), or yield of the fund. The ratings do not address the funds ability to meet the payment obligations to the investors.

The fund ratings capture fund's overall exposure to default risk. CARE's fund credit quality ratings are based on evaluation of the fund's investment strategy and portfolio credit risk. It also involves evaluation of credit quality of individual assets as well as diversification of portfolio. CARE uses the concept of credit scores, assigned to individual securities, as per credit scoring matrix developed by CARE.

CARE reviews the rated mutual fund scheme on an ongoing basis to support its published rating opinions. As such, monthly reports of the fund are examined. While the fund has to maintain the fund credit score within the benchmark fund scores, in a particular month, if the fund credit score breaches the benchmark, CARE generally provides one month to the asset management company (AMC) to realign the score. The credit score of the above three schemes are on the basis of April 2021 portfolio which are within the benchmark set by CARE.
