### Detailed Rationale & Key Rating Drivers

CARE had, vide its press release dated March 13, 2020, placed the ratings of Power Engineering Corporation (PEC) under the 'issuer non-cooperating' category as PEC had failed to provide information for monitoring of the rating as agreed to in its Rating Agreement. PEC continues to be non-cooperative despite repeated requests for submission of information through e-mails, phone calls and emails dated January 27, 2021 and June 07, 2021 among others.

In line with the extant SEBI guidelines, CARE has reviewed the rating on the basis of the best available information which however, in CARE's opinion is not sufficient to arrive at a fair rating.

**Users of this rating (including investors, lenders and the public at large) are hence requested to exercise caution while using the above rating(s).**

The revision in the rating assigned to the bank facilities of PEC takes into account non-availability of information due to non-cooperation by PEC with CARE'S efforts to undertake a review of the rating outstanding and no due diligence conducted with the bankers and auditors. CARE views information availability risk as a key factor in its assessment of credit risk.
