Rationale and key rating drivers

CARE Ratings Ltd. had, vide its press release dated November 18, 2021, placed the rating(s) of Amar Alloys Private Limited (AAPL) under the 'issuer non-cooperating' category as AAPL had failed to provide information for monitoring of the rating and had not paid the surveillance fees for the rating exercise as agreed to in its Rating Agreement. AAPL continues to be non-cooperative despite repeated requests for submission of information through e-mails, phone calls and a letter/email dated October 04, 2022, October 14, 2022, October 24, 2022.

In line with the extant SEBI guidelines, CARE Ratings Ltd. has reviewed the rating on the basis of the best available information which however, in CARE Ratings Ltd.'s opinion is not sufficient to arrive at a fair rating.

Users of this rating (including investors, lenders and the public at large) are hence requested to exercise caution while using the above rating(s).

The ratings have been revised on account of non-availability of requisite information. The ratings also consider a decline in scale of operations and profitability as well as increase in overall debt in FY21 compared to FY20.
