Rationale and key rating drivers

The ratings assigned to the various debt instruments of Aadhar Housing Finance Limited (AHFL) continues to derive strength from its leading market position in the affordable housing segment, geographically well diversified loan portfolio, comfortable asset quality parameters largely supported by its exposure to retail housing loan portfolio, diversified resource profile with access to a wider base of banks and financial institutions and increased market borrowings. The ratings also take into account AHFL's comfortable capitalization levels. Although the asset quality has remained stable in the past, the rating is constrained on account of the target customer segment comprising of low-income group rendering the asset quality vulnerable to economic downturns. Further, the seasoning of the portfolio remains moderate considering the long tenure of housing loan portfolio although it has been on an improving trend with growth stabilizing over the past three financial years. In the near term, sustenance of asset quality in non-housing segment is key to maintain overall asset quality as non-housing loan book grew at relatively higher rate in the past two years ended March 31, 2023. However, housing loan remains main focus area and expected to remain major chunk of AHFL's loan book.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors- Factors that could, individually or collectively, lead to positive rating action/upgrade

- Increase in operational scale depicting improved competitive positioning in the segment.
- Ability to maintain profitability with ROTA > 3% on sustained basis along with sustenance of asset quality in non-housing segment.

Negative factors- Factors that could, individually or collectively, lead to negative rating action/downgrade

- Any evidence of weakening of AHFL's leading market position in the affordable housing finance business.
- Increase in gearing levels beyond 4.5x on a net basis.
- Weakening in asset quality on a continuous basis with GNPA > 3%.

Analytical approach:

Standalone

Outlook: Stable

CARE Ratings Limited (CARE Ratings) believes that the entity shall sustain its business and financial risk profile with credit cost under control over the medium term.

Detailed description of the key rating drivers:

Key strengths

Comfortable capitalization levels: As on March 31, 2023, capital levels remained adequate with a tangible net worth of Rs. 3,695 crore (March 31, 2022: Rs. 3,145 crore) resulting in a Capital Adequacy Ratio (CAR) of 42.73% (March 31, 2022: 45.41%) and Tier 1 ratio of 41.66% (March 31, 2021: 44.20%). This provides AHFL with ample headroom to fund growth its for the next two to three years. The net leverage stood at 2.78 times as on March 31, 2023. (March 31, 2022: 2.86 times). AHFL had earlier

¹Complete definition of the ratings assigned are available at www.careedge.in and other CARE Ratings Ltd.'s publications

filed its DRHP and the IPO comprises fresh issuance aggregating up to Rs. 1,500 crore by the company and an offer for sale aggregating up to Rs. 5,800 crore by BCP Topco VII PTE. Ltd. However, on account of unfavourable market scenario company did not come up with the IPO and the SEBI approval has expired on May 06, 2023. CARE Ratings understands that company is planning for refiling of DRHP. Nevertheless, CARE Ratings expect the capitalisation (as measured by CAR) of the company to be comfortably above 35% in the near term.

Leading market share with a well-diversified business: AHFL is a leading, low-ticket, affordable housing finance company. The AUM outstanding stood at Rs. 17,223 crore as on March 31, 2023 registering a growth of 16.5% over last year. The geographic concentration risk is relatively low with presence across India and has improved over a period of time. AHFL has presence across 20 states in India with penetration into the Tier 2 and Tier 3 cities. The top 5 states as per the AUM are Uttar Pradesh (14.2%), Maharashtra (14.1%), Rajasthan (12.4%), Gujarat (11.0%), Madhya Pradesh (10.2%), as on March 31, 2023. Going forward, AHFL's growth likely to be supported by the overall impetus provided to the affordable housing sector through various government schemes and initiatives. CARE Ratings expects AHFL to further widen its reach in the existing states in newer cities, especially the outskirts of urban cities and semi-urban areas.

Healthy profitability levels: Company's profitability has been on an improving trend with improvement in NIMs supported by improvement in yield on advances alongwith with decline in overall cost of funds. Company's NIM² stood at 6.51% in FY23 as against 5.72% in FY22. Further, other income witnessed increase of 42% during FY23 with increase in disbursements and increase in direct assignment income. Same led to improvement in PPOP by 25.0% to Rs.770 crore in FY23 as against Rs.616 crore in FY22. Company's Opex/average total assets stood at 2.75% (FY22: 2.25%) which has witnessed increase on account of branch additions and IT expenses related to the IT transformation being undertaken by the company. PPOP/ avg assets improved to 4.97% in FY23 as against 4.40% in FY22. Credit cost remained low at 0.32% in FY23 (FY22:0.35%) on average asset due to improving asset quality. Consequently, ROTA witnessed improvement to 3.52% in FY23 as against 3.18% in FY22.

The company's ability to source funds at competitive rates and keep operational expenses under control would be critical to attaining healthy profitability. Company maintaining sustainable profitability while keeping its credit costs under control would drive the growth prospects.

Comfortable asset quality supported by a retail housing finance portfolio: Gross Stage 3 assets (GS3) as a % of loans outstanding stood at 1.17% and Net Stage 3 assets (NS3) at 0.77% as on March 31, 2023 (post reclassification of NPA based on RBI circular dated November 12,2021) as against GNPA at 1.54% and NNPA at 1.07% as on March 31, 2022. The provision coverage ratio stood at 34% as on March 31,2023 (29% as on March 31, 2022). Restructured assets stood at Rs. 436 crore forming 2.45% of the loans outstanding as on March 31, 2023 as against Rs. 509 crore forming 3.45% of the loans outstanding as on March 31, 2022.

CARE Ratings notes that AHFL has nil exposure towards developer finance segment and gradually increasing its exposure to non-housing, i.e., LAP (Loan against property) segment which is expected to stabilize. Average ticket size of LAP book stood at 7.6 lakh in FY23. Furthermore, the borrowers are largely from the retail salaried class. This has helped AHFL to maintain asset quality metrics in a moderate range. Even so, asset quality remains vulnerable due to exposure to low-income borrowers who have a high likelihood of revenues being affected adversely, especially during economic downturns. While the company has been able to maintain the asset quality till now, sustenance of the same remains a key monitorable amidst higher growth in LAP book in the last two years ended March 31, 2023.

Diversified resource profile: Funding mix as of March 31, 2023, consists of bank borrowings (54%), NCD including subordinate debt (21%), NHB re-finance (25%) and Public deposits (0.03%). Company has been able to diversify its resource base over the years, borrow at competitive rates and also build relationships especially with public/private banks. The company has established lender base network of 21 lenders as on March 31, 2023.

Experienced Management: The operations of the company are led by Mr. Rishi Anand (MD & CEO) who has a vast experience of more than 25 years in the financial services sector. Prior to his current appointment as MD and CEO w.e.f. January 03, 2023, he held the position of the COO of AHFL. Mr. Rajesh Viswanathan is the CFO of AHFL. Mr. Viswanathan is a Chartered Accountant and has an overall experience of over 25 years working for companies such as Capital Float, Bajaj Allianz Life Insurance & Bajaj Finance Ltd. Mr. Anmol Gupta is the Chief Treasury Officer, having a vast experience of 20+ years as Former Head – Corp. Planning & Control. Further, as on March 31,2023, private equity firm, Blackstone Group L.P. held 98.7% of the shareholding of AHFL through its private equity fund, BCP Topco VII Pte. Ltd. Following acquisition by Blackstone, AHFL strengthened its corporate governance framework, with the induction of three independent directors. Operational oversight has been reflected through the

² For NIM calculation, interest income is considered after excluding unwinding of Direct Assignment profit.

undertaking of various measures such as overhaul of the IT systems and technology and consolidation of branches to bring in operational efficiencies.

Key weaknesses

Economically Weaker Borrowers Remain Susceptible to Downturns: AHFL's customers are from the economically weaker, low-to-middle income segment who have lower possibility to access to credit from traditional banks and housing finance companies. They are vulnerable to economic downturns which increases the risk for maintaining asset quality especially during times of stress. This is partly offset by the higher share of the salaried borrowers in AHFL's portfolio at 58.6%; of which the formal salaried customers accounted for 81.6%. The self-employed borrowers constituted 41.4% of the AUM as on March 31, 2023.

Moderate seasoning of the portfolio: The seasoning of the portfolio is moderate mainly due to higher tenure of the loans provided by the company, however the same has been on an improving trend with growth stabilizing over the past 3 FYs as compared with the earlier years.

Liquidity: Adequate

The liquidity position of AHFL is strong. As on March 31, 2023, there are cumulative positive mismatches across the time buckets. The company has cash and cash equivalents to the tune of Rs. 2,326 crore (excluding bank lines and lien marked fixed deposit) which is sufficient for next ~9.5 months of debt repayment obligations. Company also has Rs.1,591 crore of undrawn bank lines available as on March 31, 2023.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
