August 22, 2023

Facilities/Instruments	Amount (₹ crore)	Rating ¹	Rating Action
Non Convertible Debentures	5.96	CARE B-; Stable	Revised from CARE B; Stable

Details of instruments in Annexure-1.

Rationale and key rating drivers

Revision in the rating assigned to the instrument of Ramasigns Industries Limited (RSIL) factor in decline in total operating income (TOI), operating and net losses incurred by company in Q1FY24 (Unaudited) led to deterioration in debt coverage indicators and stretched liquidity position.

The rating continued to be constrained by its modest scale of operation and profit margins, working capital intensive nature of operation, weak debt coverage indicators and stretched liquidity position. The rating further continues to be constrained by presence in highly competitive & fragmented industry.

The rating, however, continues to derive strength from experienced promoters and comfortable capital structure.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors

- Increase in the scale of operations with total operating income to exceeding Rs.100 crore on sustained basis
- Improvement in collection period below 90 days on sustained basis
- Improvement in PBILD margin above 8% and PAT margin above 3% on a sustained basis

Negative factors

- Deterioration in capital structure with overall gearing above 1x on a sustained basis
- Non-arrangement of sufficient funds to timely repayment its debt obligation

Analytical approach: Standalone

Outlook: Stable

CARE Ratings believes that RSIL will continue to benefit from its experience of the promoters along with long term relationship with reputed customers.

Detailed description of the key rating drivers:

Key weaknesses

Decline in scale of operation: Company's TOI declined to Rs.3.97 crore in Q1FY24 as compared to Rs. 7.89 crore in Q1FY23 and Rs. 7.11 crore in Q4FY23 on account of decrease in volume sold to its customers. It continued to remain moderate and deteriorated by 25.84% to Rs. 27.12 crore in FY23 vis-à-vis 36.57 crore in FY22 on account of decrease in orders executed due to slow down in industry. The net worth base of RSIL remained low at 17.76 crore as on March 31, 2023 vis-à-vis 17.29 crore as on March 31, 2022. The moderate scale and net worth limits its financial flexibility and its capability to scale up the operations in future would be sensitive from credit point of view.

Operating and net losses incurred in Q1FY24: Company has reported operating losses of Rs. 0.22 crore in Q1FY24 as compared to operating profit of Rs. 0.42 crore in Q1FY23 and Rs. 1.48 crore in Q4FY23 on account of decline in sales and increase in prices of material which could not be passed on to customers. Further, in line with operating losses, company reported net losses of Rs. 0.53 crore in Q1FY24 as compared to net profit of Rs. 0.12 crore in Q1FY23 and Rs. 1.14 crore in Q4FY23.

Weak debt coverage indicators: Debt coverage indicators deteriorated and remained negative on account of operational losses incurred by company in Q1FY24. However, debt repayment is done through debtors' recovery and free cash and bank balance.

Working capital intensive operation: The operations of RSIL are working capital intensive in nature on account of funds being blocked in inventory and receivables. RSIL received orders directly from printers and fabricators. In light of long-term relationship with customers as well as due to stiff competition it generally gives 60-90 days credit period to its customers. However, the collection period is significantly stretched to 486 days in FY23 vis -à-vis 385 days in FY22 on account of delay in payment from clients. Further out of the total debtors outstanding of Rs. 30.48 crore as on March 31,2023, debtors amounting to Rs. 6.14 crore has been recovered till June 30,2023. RSIL has to maintain inventory to execute the orders in timely manner and protect itself from price fluctuation.

The above is partially offset by stretched creditor's period led to average creditors period owing to established relations with them over the years. Given all of the above, the operating cycle continued to remain working capital intensive and working capital cycle stood at 352 days in FY23 vis -à-vis 216 days in FY22. Furthermore, working capital requirement is met through working capital bank borrowing and internal accruals.

¹Complete definition of the ratings assigned are available at www.careedge.in and other CARE Ratings Ltd.'s publications

Volatile material prices: The major material of RSIL includes PVC Free foam boards, Vinyl, Photo Paper, Display roll up standees LED modules & LED bars for backlit signages, aluminium composite panel and cast acrylic sheets whose prices are very volatile in nature. The cost of material to total sales stood at 72% in FY23 vis -à-vis 82% in FY22. Fluctuation in material cost has an adverse impact on profit margins of the company.

Fragmented and competitive nature of industry: Printing consumable industry is characterized as fragmented & competitive with very little differentiation in terms of service offering. RSIL faces direct competition from various organized and unorganized players in the market. The profits margins are likely to be under pressure in the medium term. Further the price flexibility is also remaining constrained due to low bargaining power with the customers.

Key strengths

Long track record of operations with experienced directors: RSIL is into existence for more three decades however it has changed the line of business since the year 2017. Mr. Pankaj Jobalia aged 58 years, is a managing director of the company and he holds more than 20 years of experience in manufacturing and marketing of signage consumables industries. Mrs. Bijal Jatin Jahveri are the chairperson of the company, she is B.com. graduate and she have versatile experience in finance and accounting.

Comfortable capital structure: The capital structure of the company continued to remain comfortable with overall gearing improved marginally and stood at 0.60x as on March 31,2023 (vis-à-vis 0.66x as on March 31,2022) owing to repayment of non-convertible debenture of Rs. 0.90 crore during FY23.

Liquidity: Stretched

Stretched liquidity is characterized by tightly matched accruals vis-à-vis repayment obligations of Rs. 1.80 crore in FY24 and low cash balance of Rs.0.25 crore as on August 17, 2023 vis-a-vis Rs. 0.65 crore as on March 31, 2023. Its average working capital limit utilization remained high at 99% during past 12 months ended June 2023 and maximum utilization remained full. Furthermore, current ratio and quick ratio stood at 1.78x and 1.21x respectively as on March 31, 2022 (vis-à-vis 1.66x and 1.23x respectively as on March 31, 2022).

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
