## Rationale and key rating drivers

CARE Ratings Limited (CARE Ratings) has assigned a rating of 'CARE AAA; Stable' to the proposed bond programme amounting to ₹12,000 crore, while reaffirming ratings for other long-term and short-term instruments/ bank facilities of Power Grid Corporation of India Limited (PGCIL). Ratings continue to derive strength from PGCIL's market leadership in the power transmission sector in India in terms of its share in transmission line, sub-station capacity, and inter-regional power transfer capability. Ratings derive comfort from the presence of long-term transmission service agreement (typically much longer than PGCIL's weighted average loan tenure) with diversified beneficiaries providing revenue visibility. Ratings also derive comfort from the large share of transmission assets in its portfolio where the tariff is governed by cost plus mechanism laid down by the Central Electricity Regulatory Commission (CERC) ensuring stable return and cash flow. Ratings also consider superior operating performance reflected by continued reduction in tripping per line and above normative system availability which results in consistent incentive income. Comfortable financial risk profile characterised by healthy cash accrual, maintenance of comfortable return on equity (RoE), comfortable interest cover and total debt to gross cash accruals (GCA) partially offset by moderate overall gearing, strengthen the rating. Majority ownership of Government of India (GoI) in the company, GoI's adequate operational and other need-based financial support to PGCIL are other credit positives.

Ratings factor in project execution skill evidenced from traction in tender and steady capitalisation of asset over the last three years. Despite plateauing annual capex outlay in transmission sector, implementation will be key for PGCIL and thus monitorable.

<sup>@</sup> Combined utilisation of commercial paper and short-term borrowing programme shall not exceed ₹12,000 crore at any point of time.

<sup>&</sup>lt;sup>1</sup>Complete definition of the ratings assigned are available at <a href="https://www.careedge.in">www.careedge.in</a> and other CARE Ratings Ltd.'s publications

However, ratings take cognisance of the weak credit profile of its customers, state-owned power distribution utilities. Ratings also factor in the basis of awarding new projects largely through tariff-based competitive bidding (TBCB), barring a few on a nomination basis, although the proportion of TBCB projects as against PGCIL's total portfolio is likely to remain low in the medium term.

CARE Ratings has also withdrawn the outstanding rating on the bond series XXIX issues with immediate effect, as the company has repaid the programmes rated by us and there is no amount outstanding as on date.

## Rating sensitivities: Factors likely to lead to rating actions

Positive factors – Not applicable

#### **Negative factors**

- Reducing collection efficiency below 90%, adversely impacting its liquidity.
- Adverse change in the regulatory environment or material reduction of its strategic importance in the power transmission sector.
- Significantly lower-than-envisaged annual availability or significantly increasing operational expenses or increasing borrowing cost, thus adversely impacting the coverage metrics.
- Material change in PGCIL's ownership.

## **Analytical approach**

Consolidated, as there are strong linkages between PGCIL and its subsidiaries including common management. Ratings factor in PGCIL's strategic importance for the Indian power sector and to the GOI. The list of consolidated subsidiaries/joint ventures (JVs) are presented under **Annexure-6.** 

#### Outlook: Stable

The stable outlook of PGCIL reflects its ability to maintain market leadership in inter-state power transmission, healthy operational performance, and steady collection from beneficiaries in the medium term.

# Detailed description of the key rating drivers Key strengths

## Long-term revenue visibility and favourable regulatory framework having a cost-plus tariff structure

PGCIL has long-term transmission service agreements with diversified beneficiaries providing revenue visibility. For vast majority of its assets, PGCIL's transmission charges are governed by tariff norms determined by CERC ensuring a fixed return on equity (RoE), recovery of operation and maintenance (O&M) expenses, interest cost, and depreciation. The mechanism ensures full recovery on achieving the normative system availability parameters and incentives on exceeding the performance. According to the management, PGCIL continues to have reasonable RoE for the projects awarded on TBCB basis. Continued maintenance of RoE would be important monitorable.

## High operating efficiency of its transmission system

Despite extensive network under its management, PGCIL has been able to maintain system availability at more than 99% (above normative availability), enabling it to earn consistent incentive income. In FY23 (refers to period April 1 to March 31), transmission system availability of 99.82% (PY: 99.83%) was achieved for the transmission network. System availability remained healthy in 9MFY24 (refers to period April 1 to December 31) at 99.86% (PY: 99.81%). Besides, the number of tripping per line was contained at 0.27x in FY23 (PY: 0.33x) and 0.22x in 9MFY24.

### Strong project execution skills

In FY23, the company capitalised assets of ₹7,413 crore (₹20,695 crore in FY22), adding about 2,970 ckm transmission lines, nine new sub-stations, and about 28,990 MVA transformation capacity in the transmission system, on a consolidated basis. Besides, the company had incurred capital expenditure of ₹9,212 crore in FY23 and ₹7,690 crore in 9MFY24.

## Comfortable financial risk profile

PGCIL has comfortable financial risk profile marked by a consistent increase in scale of operations with capitalisation of new transmission assets, healthy cash accrual, moderate capital structure, and comfortable debt coverage indicators with a healthy net worth. The capital structure as depicted by overall gearing of 1.56x as on March 31, 2023 (PY: 1.81x) stood moderate driven by its annual capex plans and the projects' long gestation period. The debt coverage indicators stood comfortable - interest

coverage of 4.22x in FY23 (PY: 4.68x) and a total debt to GCA of 4.51x as on March 31, 2023 (PY: 4.62x). Debt service coverage ratio (DSCR) is projected to remain comfortable.

#### Majority ownership and support extended by GoI; pivotal role in the Indian power sector

GoI continues to be the major shareholder in the company with 51.34% shareholding as on March 31, 2024, and is instrumental in the appointment of the board and the senior management and set its business plan. Also, GoI holding increases the financial flexibility in terms of borrowing from overseas debt market. The requirement of robust power transmission infrastructure is critical in India given the increasing renewable capacity, deepening of short-term power market and cross-border power exchange. Maintenance of more than 38% of all India transmission line, more than 45% of all India transformation capacity and more than 85% of inter-regional power transfer capacity for entire India over the years makes PGCIL an important player in this sector. Based on its nation-wide transmission infrastructure development and operating experience, PGCIL also wins projects on nomination basis (which are of strategic importance or have compressed time schedule or to be constructed in difficult terrains).

## **Industry outlook**

According to the study by CEA, power sector is poised for growth, driven by continuous affordable power, higher electric mobility envisaged to be supplied through rapid addition in renewable capacity, and storage. This is likely to provide adequate growth opportunities in inter-state transmission, intra-state transmission, and cross border transmission. Established transmission players have continued to maintain healthy operational performance. The collection pattern under the Point of Connection mechanism has been broadly steady in the past. Sustaining the timely collection of dues from its customers would be crucial.

## Key weakness

## Weak credit profile of state-owned utilities

Timely collection of dues from various state-owned utilities continues to be a challenge given the weak credit profile of those entities, though all receivables are covered by letters of credit covering 105% of the average monthly billing and tripartite agreement (TPA). The company's beneficiary profile is highly diversified, mitigating the counterparty risk to some extent. Being an important part of the point of connection (PoC) mechanism, PGCIL has been above to maintain efficiency of above 97.5% in last four fiscals. As on December 31, 2024, overdue debtors (>45 days) were contained to ₹4,181 crore with dues majorly from the discoms of J&K and Tamil Nadu.

# Liquidity: Strong

PGCIL's liquidity is aided by strong cash generation, tie-up of debt largely for capex, sizable cash buffer, limited working capital utilisation, and steady collection profile. Projected GCA less internal accrual committed for capex adequately covers its scheduled debt repayments for FY24. There is cushion available in the working capital limits to match the fund flow mismatches, if any. Besides, the company has also partially tied up debt for meeting the funding requirement of its capex plans. The company's liquidity is also supported by cash and bank balance of ₹3,856 crore and collection efficiency of 95.89% for 9MFY24.

## **Environment, social and governance (ESG) risks**

Environmental risk is assessed to be low due to absence of any chemical process or any large-scale excavation which can cause pollution. The company has implemented initiatives to conserve forestation. Selection of site and alignment of lines is carried out to ensure minimal social risk. The board has formed five statutory and nine non-statutory committees. Measures have been taken to adequately address investor grievances and put out extensive disclosures. While 25% of the board comprises independent directors, there is no split between the chairman and CEO position.

## **Industry classification**

Macro-economic Indicator	Sector	Industry	Basic Industry
Utilities	Power	Power	Power - Transmission

Incorporated in October 1989, PGCIL is engaged into power transmission business with the responsibility for implementation, operation, and maintenance of the high-voltage transmission systems. It owns and operates most of India's inter-regional and inter-state power transmission system (ISTS) with transmission network of 176,531 ckm, 276 extra high-voltage alternating current (EHVAC), and high-voltage direct current (HVDC) substations with 517,861 mega volt ampere (MVA) transformation capacity as on March 31, 2023. Besides, the company has more than 82,000 km of fibre optic network as on September 30, 2023. PGCIL has also been notified as a Maharatna company by the GoI.

#### About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

### Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
