Long Term Bank Facilities	5.00	COOPERATING*	from CARE BBB-; Stable;
Short Term Bank Facilities	20.00	CARE A4+; ISSUER NOT COOPERATING*	Rating continues to remain under ISSUER NOT COOPERATING category and Revised from CARE A3;

Details of instruments/facilities in Annexure-1.

## Rationale and key rating drivers

Care has reviewed and revised the rating assigned to the bank facilities of City Lifeline Travels Private Limited (CLTPL) to CARE BB+; Stable ;Issuer Not Cooperating / CARE A4+; Issuer Not Cooperating. The rating has been revised as City Lifeline Travels Private Limited has failed to provide information for monitoring of the rating exercise as agreed to in its rating agreement. In line with the extant SEBI guidelines, CARE has reviewed the rating based on the best available information which however, in CARE's opinion is not sufficient to arrive at a fair rating. The rating on City Lifeline Travels Private Limited now be denoted as CARE BB+; Stable; Issuer Not Cooperating /CARE A4+; ISSUER NOT COOPERATING.

# Users of this rating (including investors, lenders and the public at large) are hence requested to exercise caution while using the above rating(s).

The rating has been revised on account of non-availability of requisite information due to non-cooperation by CLTPL with CARE Ratings Ltd.'s efforts to undertake a review of the rating outstanding. CARE Ratings Ltd. views information availability risk as a key factor in its assessment of credit risk. Further, the rating assigned to the bank facilities of CLTPL remains constrained on account of elongated collection period, moderate scale of operations, significant exposure by way of investment, loan & advances to associate/ group concerns and risk associated with tender- based orders. The rating is, however, derives comfort from experiences promoters, growth in scale and revenue model with medium to long term revenue visibility and healthy profitability margins, comfortable debt protection matrix, comfortable operating cycle and comfortable capital structure.

## Rating sensitivities: Factors likely to lead to rating actions

## **Positive factors**

- Consistent increase in scale of operations as marked by total operating income of above Rs. 230.00 crore.
- Improvement in the profitability margins as marked by PBILDT and PAT margins of above 24.00% and 13.00% respectively in sustained basis.

#### **Negative factors**

- Deterioration in the capital structure as marked by overall gearing ratio above 1.00 times on sustained basis.
- Increase in loans and advances beyond the current level

<sup>\*</sup>Issuer did not cooperate; based on best available information.

<sup>&</sup>lt;sup>1</sup>Complete definition of the ratings assigned are available at <a href="www.careedge.in">www.careedge.in</a> and other CARE Ratings Ltd.'s publications

Analytical approach: Standalone

Outlook: Stable

**Detailed description of the key rating drivers:** 

**Key weakness** 

## **Elongated collection period:**

The major clients of the company are local municipal corporation, wherein due to shortage of case there is elongation of receivable period. Although with some corporation it receives the payment in 1-2 months. Also, the company has receivable of Rs. 44.71 Crore as on March 31, 2023 as compared to total operating income of Rs. 210.72 crore as on 31 March, 2023.

#### Moderate though growing scale of operations:

The scale of operations improved in FY23 to Rs.210.72 crore as against Rs.159.73 crore during FY22. The company operates under segments namely- water transportation, passenger services, staff transportation and cleaning of sewers. Furthermore, the net worth base also continue to remain moderate at Rs. 130.09 crore as on March 31, 2023. The same limits the company's financial flexibility in times of stress and deprives it from scale benefits. Though the risk is partially mitigated by the fact that the scale of operations has been growing continuously on y-o-y basis for the past five financial years (FY19-FY23).

#### Significant exposure to associate concerns:

CLTPL's total exposure to its group companies by way of investments, loans and advances increased to Rs. 43.17 crore (~33% of net worth) as on March 31, 2023, as against Rs. 39.62 crore (~39% of net worth) as on March 31, 2022. Any adverse impact on the financial risk profile of CLTPL on account of exposure to the group companies would continue to be crucial from credit perspective. Furthermore, any additional investment/loan and advances in the group associates would also be the key rating monitorable.

# Competitive industry and risks associated with tender-based orders:

CLTPL faces direct competition from various players in the market. Furthermore, the company majorly undertakes government projects, which are awarded through the tender-based system. The growth of the business depends on its ability to successfully bid for tenders and emerge as the lowest bidder. This apart, any changes in the government policy or government spending on projects are likely to affect the revenues and profits of the company.

#### **Key strengths**

#### **Experienced promoter coupled with long track record of operations:**

Mr. Gurpal Singh (Director) and Mr. Jaideep Singh Dhamija (Director) looks after the day-to-day operations of the company. Both of them are postgraduates by qualification and hold nearly 14 years and 10 years of experience respectively in logistics service industry. Further, the promoter and directors have been operational in the industry through this entity and other associates and parent company, which has enabled the company to establish strong footmark in the industry. In addition, the operations of the company are smoothly carried out by a team of managers and professionals who have requisite experience in their respective fields.

## **Stable revenue model providing long term revenue visibility:**

The company's business risk profile continues to remain stable on the back of regular revenue model by rendering services to Delhi Jal Board (DJB) for supplying water to pre-specified locations via water tanker. Also, Thane Municipal Transport Undertaking, Mumbai has awarded contract for maintenance and operations of 190 buses till 2029. Further, company has been awarded a new contract from Nashik Municipal Corporation in September 2019 to run and operate the 100 buses for 11 years. These projects provide stable revenue model for the company in the long run.

#### **Comfortable operating cycle:**

The company maintains minimal inventory of spares and consumables. Operating cycle of company stands at 63 days in FY23. The company normally receives payment in 2-3 months from its client (government entities). However, company has elongated average collection period at 72 days for FY23 . Therefore, any elongation in realization of receivables would have an impact on liquidity position of the company. However, the company maintains sufficient cash flows to meet any short-term requirement.

# **Satisfactory Financial Profile:**

• Healthy profitability margins and comfortable debt coverage indicators:

The profitability margins of the company remained healthy as marked by PBILDT and PAT margin of 21.03% and 12.93% in FY23 as against 21.70% and 13.39% respectively in FY22. There is increase in revenue generated by the company as against stable interest and depreciation cost incurred by the company.

• Comfortable capital structure:

The stagnant interest cost and growing revenue has improved the interest coverage ratio at 21.41x for FY23 as against 14.06x for FY22. Furthermore, due to decreasing debt level the total debt to GCA reduced to 0.56x in FY23 as against  $0.89 \times 10^{-2}$  in FY22.

## **Liquidity**: Adequate

Liquidity is marked by sufficient accruals of Rs 33.77 crore and cash reserves of Rs. 29.58 crore as on March 31, 2023. With an adjusted gearing of 0.16 times as of March 31, 2023, the issuer has sufficient gearing headroom, to raise additional debt for its capex. The current ratio and quick ratio of the company stood at  $4.54 \times 10^{-2} \times 10^{$

#### About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

#### Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
