Rationale and key rating drivers

CARE Ratings Limited (CARE Ratings) has reaffirmed its rating for long-term and short-term instruments/ bank facilities of Power Grid Corporation of India Limited (PGCIL). Ratings continue to derive strength from PGCIL's market leadership in the power transmission sector in India in terms of its share in transmission line, sub-station capacity, and inter-regional power transfer capability. Ratings derive comfort from the presence of long-term transmission service agreement (typically much longer than PGCIL's weighted average loan tenure) with diversified beneficiaries providing revenue visibility. Ratings also derive comfort from large share of transmission assets in its portfolio where tariff is governed by cost plus mechanism laid down by the Central Electricity Regulatory Commission (CERC), ensuring stable return and cash flow. Ratings also consider superior operating performance reflected by continued reduction in tripping per line and above-normative system availability, which results in consistent incentive income. Comfortable financial risk profile characterised by healthy cash accrual, maintenance of comfortable return on equity (RoE), comfortable interest cover and total debt to gross cash accruals (TD/GCA) partially offset by moderate overall gearing, strengthen the rating. Majority ownership of Government of India (GoI) in the company, GoI's adequate operational and other need-based financial support to PGCIL are other credit positives.

Ratings factor in project execution skill evidenced from traction in tender and steady capitalisation of asset in the last three years. With increase in annual capex outlay in transmission sector, successful implementation to remains a key monitorable. However, ratings take cognisance of weak credit profile of its customers, state-owned power distribution utilities. Ratings also factor in the basis of awarding new projects largely through tariff-based competitive bidding (TBCB), barring a few on a nomination basis, although proportion of TBCB projects as against PGCIL's total portfolio is likely to remain low in the medium term.

Rating sensitivities: Factors likely to lead to rating actions

¹Complete definition of the ratings assigned are available at www.careedge.in and other CARE Ratings Ltd.'s publications.

Positive factors – Not applicable

Negative factors

- Reducing collection efficiency below 90%, adversely impacting its liquidity.
- Adverse change in the regulatory environment or materially reducing its strategic importance in the power transmission sector.
- Significantly lower-than-envisaged annual availability or significantly increasing operational expenses or increasing borrowing cost, adversely impacting coverage metrics.

Analytical approach

Consolidated, as there are strong linkages between PGCIL and its subsidiaries including common management. Ratings take cognisance of PGCIL's strategic importance for the Indian power sector and to the GOI. The list of consolidated subsidiaries/joint ventures (JVs) is presented under **Annexure-6**.

Outlook: Stable

The stable outlook of PGCIL reflects its ability to maintain market leadership in inter-state power transmission, healthy operational performance, and steady collection from beneficiaries in the medium term.

Detailed description of key rating drivers

Key strengths

Long-term revenue visibility and favourable regulatory framework having a cost-plus tariff structure

PGCIL has long-term transmission service agreements with diversified beneficiaries providing revenue visibility. For vast majority of its assets, PGCIL's transmission charges are governed by tariff norms determined by CERC ensuring a fixed return on equity (RoE), recovery of operation and maintenance (O&M) expenses, interest cost, and depreciation. The mechanism ensures full recovery on achieving the normative system availability parameters and incentives on exceeding performance. According to the management, PGCIL continues to have reasonable RoE for the projects awarded on TBCB basis. Continued maintenance of RoE would be an important monitorable.

High operating efficiency of its transmission system

Despite extensive network under its management, PGCIL has been able to maintain system availability at more than 99% (above normative availability), enabling it to earn consistent incentive income. In FY24 (refers to April 01 to March 31), transmission system availability of 99.85% (PY: 99.82%) was achieved for the transmission network. The number of tripping per line was contained at 0.28x in FY24 (PY: 0.27x)

Strong project execution skills

In FY24, the company capitalised assets of ₹7,618 crore (₹7,413 crore in FY23), adding about 4,036 ckm transmission lines, six new sub-stations, and about 19,720 MVA transformation capacity in the transmission system, on a consolidated basis. The company also incurred capital expenditure of ₹12,500 crore in FY24

Comfortable financial risk profile

PGCIL has comfortable financial risk profile marked by a consistent increase in scale of operations with capitalisation of new transmission assets, healthy cash accrual, moderate capital structure, and comfortable debt coverage indicators with a healthy net worth. Capital structure as depicted by overall gearing of 1.44x as on March 31, 2023 (PY: 1.60x) stood moderate driven by its annual capex plans and the projects' long gestation period. Debt coverage indicators stood comfortable - interest coverage of 4.55x in FY24 (PY: 3.97x) and a TD/GCA of 4.37x as on March 31, 2024 (PY: 4.63x). Debt service coverage ratio (DSCR) is projected to remain comfortable.

Majority ownership and support extended by GoI, pivotal role in the Indian power sector

GoI continues to be the major shareholder in the company holding 51.34% as on March 31, 2024, and is instrumental in appointing the board and the senior management and set its business plan. GoI's holding increases financial flexibility in terms of borrowing from overseas debt market. Robust power transmission infrastructure is critical in India given the increasing renewable capacity, deepening short-term power market and cross-border power exchange. Maintaining more than 37% of all India transmission line, more than 44% of all India transformation capacity and more than 80% of inter-regional power transfer capacity for entire India over the years makes PGCIL an important player in this sector. Based on its nation-wide transmission infrastructure development and operating experience, PGCIL also wins projects on nomination basis (which are strategically important or have compressed

time schedule or to be constructed in difficult terrains).

Industry outlook

According to a study by CEA, the power sector is poised for growth, driven by continuous affordable power, higher electric mobility envisaged to be supplied through rapid addition in renewable capacity, and storage. This is likely to provide adequate growth opportunities in inter-state transmission, intra-state transmission, and cross border transmission. Established transmission players have continued to maintain healthy operational performance. The collection pattern under the Point of Connection mechanism has been broadly steady in the past. Sustaining timely collection of dues from its customers would be crucial.

Key weakness

Weak credit profile of state-owned utilities

Timely collection of dues from state-owned utilities continue to be a challenge given the weak credit profile of these entities, though all receivables are covered by letters of credit covering 105% of the average monthly billing and tripartite agreement (TPA). The company's beneficiary profile is highly diversified, mitigating counterparty risk to some extent. Being an important part of the point of connection (PoC) mechanism, PGCIL has been able to maintain efficiency of above 97.5% in the last four fiscals. As on March 31, 2024, overdue debtors (more than 45 days) were contained to ₹3,084 crore with dues majorly from the discoms of J&K, Telangana, Uttar Pradesh and Tamil Nadu.

Liquidity: Strong

PGCIL's liquidity is aided by strong cash generation, tie-up of debt largely for capex, sizable cash buffer, limited working capital utilisation, and steady collection profile. Projected GCA less internal accrual committed for capex adequately covers its scheduled debt repayments for FY25. There is cushion available in working capital limits to match fund flow mismatches, if any. The company has also partially tied up debt for meeting funding requirement of its capex plans. The company's liquidity is also supported by free cash and bank balance of ₹5,218.32 crore and collection efficiency of above 99% in FY24.

Environment, social and governance (ESG) risks

Environmental risk is assessed to be low due to absence of chemical processes or large-scale excavations, which can cause pollution. The company has implemented initiatives to conserve forestation. Selection of site and alignment of lines is carried out to ensure minimal social risk. The board has formed five statutory and nine non-statutory committees. Measures have been taken to adequately address investor grievances and put out extensive disclosures. While 25% of the board comprises independent directors, there is no split between the chairman and CEO position.

About the company and industry

Industry classification

Macro-economic indicator	Sector	Industry	Basic industry
Utilities	Power	Power	Power - transmission

Incorporated in October 1989, PGCIL is engaged in the power transmission business and is responsible for implementation, operation, and maintenance of high-voltage transmission systems. It owns and operates most of India's inter-regional and inter-state power transmission system (ISTS) with transmission network of 177,699 ckm, 278 extra high-voltage alternating current (EHVAC), and high-voltage direct current (HVDC) substations with 5,27,446 mega volt ampere (MVA) transformation capacity as

on March 31, 2024. The company has more than 1,00,000 km of fibre optic network as on March 31, 2024. PGCIL has also been notified as a 'Maharatna' company by the GoI.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
