Non-convertible debentures	500.00	CARE AAA; Stable	Reaffirmed
Commercial paper	1,100.00	CARE A1+	Reaffirmed

Details of instruments/facilities in Annexure-1.

### Rationale and key rating drivers

Reaffirmation of long-term and short-term ratings on debt instruments/commercial paper (CP) programme of Embassy Office Parks REIT (Real Estate Investment Trust) (EOPR), market cap ~₹ 35,255 crore as on July 26, 2024, continues to derive strength from its diversified asset portfolio of commercial office space, hospitality, and renewable energy assets. The REIT has strong portfolio of Grade-A commercial office assets with a completed leasable area of 37.70 million square feet (msf) spread across Bengaluru, Mumbai, Pune, the National Capital Region (NCR), and now Chennai. The property is largely occupied by marque tenants across business sectors, although dominated by multi-national companies (MNCs) and information technology (IT) and information technology-enabled services (ITeS) companies, which result into strong collection efficiency.

Strong occupancy of 85% as on June 30, 2024, and low lease expires over medium term provides healthy revenue visibility. With resumption of back-to-office and latest direction by the Government of India (GOI) on de-notifying Special Economic Zone (SEZ) properties, CARE Ratings Limited (CARE Ratings) expects occupancy to improve and remain strong in the medium term. CARE Ratings takes note of the fact that most leases expired or expected to expire in the near-to-medium term are yielding rentals lower than current market rates, and therefore, EOPR is likely to benefit from the mark-to-market (MTM) opportunity through higher re-leasing spread from re-leasing of vacant spaces. The REIT continued to report strong net operating income (NOI) as on June 30, 2024, aided by new leases at higher rentals and sustained hotel performance after a sharp recovery post COVID. As such, EOPR's ability to sustain occupancy levels and realise MTM gains will be a rating monitorable.

Since its launch, EOPR has demonstrated strong financial risk management, characterised by low loan-to-value (LTV), comfortable debt to earnings before interest, depreciation, taxes, and amortisation (EBIDTA) and cash coverage ratio (CCR). CARE Ratings also considers the debt-funded capital expenditure in the medium term. However, with the planned Qualified Institutional Placement (QIP) to raise equity funds, debt protection metrics are likely to remain strong.

Restrictions under Securities and Exchange Board of India (SEBI) regulations, which limit the share of under-construction assets to less than 20% and net debt to gross asset value (GAV) to under 49%, enhance credit protection.

CARE Ratings notes the recent acquisition of Embassy Splendid TechZone in Chennai with an enterprise value of ~₹1,185 crore, fully funded through loan, facilitating the REIT's entry in Chennai market. Although EOPR has acquired complete stake from its promoters, the revenue agreement is shared with the landowner and the REIT will receive 61% of the lease revenue share.

CARE Ratings further notes that the REIT's manager has implemented and will continue to implement measures to enhance corporate governance in compliance with SEBI directives on nominee director rights for unitholders with more than 10% unitholding either individually or collectively. Half the directors in the REIT are independent, aligning with SEBI guidelines.

These strengths far outweigh refinancing risks associated with debt instruments and term loan repayments at EOPR and its subsidiaries. EOPR has demonstrated its ability to raise debt at competitive rates to refinance its debt in the past. EOPR is also exposed to execution and marketing risks associated with upcoming projects and cyclical nature of real estate and hospitality sectors.

## Rating sensitivities: Factors likely to lead to rating actions

### Positive factors

Not applicable

### Negative factors

- Net debt/GAV of more than 35%.
- Consolidated net debt/EBITDA<sup>2</sup> of more than 5.5x.

### Analytical approach: Consolidated

EOPR's analysis is carried out on a consolidated basis, which includes its subsidiaries and associates mentioned in Annexure-6. The consolidated approach is taken considering that EOPR has direct control over SPVs. Per the REIT Regulations, 2014, the maximum borrowing by the REIT has been defined at a consolidated level (equivalent to 49% of the value of EOPR's assets).

### Outlook: Stable

The stable outlook reflects CARE Ratings' expectation of EOPR continuing to maintain strong debt protection metrics, aided by stable occupancy levels.

## Detailed description of key rating drivers:

### Key strengths

#### Fairly diversified asset portfolio of EOPR

EOPR's asset portfolio consists of commercial office space across five cities, hospitality, and a captive solar plant of 100-MW capacity. As on June 30, 2024, EOPR had 51.0 msf of commercial space area, of which, 37.7 msf is completed and 85% is occupied, 8.6 msf of under-construction space, while 4.8 msf is proposed development. The commercial space is diversified in Bengaluru, Mumbai, Pune, NCR region, and Chennai. EOPR also has completed hotels with an inventory of 1,096 keys, under-construction hotels of 518 keys in Bengaluru, and a 100-MW solar park in Bellary, Karnataka. The commercial office space portfolio contributes nearly 90% of the REIT's total revenue. Diversification in asset class and geographies mitigates micro-market and industry-specific issues to a certain extent.

#### Overall stable revenue from commercial and hospitality assets

The occupancy levels of commercial office spaces remained healthy at 85% as on June 30, 2024. Consolidated revenue stood at ₹3,685 crore and EBITDA at ₹2,770 crore for FY24, an increase nearly by 8% from FY23. For Q1FY25, the revenue stood at ₹934 crore as compared to ₹914 crore in Q1FY24 showing an increase of 2.19%. EBITDA for Q1FY25 stood at ₹752 crore as compared to ₹734 crore in Q1FY24 showing an increase of 2.45%. This increase was supported by improved performance in hospitality segment and rental escalations in renewed leases. Currently, more than 50% of the vacant space is in SEZ and areas in SEZ spaces have been inherently witnessing delayed leasing, hence EOPR is de-notifying some of its SEZ spaces, which is likely to enhance its marketability. The latest direction by GOI on denotification of SEZ properties is further expected to benefit the trust in leasing ramp up. Most leases expired or expiring were old leases, generating lower than current market rates, providing reasonable MTM opportunity to EOPR. EOPR's assets are occupied by tenants with strong credit profiles, and almost half of the gross leasable area is leased out to Fortune 500 companies. The satisfactory weighted average lease expiry (WALE) of around seven years provides revenue visibility for the longer term. Hotel properties were impacted severely by COVID-19. However, there has been a sharp recovery in these assets. The improvement is driven by pent-up demand from business travel activity and corporate events. While EOPR is well-poised to overcome such temporary phenomenon, its ability to maintain occupancy levels will be closely monitored.

#### Strong debt protection metrics

Gross debt increased to ₹18,242 crore as on June 30, 2024, from ₹16,808 crore as on March 31, 2024, considering asset acquisitions and capex requirement under SPVs. EOPR's debt protection metrics, marked by net debt to GAV of 32% and net debt to EBITDA of 4.9x as on June 30, 2024, remained comfortable. The recent acquisition of Chennai asset financed entirely through debt is expected to increase the gross debt. However, CARE Ratings believes the expected equity fund raising through QIP, majority of which will be utilised to repay external debt, will support the REIT to moderate debt metrics further. Per CARE Ratings' estimates, net debt/GAV and net debt/EBITDA are expected to remain below 35% and 5.5x in the near-to-medium term.

<sup>2</sup> For the calculation of debt/EBITDA, EBITDA is calculated as defined in NCD documents, per which, EBITDA also include 50% of EBITDA of Golflinks Software Park Private Limited plus fitout rentals and rental support income.

## Key weaknesses

### Execution risk associated with projects under development

EOPR plans to incur a capex on a consolidated basis in the near-to-medium term (~₹4,600 crore is pending cost to complete as on June 30, 2024), which is likely to be get funded through debt. While the execution risk will persist to complete the project on time, comfort is drawn from EOPR's successful track record in executing such projects. Timely leasing at envisaged rates will be key monitorable.

### High refinancing risk

The debts raised by EOPR and its subsidiaries are to be repaid in a bullet payment at the end of 3-5 years, exposing it to high refinancing risk. However, risks are mitigated to an extent given staggered repayment structure in the medium term, availability of large pool of capital through upstream of funds from SPVs to the REIT and high financial flexibility arising from low LTV, which provides ample headroom to raise additional debt or equity. The REIT also has flexibility to exercise the call option, which provides opportunity to prepay the debt 4-6 months before final maturity. CARE Ratings also considers EOPR's demonstrated track record in refinancing several debts in the past at REIT and SPV levels. The CP has a maturity of 6-12 months, which further increases the risk of refinancing. Series V Tranche A NCD amounting ₹2,000 crore has a bullet repayment in October 2024 and CP amounting ₹750 crore has a maturity in January 2025, these are expected to be met by a mix of NCD and other bank facilities. Such key events remain monitorable from a credit perspective.

### Liquidity: Strong

EOPR's liquidity is strong, owing to strong debt coverage indicators, aided by minimal interim principal payments. While bullet repayment exposes it to high refinancing risk, EOPR's low debt/GAV allows ample headroom to raise additional debt, including raising lease rental discounting (LRD) loans in SPVs from banks for refinancing NCDs. Most of the NCDs have multiple call options prior to final maturity, enabling them to refinance these NCDs before due date. Restrictions imposed under REIT regulations in terms of undertaking under-construction projects, limit cash outflow towards capex. At a consolidated level, EOPR had cash and cash equivalents of ₹874 crore as on June 30, 2024.

### Environment, social, and governance (ESG) risks

**Environment:** Stricter environmental regulations could drive-up operational costs in the real estate sector. Project launches require environmental clearances, and delays could harm business profile. Changing environmental rules may pose credit risks for property development permits. EOPR has been taking several measures to address concerns around it. Half the energy consumption is from renewable energy. Consistent efforts are made to reduce water consumption, and organic waste converter capacity increase, among others. Its assets were also awarded a five-star rating by the British Safety Council for Occupational Health and Safety. Almost 96% of leases signed are 'green leases' to reduce the property's environmental impact.

**Social:** On-going demand growth for commercial office spaces in India, particularly for quality assets with strong infrastructure and connectivity that align with the service sector's expansion, limit risks. While trends such as remote work preferences may potentially affect demand negatively, overall outlook for the commercial real estate sector appears demanding. Rapid urbanisation and a sizable working-age population are expected to drive commercial real estate demand in India.

**Governance:** On the governance front, 50% of the board comprises independent directors and there are adequate related-party safeguards. The ESG due diligence has been completed for all assets.

### About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

### Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
