

Oriental Hotels Limited

September 25, 2024

Facilities/Instruments	Amount (₹ crore)	Rating ¹	Rating Action
Long Term Bank Facilities	130.00 (Enhanced from 115.00)	CARE A+; Stable	Reaffirmed
Short Term Bank Facilities	0.02	CARE A1	Reaffirmed

Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

Reaffirmation of ratings on bank loan facilities of Oriental Hotels Limited (OHL) continues to derive significant strength from its strong linkages with The Indian Hotels Company Limited (IHCL, rated 'CARE AA+; Stable/CARE A1+'). The company has strong operational synergies with IHCL, association with strong brand image of "Taj" and other brands derived from IHCL and well-established hotel properties in southern India. Furthermore, positive turnaround in the domestic hospitality industry continues to lead to strong operating profitability and healthy financial risk profile.

Ratings are partly tempered by its moderate scale of operations and concentrated revenue profile, susceptibility to macro-economic factors, seasonal uncertainty and uncertain global economic outlook.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors

- Significant increase in scale with reduction in dependence on Chennai markets and operating profit margin of 30% for long term on a sustained basis.

Negative factors

- In case of weakening of linkages with IHCL.
- Unanticipated occurrence of event leading to disruption in travel/leisure activities.

Analytical approach: Consolidated

CARE Ratings takes a consolidated view of the parent (OHL) and its subsidiaries owing to significant business and financial linkages between parent and subsidiaries. Details of subsidiaries and associates which have been consolidated as on March 31, 2024, are given in Annexure – 6.

Furthermore, CARE Ratings has factored in the linkages with IHCL.

Outlook: Stable

'Stable' outlook indicates stability in the company's scale of operations benefitting from its continued association with the strong brands derived from IHCL. No new hotel addition is expected over the medium term in OHL's portfolio.

Detailed description of key rating drivers:

Key strengths

Strong linkages with IHCL, market leader in India

IHCL and its affiliates have significant stake in OHL, 39.09% as on June 30, 2024. IHCL is part of the Tata group (recorded overall revenue of US\$165 billion in FY24 and market capitalisation of US\$365 billion as on March 31, 2024), which comprises over 100 operating companies in business sectors, including information technology, communications, engineering, materials, services, energy, consumer products, and chemicals.

OHL draws significant benefits from its association with IHCL reflected in its portfolio of seven hotels. Major hotels are operated under "Taj" brand. Taj Coromandel, Chennai and Taj Fisherman's Cove, Chennai contributes over 60% of its total operating income (TOI). Other hotels, all in South India, are operated under 'Taj', 'Vivanta' and 'SeleQtions' and the company provides management fees to IHCL for using its brands. The company would continue to benefit from its association with IHCL offering high level of standardisation in services, experience, and products specific to category under which the particular hotel caters.

Strong operating profitability margins supported by healthy revenue per available room

The company continues to operate at strong margins. The company posted profit before interest, lease rentals, depreciation, and taxation (PBILDT) margin of 24.32% (27.56%) in FY24 (FY23), which sharply rose from 10.70% in FY22 and operating loss in FY21. Continuous strength in ARR, which stood at ₹10,155 (₹9,904) in FY24 (FY23) and occupancy level, which stood at 71% (69%) in FY24 underscore the reason for strong operating profitability. However, moderation was observed in FY24 and Q1FY25 considering renovation being undertaken at Taj Malabar Cochin, Taj Coromandel's ballroom, Gateway Conoor and Gateway Madurai. Industry is benefiting from supply growth lagging to catch up with robust demand growth, which is expected to continue for the next 2-3 fiscal years. Over the medium term, strong demand and slow supply is expected to keep operating profitability strong. Also, as most hotels of the company's portfolio, particularly rooms, have been renovated or are expected to be renovated

¹Complete definition of ratings assigned are available at www.careedge.in and other CARE Ratings Limited's publications.

by October 2024, they may boost ARR and occupancy leading to improvement in PBILDT margin in the range of 28%-30% over the medium term.

Healthy capital structure and debt coverage metrics

The company has healthy net worth at ₹618 crore (₹538 crore) and overall gearing at 0.33x (0.40x) as on March 31, 2024 (2023). The company has undertaken most capital expenditure (capex) in terms of renovation of Taj Malabar Cochin, Taj Coromandel's ballroom, Gateway Conoor and Gateway Madurai in FY24 and H1FY25. The capital structure has been continuing to strengthen despite capex due to scheduled repayment of term loans with negligible reliance on fund based working capital utilisation. With comfortable debt position and healthy profitability, the company's debt coverage metrics is also healthy. Interest coverage ratio was 5.57x (5.33x) in FY24 (FY23) and net debt (includes lease liabilities) to PBILDT was at 1.90x (1.63x) in FY24 (FY23). These metrics are expected to remain healthy over the medium term with continued strong profitability.

Key weaknesses

Moderate scale of operations and concentration risk

The company's moderate scale of operations is signified by its portfolio of seven hotels with 825 operational keys, being stagnant. The company maintained its topline at ₹389 crore in FY24 similar to FY23 despite renovation being undertaken in Taj Malabar Cochin, Gateway Conoor and Gateway Madurai, supported by improvement in average room rate (ARRs) and occupancy levels in available rooms in FY24. Overall, ARR was ₹10,155 (₹9,904) in FY24 and occupancy level was at 71% (69%). Further, the company's revenue is largely concentrated to Chennai with over 60% revenue being generated from Taj Coromandel, Chennai and Taj Fisherman's Cove. This concentration jumped in FY24 considering renovations being undertaken in other hotels, however, this is expected to subside to long term average over the medium term. With no major addition in hotels and/or rooms, the company's scale is expected to remain moderate.

Macroeconomic factors and seasonal uncertainty

The company is exposed to changes in macroeconomic factors, industrial growth, and tourist arrival growth in India, international and domestic demand-supply scenarios, competition in the industry, government policies and regulations, and other socioeconomic factors, which lead to inherent cyclicity in the hospitality industry. These risks can impact the company's occupancy rate, and hence, its profitability. However, these risks are mitigated to an extent through extensive presence across the value chain and a strong brand image. Adverse event in global/domestic market would lead to fall in willingness to spend on travel/leisure segment, as individuals will prefer to save for future uncertainty rather than luxury. Though, the current demand uptrend in the hospitality industry is driven by boost from domestic customers, foreign tourists are required to diversify the customer base and sustain current occupancy levels and ARRs.

Liquidity: Adequate

Adequate liquidity characterised by cash and cash equivalents of ₹19 crore as on March 31, 2024, and ₹7.1 crore as on June 30, 2024, and almost undrawn working capital limit of close to ₹15 crore. Furthermore, the company is expected to garner gross cash accruals (GCA) of over ₹80 crore against repayments of ₹68 crore in FY25, hence there shall be adequate cushion for above repayments. Historically, the company's working capital utilisation is negligible owing to the negative operating cycle. The company has healthy capital structure providing headroom to raise additional debt if required.

Environment, social, and governance (ESG) risks: Increasing awareness among consumers for greener environment and equitable society could risk the brand image issues among hoteliers if there is significant lapse in ESG metrics relative to peers. The company has continued to focus on its ESG metrics through its programme "Paathya". Below are some of the key target areas and the company's achievement against it.

Environment:

- Maintain majority of energy to come from renewable sources by 2030– The company's green power mix was 74% (70%) in FY24 (FY23).
- 100% of wastewater recycled by 2030 – In FY24 (FY23), 1,24,240 KL (1,57,307 KL), water saved through recycling and rainwater harvested.

Social

- Provided educational assistance for children by paying their school fees and supported over 500 fishermen's family by distributing 125 kgs rice bags.
- Contributed by providing dry rations like aata, rice, wheat, oils and pulses to a home for the homeless orphans who are differently abled with multiple disabilities and absolutely destitute and deserted senior citizens

Governance

- The company's Board of Directors is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors.

CARE Ratings take comfort from the progress on OHL's targets against its achievements.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
