Rationale and key rating drivers

CARE Ratings Limited (CARE Ratings) has reaffirmed the ratings assigned to the various instruments and bank facilities of Aavas Financiers Limited (AFL), deriving strength from its experienced management team and established track record of maintaining good asset quality with portfolio growth. Ratings also factor the company's strong capitalisation and comfortable liquidity profile with no negative cumulative mismatches across time buckets, per the asset liability maturity (ALM) statement on June 30, 2024. While reaffirming ratings, CARE Ratings has considered AFL's entire debt profile and its ability of raising funds from sources at competitive rates.

Ratings also factor in healthy profitability metrics, high portfolio granularity, good growth opportunities in the affordable housing segment and adequate risk management and control systems put in place by the company.

Further, on August 10, 2024, the promoter/ promoter group of AFL, i.e. Kedaara Capital and Partners Group, have entered into Share Purchase Agreements (SPA) to sell their entire stake in AFL to Aquilo House Pte. Ltd. (Acquirer), belonging to CVC Capital Partners group. The Acquirer has also announced an open offer to the public shareholders of AFL in compliance with the SEBI regulations. Post the consummation of the SPA and completion of the open offer, the Acquirer shall be categorized into promoters/promoters group of AFL while Kedaara Capital and Partners Group will cease to be promoters / members of the promoter group of AFL. The aforesaid transaction is subject to various regulatory and lenders approval.

However, these rating strengths are partially offset by AFL's relatively vulnerable target borrower profile, with most customers being new to mortgage having modest credit profiles (self-employed borrowers comprising 59.8% of assets under management [AUM] as on June 30, 2024), making the company susceptible to inherent asset quality risks. However, owing to granularity of the loan book with low loan-to-value ratio (LTV; average of 55.2%), strong credit appraisal mechanisms, prudent and proactive risk management and control systems and the enhanced use of technology and analytics, AFL has been able to keep its asset quality under control.

AFL continues to have a geographically concentrated portfolio, with Rajasthan accounting for about 34% of the AUM as on June 30, 2024, although reduced from 44% as on March 31, 2019.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors – Factors that could, individually or collectively, lead to positive rating action/upgrade:

- Significantly scaling-up operations in a sustainable and profitable manner.
- Significantly improving geographical diversification.
- Comfortable asset quality, with credit cost under control on a sustained basis.

Negative factors – Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Weakness in profitability, with return on total assets (RoTA) below 2.5% on a continuous basis.
- Sharply varying portfolio mix.
- Weakness in capitalisation profile with gearing rising above 7x.

¹Complete definition of ratings assigned are available at www.careedge.in and other CARE Ratings Limited's publications.

Analytical approach: Standalone**Outlook:** Stable

The stable outlook reflects CARE Ratings' expectation that AFL will continue growing its loan book while maintaining asset quality as envisaged.

Detailed description of the key rating drivers:**Key strengths****Experienced board of directors and management team**

As on June 30, 2024, AFL is majorly owned by two private equity (PE) investors, Kedaara Capital and Partners Group, with a shareholding of 26.47%. However, in August 2024, the promoter/ promoter group of AFL i.e. Kedaara Capital and Partners Group have entered into an Share Purchase Agreement (SPA) to sell their entire stake to Aquilo House Pte. Ltd., which belongs to CVC Capital Partners group (Acquirer). Further, in compliance with the SEBI regulations, the acquirer has also announced an open offer for acquisition of upto 26.21% holding from the public shareholders of AFL. The aforesaid transactions are subject to various regulatory and lenders approval. Post the consummation of the SPA and completion of the open offer, the Acquirer / CVC Capital Partners shall be categorized into promoters/ promoters group of AFL while Kedaara Capital and Partners Group will cease to be promoters / members of the promoter group of AFL. The management team is headed by Sachinder Bhinder, Managing Director & CEO, and Ghanshyam Rawat, President and CFO, who are supported by an experienced second line of management with vast experience in the finance and housing finance industry. As of now 10+ CXOs are there in the company.

Robust capitalization

The capitalization profile of AFL is strong supported by healthy internal accruals and regular equity infusions in the past. The tangible net worth (TNW) of AFL stood at ₹3,858.94 crore as on June 30, 2024, up from ₹3,245.13 crore as on March 31, 2023. The company's gearing also stood comfortable at 3.25x as on June 30, 2024, as compared to 3.03x as on March 31, 2023. While the gearing is expected to increase with incremental business being funded with fresh borrowings, CARE Ratings expects gearing to remain below 6x in the medium to long term.

The capital adequacy ratio (CAR) of AFL also remains strong with Tier-1 and overall CAR of 44.24% and 44.48%, respectively, as on June 30, 2024, which is well above the regulatory requirement. The capitalization profile is also supported by lower risk weights assigned on smaller ticket home loans and secured nature of portfolio. CARE Ratings expects that comfortable capitalization profile of AFL will provide buffer against asset quality related shocks, if any.

Diversified resource profile

AFL's funding profile remains diversified over the past few years with funding from banks/financial institutions (FIs) (through a mix of term loans amounting to 46.9% of the total borrowings as on June 30, 2024), refinance from National Housing Bank (NHB; 20.2%) and through non-convertible debentures (NCDs) (8.5%). Furthermore, AFL's funding position remains adequate due to strong relationship with all the leading banks of the country such as Punjab National Bank (PNB), State Bank of India (SBI), HDFC Bank Ltd. and funding support from various international agencies, such as Asian Development Bank (ADB), International Finance Corporation (IFC), and British International Investment (Erstwhile known as CDC) as on June 30, 2024.

The average borrowing cost of AFL (reported) stood at 7.47% as on March 31, 2024 and 7.56% as on June 30, 2024 as compared to 6.64% as on March 31, 2023. Furthermore, AFL has no dependency on short-term commercial paper funding. The company borrowed incremental funds at an average interest rate of around 8.31% in Q1FY25.

Going forward, CARE Ratings expects AFL to raise funds at competitive rates.

Healthy financial risk profile

Engaged in providing affordable housing finance, AFL has registered strong growth with assets under management (AUM) growing at a five-year compounded annual growth rate (CAGR) of 19.5% from fiscal 2019 at ₹5,942 crore till fiscal 2024 at ₹17,313 crore and further to ₹17,841 crore as on June 2024. The housing loan portfolio comprises 69.19% of the total AUM while the remaining 30.81% belongs to mortgage-backed non-housing portfolio, primarily Loan Against Properties (LAP) and MSME loans with average ticket size of ₹8 lakh as on June 30, 2024. Although the non-housing loan portfolio disbursements increased to 33.4% as on June 30, 2024, it is in compliance with the Reserve Bank of India (RBI) guidelines for maintaining the minimum proportion between housing and non-housing loan to 60:40. The management aims to keep the non-housing loans at around the similar level of the total loan book in the medium term.

The profitability remains healthy with slight moderation in net interest margins (NIMs) of 6.07% in FY24, and further reduced to 5.85% in Q1FY25, owing to rise in cost of borrowings due to increasing interest rates scenario. Operating expenses to average assets ratio has slightly improved from 3.75% in FY23 to 3.64% in FY24 and further improved to 3.30% in Q1FY25 owing to operational efficiencies from the digital infrastructure investments. The credit costs slightly increased from 0.10% in FY23 to 0.16% in FY24 and further to 0.21% in Q1FY25 owing to higher provisioning and write offs.

With moderation in NIMs and increase in credit costs in FY24, the company has reported a RoTA of 3.29% in FY24 and 3.02% in Q1FY25 as against 3.53% in FY23. Going forward, CARE Ratings expects NIMs to further compress from the current levels on account of elevated interest rate scenario which is expected to lead to higher cost of borrowing and increase in gearing.

Asset quality under control

AFL has continued to report healthy asset quality metrics with gross non-performing asset (GNPA) ratio of 0.94% as on March 31, 2024, slightly moderated from 0.92% as on March 31, 2023 and net non-performing assets (NNPA) ratio of 0.67% as on March 31, 2024 vis-à-vis 0.68% as on March 31, 2023. Owing to incremental slippages in Q1FY25, the GNPA and NNPA stood slightly higher at 1.0% and 0.72% respectively as on June 30, 2024. The provision coverage ratio stood at 28.81% as on March 31, 2024 (26.91% as on March 31, 2023).

Furthermore, with improved collection and underwriting system, delinquency level of AFL in softer buckets (1+dpd) also stands comfortable with 1+dpd of 3.12% as on March 31, 2024, down from the level of 3.30% as on March 31, 2023.

The asset quality profile of the company is, supported by strong control systems and low LTV ratios, with average LTV at about 55.20% end- June 30, 2024. Also, given the secured nature of the lending with comfortable LTV ratio at origination, most of the properties being self-occupied, and the company being covered under the SARFAESI Act., losses, in case of defaults, are expected to be limited.

Key weaknesses

Exposure to relatively vulnerable borrower segment

AFL's portfolio size remains moderate compared to large, rated players in the housing finance industry. As an affordable housing finance company, AFL is focused on providing secured retail home loans to low- and middle-income borrowers in semi-urban and rural regions, with majority of them having lack of formal income documents. The customers of AFL are a mix of self-employed (59.8% of AUM as on June 30, 2024) and the remaining 40.2% as salaried borrowers with majority of them in Tier-2 to Tier-5 cities, thereby exposing the company to the relatively economically-vulnerable borrower segment. Since this segment is highly susceptible to the impact of economic downturn, maintaining good asset quality while increasing the scale of operations is a key sensitivity. The company has put in place adequate credit appraisal mechanisms and integrated MIS systems.

The company has invested substantially in improving and advancing technology, which has led to higher operational expenses. With the transition in technology, the company has implemented Salesforce platform, which earlier started as a pilot project in March 2023, and then launched in April 2023. The company has also added tools like Mule soft which is then blended with their analytical models. With the help of these technological changes, operating efficiency is expected to improve by bringing in standardisation of process across all geographies. Furthermore, it may effectively monitor assets quality and enhance the risk management system. AFL has made transformations in its middle office systems by implementing Oracle Flex Cube and Oracle Fusion on Oracle Cloud to create the system more robust. The company has successfully piloted ChatGPT powered GenAI Chatbot with multilingual support in the customer app thereby improving customer experience. With these implementations, the company plans to see the significant reduction in turnaround time (TAT). Going forward, its ability to scale up the loan book while maintaining asset quality remains key monitorable.

High geographical concentration, though improving

While the company has presence in 13 states/ UTs with 371 branches, the state-wise geographic concentration remains high with Rajasthan alone accounting for 34.1% of the AUM as on June 30, 2024, and top three states (Rajasthan, Maharashtra, and Gujarat) together accounting for 66.5% of AUM as on June 30, 2024, reduced from 44% concentration in Rajasthan and 80% concentration in top three states as of March 31, 2019. However, the company has been deepening its presence in the existing states with opening of new branches at district/tehsil level. The geographic concentration is expected to further come down, as the company plans to expand its operations in other geographies. The company plans on growing its disbursements across states like Karnataka, Odisha and Uttar Pradesh and will continue to grow deeper into their existing geographies.

Liquidity: Strong

AFL has well matched the tenure of its housing loan book and that of its borrowings, rendering liquidity profile of the company very comfortable with no negative cumulative mismatches across the time buckets as on June 30, 2024. As on June 30, 2024, liquidity position of the company stood comfortable with cash & cash equivalents along with unavailed bank lines of ₹3,015 crore.

Environment, social, and governance (ESG) risks

AFL intends to build a strategic approach, where environment, social and governance fundamentals are embedded into the business. For this, it has signed a partnership with IFC, a member of the World Bank Group, for promoting affordable green homes in India with the help of environmental-friendly architecture of individual homes. About 5,000+ customers have shown interest for building a green home and willingly committed to use one or more green and sustainable measures in their homes.

The company has also aligned its corporate social responsibility (CSR) strategy with Sustainable Development Goals of the 2030-Global Agenda for Sustainable Development adopted by all United Nations (UN) Member States, with extensive initiatives in areas of public healthcare, climate action, rural development, sports and quality education.

About the company and industry

Industry classification

Macro Economic Indicator	Sector	Industry	Basic Industry
Financial Services	Financial Services	Finance	Housing Finance Company

AFL, a housing finance company, was incorporated in February 2011 as a subsidiary of AU Small Finance Bank (rated 'CARE AA; Stable'). It received the NHB License – Certificate of Registration on August 04, 2011, and commenced operations from March 2012. In June 2016, to comply with the RBI guidelines, AU SFB divested majority of its shareholding to two private equity players – Kedaara Group and Partners Group. As on June 30, 2024, the Kedaara group holds 16.02% stake in AFL, the Partners Group holds 10.87% stake, and the remaining 73.11% is held by the public, including management team of AFL and marquee investors. AFL is engaged in providing retail home loans with focus on affordable housing segment to customers in semi-urban and rural regions. As on June 30, 2024, the company operates through a network of 371 branches in 13 states – Rajasthan, Maharashtra, Gujarat, Madhya Pradesh, Delhi, Haryana, Punjab, Chhattisgarh, Uttar Pradesh, Uttarakhand, Himachal Pradesh, Odisha and Karnataka.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
