

Network 18 Media and Investments Limited

October 18, 2024

Facilities/Instruments	Amount (₹ crore)	Rating ¹	Rating Action
Long-term/short-term bank facilities	1,750 (enhanced from 1,000)	CARE AAA; Stable / CARE A1+	Reaffirmed
Commercial paper	2,250 (enhanced from 1,500)	CARE A1+	Reaffirmed

Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

Ratings assigned to bank facilities/instruments of Network18 Media & Investments Limited (Network18) principally derive strength from its strong parentage [Reliance (Mukesh Ambani) group] and strategic importance of media and entertainment business for its ultimate parent, Reliance Industries Limited (RIL; rated 'CARE AAA; Stable/CARE A1+').

Ratings continue to derive strength from diversified news and entertainment content offerings in various genres, healthy performance of its flagship channels with their consistent presence among top channels in their respective genre in terms of television viewership, which has led to consistent growth in its consolidated scale of operations.

The entertainment subsidiary of Network18, Viacom18 Media Private Limited's (VMPL; rated 'CARE AAA; Stable/CARE A1+') forays into sports segment, including acquisition of digital media rights of Indian Premier League (IPL) and Board of Control for Cricket in India (BCCI) international and domestic cricket matches, is expected to drive Network18's consolidated revenue growth in the medium term. VMPL's strategic partnership with Bodhi Tree Systems (BTS; a platform of James Murdoch's Lupa Systems and Uday Shankar) and consequent fund infusion of ₹15,145 crore in VMPL resulted in strong capital structure and provides strong liquidity headroom at a consolidated level, till latest sports ventures achieve break-even.

However, ratings strengths are partially offset by Network18's modest digital news and print media business, where it continues to incur net losses, despite improved revenues. Ratings also factor in regular investments required in content offerings, which have significant gestation period, and cyclicity associated with its advertisement revenue in a competitive media and entertainment industry. Timely monetisation of sizeable investments being incurred for sports media rights will be a key rating monitorable.

CARE Ratings Limited (CARE Ratings) takes cognisance of merger of Network18, e-eighteen.com (E18) and TV18 Broadcast Limited (TV18) effective from October 3, 2024. This merger has led to consolidation of digital news and TV news portfolio, which was earlier operated through Network18 and TV18 respectively. Scheme of merger received NCLT approval on September 5, 2024 and Ministry of Information and Broadcasting's approval (for transfer of TV channels licenses from TV18 to Network18) on October 3, 2024. With these approvals, scheme of merger has become effective from October 3, 2024 with April 1, 2023, as appointed date. Ratings assigned to the enhanced bank facilities and instruments is entirely due to merger of TV18 with Network18.

CARE Ratings also takes cognisance of binding agreements signed by RIL, VMPL, and The Walt Disney Company (Disney) to form a joint venture (JV) that will combine businesses of VMPL, and Star India Private Limited (SIPL). As a part of transaction, VMPL's media undertaking will merge with SIPL. RIL is to invest ₹11,500 crore in the JV for its growth strategy. Post completion of this transaction, the JV will be controlled by RIL and owned 16.34% by RIL, 46.82% by VMPL and 36.84% by Disney. The transaction has received key regulatory approvals and is expected to be completed shortly. CARE Ratings believes that the JV shall have strong market position in TV and digital streaming for entertainment and sports content in India, with combination of media assets across entertainment (e.g. Colors, StarPlus, StarGOLD), sports (e.g. Star Sports and Sports18), and digital platforms (JioCinema and Hotstar).

Rating sensitivities: Factors likely to lead to rating actions

Positive factors: Not applicable

Negative factors

- Reduction in Network18's strategic importance for RIL, impacting its financial flexibility.
- Sustained cash losses on consolidated level not adequately covered by equity capital infusion due to its inability to efficiently monetise its various content rights, and its consequent adverse impact on its leverage and debt coverage indicators.

Analytical approach: Consolidated

Based on similar line of business and group's structure, CARE Ratings has considered a consolidated analytical approach for Network18. The companies considered for consolidation are listed in **Annexure-6**. The company's strategic importance for RIL group's media and entertainment business and expected financial support from parent group, if required, has been considered.

¹Complete definition of ratings assigned are available at www.careedge.in and other CARE Ratings Limited's publications.

Outlook: Stable

CARE Ratings believes that strong market position of Network18's consolidated business in various news and entertainment genres and its growing dominance in sports segment, would lead to healthy consolidated cash flows for Network18 and a strong credit profile.

Detailed description of key rating drivers**Key strengths****Parentage of strong and resourceful RIL group**

Post merger of TV18 and E18 into Network18, Independent Media Trust, whose sole beneficiary is RIL, and other promoter group entities, together hold a majority stake (56.89%) in Network18. The Network18 group is one of the prominent media and entertainment conglomerates in India with interests in television, print and digital media, OTT platform, movie production and allied businesses, consisting of brands, including CNBC TV18, CNN News18, News18 India, moneycontrol.com, Firstpost, Forbes India, Colors, and Jio Cinema among others. Network18 and VMPL are a part of the prominent and resourceful Reliance (Mukesh D. Ambani) group, whose flagship company - RIL is India's largest private sector enterprise with businesses across energy and materials value chain, retail, and telecom sectors.

Strategic importance of media and entertainment business to RIL group

Network18 group is one of the prominent media and entertainment conglomerates in India, with top three ranking in most key segments it operates in. Network18 group is RIL group's primary investment in media and entertainment segment and strategically important business for the group. This is evident from its partnership with BTS, where RIL (through its group companies) infused ₹10,839 crore in VMPL, integration of Jio Cinema app in VMPL, and proposed strategic JV with Disney, with an aim to scale up its operations and become one of the largest TV and digital streaming companies in India.

Network18, VMPL's Board of Directors, has a director who is also present on the Board of RIL. RIL's media and entertainment vertical also has synergies with its market leading telecom business. These factors reiterate significant importance of Network18 in RIL's overall strategy.

Diversified content offerings with dominant position in business news, niche entertainment genres and growing dominance in sports segment

Network18 operates wide network of 62 channels in India spanning news and entertainment. It also caters to global Indian audience through 20 international beams. The news broadcasting business under Network18 (standalone) includes channels with market leadership position in English General News (CNN News18) and English Business News (CNBC TV18,) segments, strong number-2 position in Hindi General News (News18 India), and a growing regional news cluster of 14 channels (including JV, News18-Lokmat). Digital news and print media portfolio consists of platforms like Moneycontrol, News18.com, Firstpost and Forbes India.

Its entertainment subsidiary, VMPL's flagship channel 'Colors' has been consistently ranked among the top Hindi GECs in terms of television viewership considering regular investments in popular fiction and non-fiction content. VMPL has been a dominant player in niche segments such as kids, youth, and English entertainment with prominent brands, including Nick, MTV, Vh1, and Comedy Central, among others. VMPL's content offering is expected to diversify further with growth in regional GECs portfolio and its digital platform, Jio Cinema. VMPL has also forayed into sports segment by launching three sports channels under umbrella brand, Sports18. VMPL's sports portfolio consists of some popular leagues and events, including BCCI rights, IPL, Women Premier League, Cricket South Africa, SA20, FIH (Federation of International Hockey), MotoGP, ISL among others.

In June 2022, VMPL acquired exclusive rights to digitally stream popular IPL cricket matches in Indian sub-continent for seasons from 2023 to 2027, for a rights fee of ₹24,352 crore. VMPL also acquired digital and TV media rights for international and domestic cricket matches of Indian cricket team from BCCI, for September 2023-March 2028 period, for a rights fee of ₹5,963 crore.

Continuous growth in operating income; likely to witness a strong growth in the medium term

In FY24, Network18's consolidated Total Operating Income (TOI) grew by 49% y-o-y to ₹9,297 crore driven primarily considering revenue from its foray into sports segment. It reported healthy TOI of ₹3,141 crore in Q1FY25 with sizeable revenue contribution from streaming of second season of IPL. However, its consolidated profitability was adversely impacted in FY24 and Q1FY25, owing to weak advertising environment and increase in operating cost, primarily in sports and digital segment. Going forward, CARE Ratings expects Network18's consolidated TOI to witness a strong growth upon monetisation of its media rights to stream IPL, BCCI's domestic and international cricket matches. However, Network18's consolidated profitability is expected to remain weak in FY25 due to large annual sports rights fee payout and high marketing spends against revenue from streaming of IPL and BCCI matches. Large equity infusion in VMPL is expected to provide Network18 with strong liquidity headroom to fund gestation losses in its sports ventures, restricting the moderation in its leverage to some extent, at a consolidated level.

Improved capital structure on the back of large equity infusion in Q1FY24

Network18's consolidated overall gearing improved to 0.29x as on March 31, 2024 (1.32x as on March 31, 2023), primarily considering large equity infusion in Q1FY24 in VMPL. In April 2023, Bodhi Tree Systems and RIL group entities infused funds in VMPL of ₹4,306 crore (equity and compulsorily convertible preference share capital) and ₹10,839 crore (compulsorily convertible preference share capital) respectively. In June 2023, RIL group entities sold a portion of compulsorily convertible preference share capital holding in VMPL to Bodhi Tree Systems. Consequently, on a fully diluted basis, RIL group entities hold 57.47% stake; Network18 – 13.54%; Bodhi Tree Systems – 15.97%; and Paramount Global – 13.01% in VMPL. CARE Ratings believes Network18's consolidated overall gearing to moderate in the medium term in view of initial gestation losses and increase in debt level to fund content-related investments.

Liquidity: Strong

Network18's strong liquidity is marked by cash and liquid investments of ₹8,055 crore against consolidated debt of ₹8,156 crore as on March 31, 2024, and sizable unutilised working capital limits at group level. Enhancement in rated bank facilities and CP issuance of Network18 is solely due to transfer of rated bank facilities and CP issue of TV18 to Network18 consequent to scheme of merger.

Network18 belongs to a strong group (RIL group), which ensures superior financial flexibility. Its liquidity is underpinned by the parent group's stance to extend financial support to it, if required.

Key weaknesses**Risk associated with monetisation of large-size investments for acquisition of sports media rights**

In June 2022, the entertainment arm of Network18 group, VMPL, acquired exclusive rights to digitally stream IPL matches in the Indian sub-continent for seasons from 2023 to 2027. This apart, it won television and digital rights for three of five international territories, including major cricketing nations, for an aggregate rights fee of ₹24,352 crore payable to BCCI for five years. In August 2023, VMPL acquired digital and TV media rights for international and domestic cricket matches from BCCI, from September 2023-March 2028, for a rights fee of ₹5,963 crore. The payout to BCCI would be based on the number of matches played in every series. VMPL has a plan to monetise these rights by advertisement and subscription income, given the huge popularity of cricket in India. However, VMPL's ability to monetise sports media rights adequately and in a timely manner would be critical to improve Network18's consolidated return indicators.

Modest digital news and print media business

Network18's has been incurring net losses in its digital news and print media business due to high operating cost base considering investments in the last few years to strengthen its editorial coverage and technology infrastructure. However, there has been consistent growth in revenues in view of strong market position of Network18's digital and print media business.

Also, post-merger of Network18, TV18, and E18, Network18 now operates digital and print news, TV news portfolio and moneycontrol.com, which is expected to support its standalone financial risk profile.

Regular investments in content offerings resulting in inherently working capital intensive operations

Entertainment business is inherently working capital intensive mainly considering large holding of inventory in the form of content, motion picture, and sports rights. Competition among top TV channels and extremely dynamic channel rankings, necessitate regular investments in existing and new content offerings. Network18's consolidated working capital cycle elongated further to 322 days in FY24 (276 days in FY23) primarily owing to increased investments in content inventory including sports rights. Going forward, working capital intensity of Network18's consolidated operations is expected to continue amidst expansion plans.

Volatility of advertisement revenue in the competitive media and entertainment industry

Network18's consolidated advertisement revenue constitutes over 50% of its TOI. Advertisement revenue remains vulnerable to factors such as market competition, content viewership, quality and popularity of content being broadcast, trends in media sector, regulatory changes, and level of economic activity in general. In the past, significant volatility has been observed in advertisement revenue of media and entertainment entities. As VMPL adopted advertisement only mode for its digital platform to monetise its large investments in sports, improvement in advertisement income would be critical for VMPL and Network18.

Environment, social, and governance (ESG) risks

Risk factors	Compliance and action by the company
Environment	Due to nature of its operations, Network18 does not have significant greenhouse gas emissions. However, the company is continuously evaluating ways to reduce electricity consumption. Sewage generated is treated in sewage treatment plants, and recycled water is used for irrigation/gardening purposes. Electronic items discarded by the company are channelled through authorised recyclers in accordance with requisite guidelines issued by Ministry of Environment, Forest and Pollution Control Board.
Social	The company has a robust mechanism to safeguard user data. The company sensitises its employees on a regular basis on cyber security issues.
Governance	Network18's senior leadership comprises a six-member Board with diversity in qualification, skill set, and experience, among others. Presently, the Board consists of two women directors and two independent directors. Through its committees, the Board of Directors oversees ESG initiatives and performance. The risk of non-compliance within the company is mitigated by a digitally enabled compliance management framework.

About the company and industry

Industry classification

Macroeconomic indicator	Sector	Industry	Basic industry
Consumer discretionary	Media, entertainment & publication	Entertainment	Media & entertainment

Network18 was founded in 1996. Independent Media Trust (whose sole beneficiary is RIL) acquired 73.15% stake (directly and indirectly) in Network18 in 2014, making it a subsidiary of RIL. Post merger of TV18 and E18 into Network18, Independent Media Trust, and other promoter group entities, together hold a majority stake (56.89%) in Network18. Network18 is media and entertainment business vertical of RIL group.

At a standalone level, Network18 is involved in digital news segment (moneycontrol.com, firstpost.com and news18.com), print segment (Forbes India, Overdrive) and also operates business of news broadcasting with six news channels in general and business news category and 14 regional news channels across India (including JV, News18 Lokmat).

Network18 holds 24.5% stake in ETPL, which operates a portfolio of seven channels for Telugu speaking markets of Andhra/Telangana.

It is the largest shareholder in entertainment ticketing and live event platform, bookmyshow.com, with ~39% stake. It has allied investments in Colosceum, Yatra, Ubona, and other companies.

Network18, through its 50.994% subsidiary, VMPL, operates GECs such as Colors, Rishtey, Comedy Central (English), music channels such as MTV and VH1, and entertainment channels for kids such as Sonic, Nick, and Nick Jr. VMPL also has presence in movie production and distribution business under Viacom18 Motion Pictures. In April 2023, VMPL acquired Jio Cinema app as a part of merger of Reliance Storage Limited with itself, and it is now OTT platform of VMPL. VMPL also ventured into sports segment in FY22 by acquiring TV and digital rights for some of the marquee sports properties globally and launched three sports channels under umbrella brand, Sports18.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
