

SHRINATH ROTO PACK PRIVATE LIMITED (Revised)

October 09, 2024

Facilities/Instruments	Amount (₹ crore)	Rating ¹	Rating Action
Long Term Bank Facilities	60.54	CARE BBB+; Stable	Assigned
Long Term / Short Term Bank Facilities	359.46	CARE BBB+; Stable / CARE A2	Assigned

Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

For arriving at ratings of Shrinath Rotopack Private Limited (SRPL), CARE Ratings Limited (CARE Ratings) has taken a combined view of two group entities of Shree group i.e. SRPL and Nath Foils Private Limited (NFPL) due to their financial and managerial linkages. Together, they are referred as Shrinath group (SG).

The ratings assigned to SG derive strength from its experienced and resourceful promoters as well as its long-standing relationships with reputed and diverse client base. The ratings also factor volume-backed growth in SRPL's scale of operations, moderate profitability margin and adequate liquidity.

The above rating strengths are, however, partially offset by SG's moderate financial risk profile and debt coverage indicators on account of large size debt-funded Capital Expenditure (CAPEX) in NFPL, which commenced commercial operations in March 2024. The ratings also factor vulnerability of SG's profitability to fluctuation in raw material (RM) prices and, its presence in a competitive and fragmented industry.

Rating sensitivities: Factors likely to lead to rating actions
Positive factors

- Scaling up of operations at NFPL and increase in capacity utilisation level of SRPL resulting in growth in scale of operations and improvement in Profit before Interest, Lease, Depreciation and Taxes (PBILDT) margin above 9% on combined basis.
- Improvement in capital structure marked by overall gearing below 1.25x on sustained basis.
- Improvement in debt coverage indicators marked by TD/GCA below 4x and PBILDT/Interest of more than 3.5x on sustained basis.

Negative factors

- Major debt funded capex resulting in deterioration in capital structure with overall gearing going beyond 2.5x.
- Additional Corporate guarantee/ additional support to another group company / NFPL (due to inability to scale up its operations) resulting in adjusted overall gearing beyond 2.5x.
- Sustained moderation in PBILDT margins below 8% on a combined basis.

Analytical approach: Combined

For arriving at ratings of SRPL, CARE Ratings has taken combined view of SRPL and NFPL on account of:

- Common shareholding i.e. Shree group family trust holds approximately 47% shareholding of SRPL and 80% shareholding of NFPL. Further, balance 20% of shareholding of NFPL is held by SRPL.
- Both entities are engaged in flexible packaging industry.
- Financial support by SRPL in form of advances as well as extension of corporate guarantee to the lenders of NFPL.

Outlook: Stable

Stable outlook reflects CARE Ratings' view that SG shall continue to benefit from its experienced promoters, its established position in the flexible packaging sector, and an expectation of growth in Total Operating Income (TOI) with scaling up NFPL's operations.

Detailed description of key rating drivers:
Key strengths
Experienced and resourceful promoter group

SRPL, the flagship company of the Shree group, a family-owned industrial group with over five decades of experience, is engaged in manufacturing of multilayered laminated plastic films having an end-application in the non-woven flexible packaging industry. SRPL is currently managed by the second generation of promoters Mr Sunil Rath, Mr Manish Rath and Mr Sarvesh Lahoti.

¹Complete definition of ratings assigned are available at www.careedge.in and other CARE Ratings Limited's publications.

Over the years, Shree group has diversified with backward integrating the inputs needed for flexible packaging. The group comprises of various entities with interests in master batches, Poly bags, Stretch and Speciality films, laminated woven sacks, inks, pharma (formulations) etc. During FY22, SG undertook a greenfield project to set up Aluminium foil manufacturing under NFPL. While it was expected to commence commercial operations from April 2023, commercialisation of the project was delayed resulting in both time and cost overruns. However, operations has scaled up and NFPL is currently operating at ~40-50% of installed capacity.

Long standing relationship with reputed and diverse clientele:

SRPL has reputed clientele base and caters to multinational FMCG conglomerate like Britannia, Procter & Gamble (P&G), Glaxosmith Kline (GSK) etc. Long standing relationship with its customers, coupled with a proven track record of delivering quality products, lead to repeat orders from existing customers. Top 10 customers of SRPL constitute around 36% of TOI in FY24 (FY refers to the period between April 01 to March 31) (FY23: 38% of TOI).

Volume backed growth in scale of operations and moderate profitability:

SRPL has achieved a stable growth Compounded Annual Growth Rate (CAGR) of ~10% in past 5 years, with SG achieving TOI of Rs.1019.38 crore as on FY24 end. The growth is attributable to a series of capex plans undertaken by SRPL, which increased its installed capacity from ~42,000 MTPA in FY22 to 57,540 MTPA FY24, and its gradual scaling up in response to increasing demand. SG reported PBDIT and PAT margins of 8.65% (6.79%) and 2.64% (1.60%) respectively in FY24.

NFPL, which was previously engaged in trading of aluminium foils, commenced manufacturing operations from its greenfield project from March 2024 and generates revenue through domestic as well as export markets (~50% of TOI). SG has achieved turnover of ~Rs.500 crore (including turnover of ~Rs.50 crore from NFPL) and is expected to maintain the growth momentum in H2FY25. NFPL has currently orders of 1150MT and is expected to generate revenue of ~Rs. 170-175 crore in FY25. CARE Ratings expects SG to report TOI in range of ~Rs.1200-1300 crore in FY25. Scaling up of operations of NFPL remains a key monitorable and crucial from credit perspective.

Key weaknesses

Partly Debt funded capex leading to moderate financial risk profile and debt coverage indicators:

SG's capital structure is moderate marked by overall gearing of 1.98x as on FY24 end. Over the past four years, SG has invested approximately Rs.430 crore in capital expenditure towards capacity expansion at SRPL and establishment of a greenfield project for aluminium foil manufacturing under NFPL. The cost was funded through a mix of bank debt and unsecured loans from promoters amounting to approximately Rs. 320 crore and balance was sourced from internal accruals. SG's debt coverage indicators are also moderate marked by Interest coverage of 2.6x (FY23: 2.9x) and high TD/GCA of 10.1x (PY: 9.9x) as on FY24 end. With scaling up of operations coupled with achievement of envisaged PBILDT, overall gearing is expected to improve to 1.5x by FY26 end.

Competitive and fragmented nature of Industry

The Indian plastic packaging film market is highly fragmented and competitive on account of presence of numerous small and medium sized players. This can hinder economies of scale. Moreover, low differentiation in the packaging solutions leads to intensely competitive market translating into low pricing power for the players in the industry.

Susceptibility of Profit margins to fluctuating RM price

SG's profit margins which have remained in range of 7.5-9.5% in the past 3 years ending FY24. are exposed to volatility in pricing of key RM i.e. Plastic granules and Polyester films which are derived from crude oil. For majority of the clients, Sales price is derived by adding RM cost to pre-determined conversion price, which mitigates risk of moderation in profitability margins to certain extent. This is reflected from PBILDT/kg of SRPL which has remained ~Rs. 18-20 in past 3 years ending FY24.

Liquidity: Adequate

Liquidity of SG is adequate marked by sufficient gross cash accruals (GCA), as compared to its term debt repayment obligations, cushion in form of unutilised portion of working capital limits and moderate working capital cycle.

SG's GCA is expected to remain in range of ~Rs. 57-90 crore against debt repayment obligations of Rs. 38-50 crore in projected FY25-FY27. Operating cycle of SG remained moderate in range of 90-110 days. SG had free cash and cash equivalent of Rs.1.95 crore as on FY24 end (FY23: Rs. 1.48 crore). SG reported cash flow from operations of Rs.17 crore in FY24 (FY23: Rs.82.78 crore). CFO has reduced in FY24 on account of reduction in creditors by ~Rs. 75 crore, funded by utilising channel finance limits. Current ratio of SG is thin at 1.05x as on FY24 (PY:1.14x) since internal accruals of SRPL were utilised for rendering advances to NFPL and fund debt repayment. NFPL is expected to generate sufficient GCA to service its term debt obligations from FY26

onwards. With no major CAPEX planned in near term, surplus cashflow of SG is expected to remain sufficient to meet incremental working capital requirements.

About the company and industry

Industry classification

Macroeconomic indicator	Sector	Industry	Basic industry
Consumer Discretionary	Consumer Durables	Consumer Durables	Plastic Products - Consumer

SRPL, incorporated in 2006, is engaged in manufacturing of flexible laminated plastic packaging (PVC, LDPE, HDPE, BOPP, BOPET) that are used separately or in combination for various packaging applications. These packaging solutions are extensively used in FMCG, confectionary as well as food and beverages industry. SRPL has two plants at Mankhal (28,200 MTPA) and Burgul (29,340 MTPA) district of Hyderabad having cumulative capacity of 57,540 MTPA. Apart from this company has in-house cylinder engraving facility of around 25,000 cylinders per annum. These cylinders are used as dyes in rotogravure machines.

NFPL, incorporated in Aug 2020 (commenced manufacturing operations in March 2024), is engaged in manufacturing facility of Aluminium foils with an installed capacity 14,600 MTPA at Aurangabad district, Maharashtra.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
