

Manikyam Poultry Farm

December 04, 2024

Facilities/Instruments	Amount (₹ crore)	Rating ¹	Rating Action
Long Term Bank Facilities	62.00	CARE B+; Stable	Reaffirmed

Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

The reaffirmation of the rating assigned to the bank facilities of Manikyam Poultry Farm continue to be constrained by its modest scale of operations, modest net worth base, partnership nature of constitution, working capital intensive nature of operations and vulnerability of the industry's performance to outbreaks of flu and other diseases. The rating also factors in the firm undertaking capital expenditure to expand the facility for which financial closure has been achieved. The rating, however, derives strength from the extensive experience of partners in the poultry business and their established relationships with customers and suppliers.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors

- Total operating income of more than Rs. 100 Cr and net worth of Rs. 15 Cr while successfully completing the project within estimated costs and timelines.

Negative factors

- Further deterioration in capital structure with overall gearing more than 4.5x times
- Deline in scale of operations below Rs. 60 crores on a sustained basis.

Analytical approach: Standalone

Outlook: Stable

Stable outlook reflects CARE Ratings expectation that the firm would exhibit stable business profile aided by long standing experience of partners in poultry business.

Detailed description of key rating drivers:

Key weaknesses

Modest scale of operations and net worth base

The scale of operations of the firm have remained modest over the years despite being in the business for almost two decades. The scale of operations however improved marginally by 8% from Rs. 65 crores in FY23 to Rs. 70 crores in FY24. The net worth base although improved over the years stood modest at Rs. 13.12 crores as on 31st March ,2024. Going forward with the planned capacity expansion , the scale and net worth base is expected to improve further.

Large capex plans

The company has exposure to project risk as it has capital expenditure plan to increase its shed capacity, bird cages and purchase additional birds. The size of the project is Rs. 52.00 crores which will be funded by Rs. 38.00 crores of term loan and Rs. 14.00 crores from promoter's funding. The project was started in January-2024 and is expected

¹Complete definition of ratings assigned are available at www.careedge.in and other CARE Ratings Limited's publications.

to be completed by March-2025. Financial closure of the project has been achieved. Thus, timely completion of project within the estimated costs would be a key rating monitorable.

Working capital intensive nature of operations

MPF operates in a working capital-intensive industry with high working capital utilisation level. The firm maintains inventory of about two months. Moreover, the operating cycle of the firm stood elongated at 179 days in FY24 as against 169 days in FY23.

Partnership nature of business

MPF being a partnership firm has the inherent risk of succession plan and the possibility of withdrawal of capital at the time of personal contingency, which can affect the capital structure. The firm has low net worth of Rs. 13.12 crores as on March 31, 2024, thus restricting the financial flexibility.

Vulnerability of the industry's performance to outbreaks of flu and other diseases.

Avian flu outbreaks such as bird flu can lead to drastic fall in demand followed by crash in poultry prices. At the time of outbreak of the coronavirus, the poultry industry was impacted in the major chicken consuming states. Such scenario could pressurize the company's revenue flows as well as profitability.

Key strengths

Extensive experience of partners in the poultry business

Manikyam Poultry Farm is a partnership firm established in the year 2007 by Mr. I. Siva Koti Reddy, K.Rama Mohan Rao and others. Mr. I Siva Koti Reddy and Mr. K.Rama Mohan Rao both have over two decades of experience in the poultry business. Due to long term presence in the market, firm has established relations with customers and suppliers.

Long existing customer and supplier relationships

The firm has long-established business relationships with its customers and suppliers. The counter party risk for the company is minimized as the company receives its payment within maximum 2 days from its customers and thus have no receivables.

Liquidity: Stretched

The liquidity profile of the company is stretched marked by modest Gross Cash Accruals (GCA) as against high debt repayment on the back of debt funded ongoing capex. The company reported a GCA of Rs.1.17 crore in FY24 and the company is expected to report similar GCA in FY25. Further the company is expected to report a GCA of Rs.5 crores in FY26 on the back of expected operationalisation of its enhanced capacity by March 2025. As against this the company has a repayment obligation of Rs. 4.50 crores in FY26. Further the average maximum working capital utilization stood high at 87% for the past 12 months ended September-24 which provides low liquidity backup. Further cash and cash equivalents stood low at Rs. 0.18 crores as on 31st March, 2024. However, CFO stood positive at Rs. 5.81 crores in FY24 (FY23: Rs. -6.32 crores)

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
