

Allcargo Gati Limited

December 09, 2024

Facilities/Instruments	Amount (₹ crore)	Rating ¹	Rating Action
Fixed deposit	0.13 (Reduced from 0.16)	CARE BBB (RWD)	Continues to be on Rating Watch with Developing Implications

Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

The rating assigned to the fixed deposit (FD) programme of Allcargo Gati Limited (AGL) continues to remain on the 'Rating watch with developing implications' due to ongoing composite scheme of arrangement for restructuring businesses of Allcargo Logistics Ltd (ALL, rated CARE AA- (Rating watch with negative implications) / CARE A1+ (Rating watch with negative implications) and AGL. Per the scheme, the ISC business, which contributes over 85% of revenue and EBITDA of ALL will be demerged into a separate entity, Allcargo ECU Limited. (AEL). This would include the India part of ISC business and international subsidiaries held under the ECU Worldwide NV. The remaining entity, ALL, will hold the Express and Contract Logistics Business. Transfer of contract logistics and express logistics businesses will happen through amalgamation of Allcargo Supply Chain Private Limited (ASCPL- Contract logistics) and Gati Express & Supply Chain Private Limited (GES CPL- Express logistics) with and into AGL. AGL (Contract logistics and express business) will merge with ALL. Each ALL shareholder will get one share of Allcargo ECU for every one share held. AGL's shareholders will get 63 shares of post-demerged ALL for every 10 shares they hold. AGL expects the scheme to be approved by NCLT by April 2025. CARE Ratings Limited (CARE Ratings), will continue to monitor developments of this scheme and will take a view on the rating once there is fair amount of clarity on the impact of this scheme on the business and financial profile when all requisite approvals are in place.

The rating continues to derive strength from the operational and financial synergy derived by AGL from ALL, established position of AGL in the express cargo industry with pan-India presence enabling it to cater to a diversified customer base across industries. AGL has a comfortable capital structure and healthy liquidity profile. However, the rating is constrained by low profit before interest, lease rentals, depreciation, taxation and (PBILDT) margin FY24 (FY refers to April 01 to March 31). It is further constrained by, concentrated revenue profile deriving large share of revenues from less-than truck load (LTL) segment, stiff competition from unorganised players and new start-ups.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors

- Improving total operating income (TOI) and PBILDT margin beyond 10% on a sustained basis.
- Improving total debt to gross cash accruals (TD/GCA) to 2x or less.

Negative factors

- Deteriorating financial profile, with overall gearing beyond 1.5x on sustained basis.
- Weakening PBILDT margin on sustained basis.

Analytical approach: Consolidated

CARE Ratings has also factored demonstrated track record of support being provided by the promoter group. AGL has strong linkages with ALL both in terms of management expertise and operational support. Analytical approach also considers operational linkages with subsidiaries, while assessing the rating. Companies consolidated is listed under Annexure-6.

Detailed description of key rating drivers:

Key strengths

Operational and financial synergies with ALL

Allcargo Gati (erstwhile known as Gati Limited) was established in 1989 saw a significant change in ownership, when ALL acquired a 46.86% stake in April 2020, with the current stake at 44.44% as on September 30, 2024. With full management control, ALL has become the promoter of AGL and its subsidiaries. Post acquisition, Shashi Kiran Shetty, Chairman of ALL, has been appointed Managing Director, AGL. CARE Ratings expects operational and financial synergistic benefits from ALL to accrue to AGL as its subsidiary.

¹Complete definition of ratings assigned are available at www.careedge.in and other CARE Ratings Limited's publications.

Established position in express cargo with pan-India presence

Through its subsidiary, GESPL, AGL operates through 19 express distribution hubs across India, including locations such as Ambala, Delhi, Jaipur, Lucknow, Noida, Delhi NCR, Ahmedabad, Mumbai (Inside and Outside), Indore, Pune, Bangalore, Hyderabad, Coimbatore, Chennai, Bhubaneswar, Kolkata, Guwahati, and Ranchi. The company also has a network of 90 goods delivery warehouses totaling over one million square feet, and over 530 customer convenience centers, owned and franchised, reaching ~19,000 pin codes across 650+ districts. AGL adopted an asset-light strategy, selling all its commercial vehicles and non-core assets. Currently, the company operates over 5,000 leased vehicles and maintains assured space across all major airline sectors, ensuring efficient delivery of goods to every corner of the country.

Large revenue shares from express distribution (LTL segment)

AGL's through its subsidiary GESPL has an integrated hub-and-spoke operating model that entails consolidation of goods from multiple locations through feeder vehicles to transshipment hubs and then further transported to respective destinations. Full truck load generates lesser net revenue than express division (LTL mode) due to transportation of goods from a single customer to single destination for certain customers. However, in express distribution, consolidation of goods from multiple customers are done through transshipment centres and further it is dispatched to multiple location resulting in better margins due to optimisation of capacities.

Comfortable financial risk profile

The company's financial risk profile remains comfortable with overall gearing at 1.42x as on March 31, 2024 (PY: 1.24x), slight moderation was considering higher working capital debt and lease liabilities. The company has prepaid its term loans in FY23 and currently there are no term loans outstanding. Other debt coverage indicators such as TD/GCA improved marginally to 5.84x (PY: 6.20x) respectively while interest cover moderated to 1.74x (PY: 2.39x) for FY24.

Key weaknesses

Stagnant revenue coupled with deterioration in profitability

The company's TOI largely remained stagnant with 1% growth to ₹1,698 crore in FY24 vis-à-vis ₹1,723 crore in FY23. However, PBILDT margins declined from 4.07% in FY23 to 3.07% in FY24 due to higher operating costs and lower realised yields. Despite this, the company reported net profit of ₹6.11 crore against net loss of ₹10.91 crore in FY23.

Concentrated revenue profile

Revenue is broadly divided into three categories: surface express (including LTL and MVATS-Full Truck Load), air express, and supply chain management (SCM). The surface express division remains the major operational segment, contributing 91.10% of the TOI in FY24, compared to 92% in FY23 reflecting its concentrated revenue profile.

Liquidity: Adequate

The company's liquidity profile is adequate. As on September 30, 2024, the company had cash and liquid investments to the tune of ₹64.24 crore. In FY24, the company has sold and realised ₹77.79 crore from the sale of its non-core assets, which improved its liquidity position. In FY23, the company also prepaid its entire term loan. Considering the company's approach to become asset light by divestment of its assets and with no term loan outstanding, it is expected to have adequate liquidity position. As Allcargo Gati is a subsidiary of ALL, the management of both entities are the same. Considering ALL's financial strength and gradual improvement in Allcargo Gati's financial performance, CARE Ratings expects its credit risk profile to also remain adequate.

Assumptions/Covenants: Not applicable

Environment, social, and governance (ESG) risks

Allcargo Gati has implemented a sustainability strategy focused on ESG and is prioritising efforts for reducing carbon emissions. The company is planning to be carbon-neutral and transition to 100% renewable sources for electricity consumption of all its owned facilities by 2040. To reduce carbon emissions, Allcargo Gati has made significant investments in electric vehicles (EVs) in FY24. Over 100 EVs have been deployed in a phased manner across the country for first and last-mile deliveries. To expand this capacity, Allcargo Gati signed a memorandum of understanding (MoU) with a clean energy solutions provider to add 500 electric cargo vehicles to its existing fleet. Allcargo Gati has an adequate governance structure, with 50% of its board comprising independent directors, and extensive disclosure.

About the company and industry

Industry classification

Macroeconomic indicator	Sector	Industry	Basic industry
Services	Services	Transport services	Road transport

Allcargo Gati (erstwhile known as Gati Limited) was established in 1989, and over time, has emerged as one of India's largest road transport companies. The company has established connectivity across air, road, ocean, and rail, providing logistics services to customers in the industry with presence in over 650 districts in India covering over 19,000 pin codes. At the group level, Allcargo Gati offers a wide range of services – express distribution, SCM solutions, e-commerce logistics, MVATS, freight forwarding, and cold-chain logistics. At the group level, Allcargo Gati, has a network of over 600 offices, including 31 large hubs including 10 Air Hub, and maintains a fleet of over 5,000 vehicles on-road across India. Under Allcargo Gati, surface logistics that comprise surface express, air express, and SCM are housed under the subsidiary, GESCPL. About 87% of Allcargo Gati's revenue comes from express distribution under its subsidiary, GESCPL. Allcargo Gati standalone handles the e-commerce division with freight forwarding and fuel stations segment.

In 2020, ALL (rated 'CARE AA- [Rating watch with negative implications]; CARE A1+ [Rating watch with negative implications]') acquired a 46.86% stake and became promoter of the then Gati Limited. ALL was incorporated in 1993 as a freight-forwarding agent and became a multimodal transport operator in 1998 by offering logistics services. The company operates in multiple business segments – multimodal transport operations (MTO), container freight stations (CFS) and inland container depot (ICD), project and engineering solutions, contract logistics and logistics parks. ALL is among the leading players in the global LCL consolidation market with a strong network across over 160 countries and over 300 offices covering over 4,000 port pairs across the world.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
