

## Kuldeep Motors Private Limited

December 31, 2024

Facilities/Instruments	Amount (₹ crore)	Rating <sup>1</sup>	Rating Action
Long Term Bank Facilities	5.94 (Reduced from 16.63)	CARE BB+; Stable	Upgraded from CARE BB; Stable
Long Term / Short Term Bank Facilities	50.00 (Enhanced from 39.37)	CARE BB+; Stable / CARE A4+	Upgraded from CARE BB; Stable / CARE A4

Details of instruments/facilities in Annexure-1.

### Rationale and key rating drivers

The upgrade in the ratings assigned to the bank facilities of Kuldeep Motors Private Limited (KMPL) takes into consideration sequential growth in scale of operations on the back of healthy sales volume owing to healthy demand for premium segment cars in the operating region supported by opening of new showrooms and consistent improvement in profitability margins over the past 3 fiscals ending FY24 (refers to the period April 1 to March 31). The ratings, further, continue to draw comfort from the experienced promoters and sole dealer of Maruti Suzuki in the district of Etawah, Uttar Pradesh with multiple showrooms with established business presence in Etawah district and its long-standing association with strong brand value of Maruti Suzuki India Limited. The ratings, however, continue to remain constrained by weak financial risk profile marked by leveraged capital structure and weak debt coverage indicators, pricing constraints and margin pressure arising due to intense competition from multiple auto dealers in the market and the cyclical nature associated with the automobile industry.

### Rating sensitivities: Factors likely to lead to rating actions

#### Positive factors

- Consistent growth in the scale of operations as marked by total operating income of above Rs.400.00 crore along with PBILDT margin of above 5.00% on sustained basis.
- Improvement in the capital structure with an overall gearing of less than 2.00x.

#### Negative factors

- Any significant deterioration in the capital structure of the company as marked by overall gearing ratio of above 4.00x.
- Decline in scale of operations by more than 30% from envisaged level, thereby leading to decline in profitability margins as marked by PBILDT margin below 2.00% on a sustained basis.
- Significant deterioration in working capital cycle, thereby leading to weakening of liquidity position of the company.

### Analytical approach: Standalone

#### Outlook: Stable

The 'Stable' outlook reflects that entity will continue to benefit from the experienced promoters and is likely to maintain its sustainable credit risk profile and liquidity position.

### Detailed description of the key rating drivers:

#### Key strengths

**Growing scale of operations:** The scale of operations of the KMPL has witnessed a growing trend for the past three financial years (FY22-FY24) and has grown at a compounded annual growth rate (CAGR) of ~21.13% over the past 3 fiscals ending FY24. The total operating income (TOI) and gross cash accruals of KMPL has increased to Rs.255.55 crore and Rs.3.90 crore respectively, in FY24 from Rs.212.06 crore and Rs.2.01 crore respectively, in FY23 reflecting y-o-y growth rate of 20.51% in TOI. The same was account of increase in vehicles sales volume by ~25% owing to significant improvement in Nexa showroom performance, mainly driven by the high demand for premium vehicles and new launches during the year by Maruti Suzuki in the SUV segment. Further, the company has achieved total operating income of ~Rs.177.00 crore during 8MFY25 (refers to the period from April 1, 2024 to November 30, 2024; based on provisional results) and is expected to achieve a turnover in the range of ~Rs.270.00-275.00 crore for FY25 on the back of strong demand expected for new model launches, improving penetration of cars volume in PV segment and SUVs. Further, the company is also planning to launch two new Nexa showrooms in Mainpuri and Auriya, three new Arena showrooms in Karhal, Bewar and Ghirauli, two new Arena workshops in Babarpur Ajitmal and Chakar Nagar along with

## Press Release

additional Bodyshop in Nexa showroom in Etawah in which is expected to be operational by Q4FY25/Q1FY26. Furthermore, the company has also strategically positioned its Ghiror, Bela and Bhiduna showrooms as R-outlets across Etawah district to serve the rural areas of the state.

**Improvement in profitability margins:** KMPL's profitability margins are thin due to the inherent nature of the auto dealership business, where revenues are primarily driven by car volumes, but profits come from the sale of spares, accessories, and service income, as the latter fetches higher profit margins. Additionally, dealers have limited negotiating power with the principal and has no control over the vehicle's selling price, which is set by Maruti. However, PBILDT margin of the company improved and stood at 4.23% in FY24 as against 3.75% in FY23 owing to increase in sale of premium segment vehicles where the margins are slightly better compared to others. Further, PAT margin also improved and stood at 1.14% in FY24.

**Experienced promoters with sole dealer in Etawah district, Uttar Pradesh:** KMPL was incorporated in 2007 and has been managed by Mr. Harjeet Singh, Mr. Taran Pal Singh and Mr. Saravjeet Singh Kalra. Mr. Harjeet Singh, Mr. Taran Pal Singh has experience of around four decades, respectively in the similar industry through other entities, while Mr. Saravjeet Singh Kalra has more than one decade of experience in the automobile industry. Furthermore, the promoters are assisted by a team of qualified managerial personnel and technical team having considerable experience in their respective fields. Further, leveraging the promoters' expertise and their well-established relationship with MSIL, KMPL is an exclusive sole dealer of Maruti Suzuki in Etawah district, Uttar Pradesh and currently operates eight showrooms and one true value outlet in the state of Uttar Pradesh. It has opened four Arena showrooms in Etawah, Mainpuri, Auraiya, Ghiror along with a Nexa showroom in Etawah. In July, 2024, the company has launched three new Arena showrooms in Bhartana, Bela and Bhiduna.

**Long-standing association with strong brand value of Maruti Suzuki India Limited:** Since 2008, KMPL is an authorized dealer of Maruti Suzuki India Limited (MSIL) and KMPL's performance is strongly correlated with the performance of its principal's vehicles in the market and their ability to launch new products as per the market dynamics. MSIL is one of the largest automobile manufacturers and a leading player in the passenger vehicle (PV) segment reflected by its substantial market share of around 40% in FY24, as reported by The Federation of Automobile Dealers Associations (FADA) in their March 2024 report published on April 8, 2024. Thus, strong brand value of Maruti enables the company to gain access to wide customer base and healthy demand of its products.

**Working capital efficient nature of operations:** The operations of the company is working capital efficient as marked by working capital cycle of 42 days in FY24 (P.Y.: 33 days). The slight moderation in working capital can be attributed to the pent-up demand, which required the company to maintain higher inventory levels to meet increased vehicle demand. Additionally, company's showrooms need to stock different models of vehicles and spare parts with each having various variants to ensure ample availability and visibility to meet customers' requirements at all times. While the company predominantly conducts sales on a "Cash and Carry" basis, approximately 75% of vehicles are financed through banks/financial institutions, resulting in a collection period of around 13 days in FY24. Furthermore, the company's average creditors' payment period is approximately 2-3 days on account of lower bargaining power with the OEM (i.e., Maruti Suzuki).

**Key weaknesses**

**Weak financial risk profile:** The company has weak financial risk profile owing to high debt levels required to fund the inventory requirements of the company. The capital structure of the company stood leveraged as marked by overall gearing ratio which stood at 3.25x as on March 31, 2024, which deteriorated from 2.99x as on March 31, 2023 on account of increased working capital borrowings to support growing scale and higher inventory requirements.

Further, on account of high debt levels, the debt coverage indicators of the company as marked by interest coverage ratio stood weak at 1.86x in FY24 (P.Y.: 1.94x). Despite increase in total debt, total debt/GCA witnessed improvement from 23.17x as on March 31, 2023 to 16.22x as on March 31, 2024 on account of increase in PBILDT consequently leading to high GCA, however, the same continues to remain high.

**Pricing constraints and margin pressure arising due to intense competition from multiple auto dealers in the market:** The base prices for all the passenger vehicles are fixed by the OEM's and the dealers have little leeway to enable and get incremental profits. The market also faces aggressive competition from various other well-established automobile dealers. In order to capture larger market share in a competitive market, KMPL has to resort to offering better buying terms like allowing discounts on purchases or giving freebies which creates margin pressure and negatively impact the earning capacity of the company. The entry of various global OEM's in the Indian market has further intensified the competition. Due to very high competition in the industry, dealers are also forced to pass on discounts and exchange schemes to attract customers which restrict their margins. Further, the company operates in catchment area with lower market penetration.

**Cyclicality associated with the automobile industry:** The automotive sector is dependent on economic growth, credit conditions and consumer confidence. The auto industry is inherently vulnerable to the economic cycles and is highly sensitive to the movement in interest rates and fuel prices. A hike in interest rate increases the costs associated with the purchase leading to purchase deferral. Fuel prices have a direct impact on the running costs of the vehicle and any hike in the same would lead to reduced disposable income of the consumers, influencing the purchase decision. Further, the policies implemented by the government also have a direct bearing on the sale of passenger vehicles. The company thus faces significant risks associated with the dynamics of the auto industry.

### Liquidity: Adequate

The liquidity position of the company remained adequate characterized by sufficient cushion in accruals vis-à-vis repayment obligations. The company has reported net cash accruals (NCA) to the extent of Rs.3.90 crore during FY24 and is expected to generate envisage NCA of Rs.4.50 crore for FY25 against repayment obligations of ~Rs.2.70 crore in same year. Further, the average utilization of its working capital limits stood around 60%-70% for the past 12 month's period ending November 2024. The company has adequate liquidity in the form of free cash and bank balances which stood at Rs.24.19 crore as on March 31, 2024. The company has undertaken capex plan of ~Rs.12.00 crore to open five new showrooms, two workshops and one body shop in various areas of Etawah. The capex is proposed to be funded through term loan of ~Rs.9.00 crore and rest through internal accruals and unsecured loans. The loan is yet to be tied-up. As on December 23, 2024, it has incurred ~Rs.5.00-6.00 crore towards construction works and the same being funded through cash balances maintained by the company. The same is expected to be operational by Q4FY25/Q1FY26.

### About the company and industry

#### Industry classification

Macroeconomic indicator	Sector	Industry	Basic industry
Consumer Discretionary	Automobile and Auto Components	Automobiles	Auto Dealer

Etawah (Uttar Pradesh) based Kuldeep Motors Private Limited (KMPL) was incorporated in October, 2007 as a private limited company. The company is currently managed by Mr. Harjeet Singh, Mr. Taran Pal Singh and Mr. Saravjeet Singh Kalra.

The company is an authorized dealer of Maruti Suzuki India Limited (MSIL) for sale of passenger vehicles (PV) and its spare parts. The company operates through its 3S (Sales, spare, & services) two showrooms at Etawah, along with other six outlets located at Mainpuri, Auraiya, Ghiror, Bhartana, Bela and Bhiduna (all in Uttar Pradesh). Further, the company is also engaged in the refurbishment of second-hand vehicles through its Maruti Suzuki True Value outlets located at Etawah (Uttar Pradesh), which are then certified by Maruti for further selling and purchasing. KMPL currently sells all models of Maruti through its showrooms/outlets.

### About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

### Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
