

## Ucal Polymer Industries Limited

January 03, 2025

Facilities/Instruments	Amount (₹ crore)	Rating <sup>1</sup>	Rating Action
Long Term Bank Facilities	4.75	CARE BB+; Stable	Rating removed from ISSUER NOT COOPERATING category and Reaffirmed
Short Term Bank Facilities	0.20	CARE A4+	Rating removed from ISSUER NOT COOPERATING category and Reaffirmed

Details of instruments/facilities in Annexure-1.

### Rationale and key rating drivers

CARE Ratings Limited (CARE Ratings) had previously rated the bank facilities of UCAL Polymer Industries Limited (UPIL) as 'ISSUER NOT COOPERATING'. UPIL has now cooperated by providing the necessary information for undertaking the review. The ratings assigned to the bank facilities of UPIL continue to be constrained by moderation in scale of operation and profitability margin, elongation in the receivables position, cyclical nature of the auto industry, product obsolescence risks and investment in its US-based subsidiary. The ratings, however, continue to draw comfort from the long-standing presence in the high precision auto component segment and with satisfactory debt coverage indicators.

### Rating sensitivities: Factors likely to lead to rating actions

#### Positive factors

- Improvement in product profile and diversification of customer base.
- Increase in scale of operations above ₹70 crores.

#### Negative factors

- Any large debt funded capex resulting in moderation in capital structure.
- Further deterioration in scale of operations or liquidity position

### Analytical approach: Standalone

#### Outlook: Stable

CARE Ratings Limited (CARE Ratings) believes that the company's will maintain its operational performance over the medium term.

### Detailed description of key rating drivers:

#### Key Weaknesses

##### Moderate and stagnant scale of operation

Scale of operation has been moderate over the past few years due to the reduced demand from UCAL Limited (formerly known as UCAL Fuel Systems Limited) (UCAL), which faced lower demand for its products due to BSVI norms. UPIL's total operating income (TOI) moderated by 9% in FY24 to ₹39.54 crores, primarily due to reduced pricing for certain components. However, in the first eight months of FY25, UPIL's revenue improved to ₹29 crores. UCAL is expected to secure new orders from Tier I original equipment manufacturers (OEMs) for fuel rail assemblies, which in turn, is expected to improve demand for UPIL's plastic components and thereby increase revenue. Additionally, UPIL also plans to diversify its customer base by onboarding other OEMs and secondary players. For FY24, 93% of TOI was only from its parent UCAL Limited.

<sup>1</sup>Complete definition of ratings assigned are available at [www.careedge.in](http://www.careedge.in) and other CARE Ratings Limited's publications.

**Investment in subsidiary company**

During FY11, UPIL had invested about ₹14.05 crores in its subsidiary company in USA namely UPIL USA Inc which was incorporated to serve as a marketing arm of UPIL in the US with a view to focus on export market. The company was established with the intention of making it the marketing arm for the group, but the same did not materialise. The total investment in this subsidiary is at ₹14.05 crores as on March 31, 2024. Net worth adjusted against this exposure was ₹41.96 crores as on March 31, 2024, and Adjusted gearing was 0.10x as on March 31, 2024 (PY: 0.11x).

**Evolving technological changes**

After Implementation of BS VI emission norm, UCAL (Major customer of UPIL) had developed new Products (E- Carb / EASV) for 2-W to comply the emission norms. Hence, the transition to BS VI compliant products did not involve major investments for UPIL. However, these products didn't take off as expected. However, UPIL's product being generic in nature which can be customized to the requirements of the automotive industry, UPIL foresees foraying into new products to cater other OEM players and replacement market.

**Key Strengths****Established track record and experienced parent**

UPIL was established to reduce UCAL's dependence on imported plastic and rubber components. Over the years, UCAL's reliance on imports has reduced with corresponding increase in sourcing from UPIL. Beginning FY11, UPIL has started supplying products to other tier-I suppliers and OEMs. For FY24, UPIL has generated around 93% of its revenue by supplying its product to the parent UCAL (PY: 91%).

**Comfortable capital structure and coverage indicators**

In the absence of any large debt funded capex during the last 7 years, the capital structure of UPIL remains comfortable. While the company has no long-term debt and the level of working capital borrowings is relatively small, the overall gearing stood comfortable at 0.08x as on March 31, 2024 (PY: 0.08x). The PBILDT/ Interest stood at 7.90x in FY24 (PY: 11.13x) while the Total Debt/GCA stood at 1.84x (PY:1.18x).

**Liquidity: Stretched**

Liquidity is stretched marked by elongated working capital cycle, which has increased from 118 days in FY23 to 163 days in FY24 due to extended collection period given to the parent UCAL Limited. The average collection days are elongated from 175 days in FY23 to 210 days in FY24. The average working capital utilization stood high around 92% for twelve months ended on October 2024. The company does not have any term debt obligations. The cash and Bank Balance stood low at ₹0.02 crores as on March 31, 2024 (PY: ₹0.03 crores).

### About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

### Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
