

PR Cars LLP

February 26, 2025

Facilities/Instruments	Amount (₹ crore)	Rating ¹	Rating Action
Long Term Bank Facilities	36.28 (Enhanced from 31.28)	CARE B+; Stable	Rating removed from ISSUER NOT COOPERATING category and Upgraded from CARE B; Stable

Details of instruments/facilities in Annexure-1.

The rating previously assigned to the bank facilities of PR Cars LLP (PCL) were denoted as CARE B; Stable; ISSUER NOT COOPERATING; since, the firm did not provide the requisite information for monitoring the rating. Further, in line with the extant SEBI guidelines, CARE Ratings Limited (CARE Ratings) reviewed the rating on the basis of the best available information. However, the firm has now submitted the requisite information to monitor the rating and CARE Ratings has carried out a full review of the rating and the rating stands at 'CARE B+; Stable'.

Rationale and key rating drivers

The rating assigned to the bank facilities of PCL remains constrained by the cyclical nature of the auto industry, pricing constraints and margin pressure arising out of competition from various auto dealers in the market. The rating also factors in the leveraged capital structure and weak debt service indicators along with the working capital-intensive nature of operations and stretched liquidity position. However, the rating is partially offset by improving operational performance, experienced management and authorized dealer of Hyundai Motor India Limited (HMIL).

Rating sensitivities: Factors likely to lead to rating actions

Positive factors

- Sustained improvement in total operating income (TOI) above ₹200 crore along with profit before interest, lease rentals, depreciation and taxation (PBILDT) margin of above 4%.
- Improvement in capital structure as marked by overall gearing below 3x on sustained basis.

Negative factors

- Decline in TOI below ₹140 crore along with PBILDT margin below 3% on a sustained basis.
- Deterioration in capital structure due to increasing reliance on working capital borrowing as marked by total debt to PBILDT of above 15x on a sustained basis.

Analytical approach: Standalone

Outlook: Stable

"Stable" outlook reflects CARE Ratings' opinion that PCL will continue to derive benefit from its long-standing experience of partners in the industry.

Detailed description of key rating drivers:

Key weaknesses

Leveraged capital structure and weak debt service indicators

As on March 31, 2024, the debt profile of the firm comprises of term loan to the tune of ₹27.61 crore, unsecured loan to the tune of ₹1.55 crore and working capital limits utilized at ₹33.48 crore against relatively small tangible net worth of ₹10.38 crore. The capital structure of the firm deteriorated and remain weak as marked by overall gearing ratio at 6.03x as on March 31, 2024, as compared to 4.23x as on March 31, 2023, on account of high dependence on external borrowing by the firm to fund the incremental working capital requirements. Further, the debt service coverage indicators of the firm stood weak owing to low profitability coupled with high debt levels. The firm interest coverage ratio stood at 1.09x as on March 31, 2024, as against 0.41x as on March 31, 2023. CARE Ratings believe improvement in the capital structure over the short to medium term driven by pre-payment of term-loan.

¹Complete definition of ratings assigned are available at www.careedge.in and other CARE Ratings Limited's publications.

Working capital intensive nature of operations

The operation of the firm is working capital intensive as marked by elongated operating cycle as the firm needs to stock different models of vehicles and spares in the showrooms to ensure adequate availability and visibility, this leads to higher inventory days. However, the operating cycle improved to 90 days as on March 31, 2024 (PY: 100 days). The firm procures passenger vehicles and spare parts from HMIL by making advance payment resulting in collection period of 47 days as on March 31, 2024. As on balance sheet date, ~70% of the limits utilized were advanced to HMIL.

Partnership nature of constitution

The inherent risk of withdrawal of capital in a partnership firm poses several risks that can impact the business's stability and operations. This financial strain can hinder the partnership's ability to meet obligations and invest in growth opportunities which in turn affect the operating efficiency of the organization. However, the partners of the firm have infused in capital of ₹0.28 crore during FY24 (refer to the period April 01 to March 31) and ₹3.50 crore till January 31, 2025, and will further support the operations if needed to support the operations of the firm.

Cyclical nature of the auto industry

The automotive sector is dependent on economic growth, credit conditions and consumer confidence. The auto industry is inherently vulnerable to economic cycles and is highly sensitive to interest rates and fuel prices. A hike in interest rate increases the costs associated with the purchase leading to purchase deferral. Fuel prices have a direct impact on the running costs of the vehicle and any hike in the same would lead to reduced disposable income of the consumers, influencing the purchase decision. The policies implemented by the government also have a direct bearing on the sale of passenger vehicles.

Pricing constraints and margin pressure arising out of competition from various auto dealers in the market

Indian automobile industry is highly competitive in nature as there are large numbers of players operating in the market like Maruti Suzuki India Limited, Tata Motors, Hyundai, Honda, Toyota etc. in the passenger vehicle segment. Original Equipment Manufacturers (OEMs) are encouraging more dealerships to improve penetration and sales, thereby increasing competition amongst dealers. Entry of the global players in the Indian market has further intensified the competition. Hence, OEMs offer various discount schemes to attract customers. Due to very high competition in the industry, dealers are also forced to pass on discounts and exchange schemes to attract customers as this is a volume-driven business. Dealers' fate is also linked to the industry scenario and performance of OEMs. The firm is dealer of HMIL and hence, the performance and prospects of the firm are highly dependent on HMIL being its principal.

Key strengths**Improving operational performance**

TOI grew at a compounded annual growth rate (CAGR) of 28% in the last 5 years ended FY24 and increased to ₹146.54 crore in FY24 against FY23. The profitability margins as marked by PBILDT and PAT margin also improved to 4.46% and 0.45%, respectively, in FY24 (PY: 1.71% and 0.39%, respectively). The firm's profitability margins have remained within the 6-7% range due to controlled discount offerings. However, margins were affected in FY23 due to debt-funded expansion plans. During 9MFY25 (refers to the period April 01 to December 31), the firm achieved TOI of ₹120 crore and is expected to achieve ~₹170 crore in FY25. CARE Ratings believe improvement in operational performance of the firm in the medium to long term, driven by addition of new showroom.

Experienced management

The firm was incorporated in 2018 and is promoted by Harshit Bajaj with an experience of 12 years and Mansi Bajaj who has an experience of 10 years in dealership business. They have dealership of Royal Enfield and Bajaj in two-wheeler Segment. They operate through 3S model (Sales, Service, Spares). Further, the firm has a dedicated team of marketing and sales professionals, service in-charge and customer relation officers, who have around 5-10 years of experience in their respective fields.

Authorized dealer of Hyundai Motor India Limited

PR Cars LLP is the authorized dealer of HMIL and has wide and established distribution network and a network of service centers across India which provides it a competitive advantage over its peers. HMIL's fully integrated state-of-the-art manufacturing plants boasts advanced production, quality, and testing capabilities.

Liquidity: Stretched

The liquidity position remained stretched as marked by low gross cash accruals and cash and liquid investments against debt repayment obligation of ₹2-3 crore in FY25. The firm intends to pre-pay the term debt and currently holds long-term debt of ₹16-17 crore as on January 31, 2025. The partners have infused in capital of ₹3.50 crore till January 31, 2025, along with that the

non-operating income are used to pre-pay the long-term debt. Further, the current and quick ratio of the firm stood at 1.29x and 0.70x, respectively, as on March 31, 2024 (PY: 1.50x and 0.78x, respectively). As per bankers' feedback, the limits remain fully utilized.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
