Short Term Bank Facilities	-	-	Reaffirmed at CARE A2 and Withdrawn

Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

CARE Ratings Limited (CARE Ratings) has reaffirmed and withdrawn the ratings of 'CARE BBB+; Positive / CARE A2+' outstanding on the bank facilities of Dynacons Systems & Solutions Limited (DSSL) with immediate effect. The above action has been taken at the request of the company and based on the 'No Objection Certificate' received from the bank(s) that have extended the facilities rated by CARE Ratings, in accordance with CARE Ratings' withdrawal policy.

The reaffirmation of the ratings reflects DSSL's established track record and the extensive experience of its promoters in the information technology (IT) services industry and CARE Ratings Limited's (CARE Ratings') expectations that the company will maintain adequate performance over the medium term supported by its established relationship with reputed clientele and suppliers and vintage in the industry. DSSL's capital structure remains comfortable marked by overall gearing at 0.23x, indicating low reliance on borrowings, as it funds its working capital through extended credit period from suppliers as indicated by total outside liabilities to tangible net worth (TOL/TNW) of 2.73x as on March 31, 2024. Its debt protection metrics stood comfortable marked by PBILDT interest cover of 8.80x and total debt to GCA of 0.8x in FY24. CARE Ratings expects the company to continue to maintain healthy operating performance backed by long-term association with key customers.

The ratings remain constrained by DSSL's high working-capital intensive operations marked by gross current days above 200 days in FY24 largely due to extended credit period offered to customers, which is majorly financed through credit offered by suppliers. The company is exposed to high competitive intensity from other players in the industry which limits its pricing flexibility and puts pressure on its margins. The company is also exposed to broader IT industry risks such as global demand slowdown, high employee attrition which could impact its operations.

Analytical approach: Consolidated

Consolidated financials have been considered due to presence of common management, brand name, and operational linkages with subsidiary. List of entities considered for consolidation mentioned in Annexure- 6.

Outlook: Positive

The positive outlook reflects an expectation of improvement in DSSL's business risk profile over the medium term driven by a healthy order book position with addition of new clients and increase in business from existing clients resulting in improvement in TNW. The company's TOL/TNW is expected to improve over the medium term below 2.20x. The outlook may be revised to 'Stable' if the company is unable to ramp-up the scale as envisaged or sustain the margins or achieve cash accruals as envisaged.

Detailed description of key rating drivers:

Key strengths

Improving scale of operation and stable profitability leading to healthy cash accruals

DSSL's scale of operations has grown at a healthy CAGR of ~27% in the last five years between FY19 and FY24, wherein it stood at ₹1,024.46 crore in FY24 compared to ₹311.90 crore in FY19 and it has also shown the growth of ~27% YoY. The growth is primarily considering consistent orders from existing as well as new customers and accelerated spending on digital transformation initiatives and cloud adoption. In FY24, DSSL's PBILDT margins improved to 7.62% (PY: 6.80%) and PAT margins improved to 5.25% (PY: 4.16%) due to economies of scale and higher contribution from value-added services translating into better GCA. CARE Ratings expects the company to continue to record healthy operating performance backed by long-term association with key customers.

Diversified revenue profile and service offerings and long-standing relationship with reputed clientele

DSSL offers a wide range of services, IT System Integration (SI), IT infrastructure management, software solutions, security & surveillance systems, and networking solutions, among others, which enables the company to broaden its business by way of revenue streams. DSSL has a reputed client base, including marques names in the banking financial services and insurance (BFSI), public sector units (PSU) and global & others. It includes reputed client such as Reserve Bank of India, ICICI Bank, Brihanmumbai Municipal Corporation, Facebook India Online Services Pvt. Ltd, and Coforge Limited among others, and reputed suppliers such

¹Complete definition of ratings assigned are available at www.careedge.in and other CARE Ratings Limited's publications.

as Redington Ltd, Ingram Micro India Pvt Ltd and others. DSSL has an unexecuted order book of ~₹871 crore as on August 31, 2024, which, coupled with a track record of repeat orders from key customers, provides revenue visibility.

Comfortable capital structure and debt coverage metrics

The company's financial risk profile remains adequate as reflected by overall gearing of 0.23x and TOL/TNW of 2.73x as on March 31, 2024, which indicates high dependence on creditors to fund the working capital requirements. Moreover, DSSL's business model entails sizeable bank guarantees to clients which further constrain the capital structure. Nevertheless, the debt coverage indicators stood comfortable marked by the interest coverage ratio 8.80x in FY24 (PY: 5.01x) considering improvement in profitability. Going forward, the company's ability to reduce its reliance on creditor funding remains a key rating consideration.

Key weaknesses

Working capital intensive operation

The company's operations remain working capital intensive marked by high gross current asset days at 204 days in FY24 compared to 176 days in FY23 primarily considering higher collection days. The collection period has remained stretched as the billing of revenue is done upfront, whereas debtors are realised on milestone basis per the completion of project. However, the risk is mitigated to certain extent considering the long-standing relations and reputed clientele.

Highly competitive intensity

DSSL faces intense competition from large established players, which limits its pricing flexibility and puts pressure on its margins. The company is also exposed to broader IT industry risks such as global demand slowdown, and high employee attrition which could impact its operations.

Liquidity: Adequate

DSSL's liquidity remains adequate marked by sizeable projected cash accruals against moderate fixed repayment obligations. As on March 31, 2024, DSSL has negligible free cash/bank balance of ₹0.80 crore. Net cash from operations stood positive in FY24 at ₹54.53 crore (PY: 34.25 crore). The average working capital utilisation stood at moderate levels for the last 12 months ended September 2024 providing sufficient liquidity cushion. As on March 31, 2024, the current ratio stood at 1.17x and quick ratio stood at 1.00x.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
