Rationale and key rating drivers

CARE Ratings Ltd. has been seeking information from Mittapalli Agro Enterprises (MAE) to monitor the rating(s) vide e-mail communications dated January 13, 2025, to January 20, 2025, among others and numerous phone calls. However, despite our repeated requests, the firm has not provided the requisite information for monitoring the ratings. In line with the extant SEBI guidelines, CARE Ratings Ltd. has reviewed and revised the rating on the basis of the best available information (including lender interaction) which however, in CARE Ratings Ltd.'s opinion is not sufficient to arrive at a fair rating. The rating on MAE's bank facilities will now be denoted as **CARE D; ISSUER NOT COOPERATING***

Users of this rating (including investors, lenders and the public at large) are hence requested to exercise caution while using the above rating(s).

The ratings have been revised on account of ongoing delays in debt servicing with the account classified as NPA based on the confirmation received during interaction with the lender.

Analytical approach: Combined

CARE has combined financials of three entities of the Mittapalli Agro group namely Mittapalli Agro Products Private Limited (MAPPL), Mittapalli Agro Exports (MAEX) and Mittapalli Agro Enterprises (MAE) since, these said entities are engaged in a similar line of activity and have common promoters along with having significant operational linkages.

Outlook: Not Applicable

Detailed description of the key rating drivers

At the time of last rating on December 06, 2023, the following were the rating strengths and weaknesses (updated for the information available from Registrar of Companies and stakeholders):

Key weaknesses

Ongoing delays in debt servicing: There are ongoing delays in debt servicing of the rated working capital loans and the account has been classified as NPA.

Moderate financial risk profile:

The scale of operations of the group has improved due to higher sales realization yet remained modest. The TOI increased to Rs. 190.52 crore in FY23 from Rs. 121.63 crore in FY22. The profitability margins continue to remain thin due to trading nature of operation with very limited value addition. The margins are also affected by fluctuation in the raw tobacco prices, which is volatile since the availability FCV being a high-grade tobacco is highly regulated, and time bound with limited quantity being available for Medium/small players as cash rich buyers can plan and procure desired quantities and qualities at the right time.

The capital structure marked by overall gearing has improved yet remained leveraged due to high debt level on account of high utilization of working capital debt. The overall gearing stood at 3.76x as on March 31, 2023 (PY:3.98x). The coverage indicators remained moderate with interest cover just above unity at of 1.10 times in FY23 (PY: 1.16x).

¹Complete definition of the ratings assigned are available at www.careedge.in and other CARE Ratings Ltd.'s publications

Elongated operating cycle given the working capital-intensive nature of operations

Group operates in a working capital-intensive industry and the operating cycle continues to remain stretched at 220 days in FY23 (FY22: 328 days) primarily because of high collection period of 150 days for FY23 (FY22: 280 days) and significant increase in inventory holding period to 132 days during FY23 as against 124 days in FY22. The average shipment time increased to 2-3 months as against 30 days which led to high inventory as on March 31, 2023. Also, in view of seasonality associated with cultivation of tobacco owing to which the group needs to maintain adequate stocks to ensure availability for processing and trading throughout the year, hence the inventory holding normally remains high in this industry.

Susceptibility to adverse regulatory changes and climatic conditions

Tobacco industry is highly susceptible to adverse regulatory changes due to restrictive government policies in the form of excise duties and imposition of multiple taxes. Moreover, in order to maintain acceptable level of quality of processed tobacco, sourcing of quality tobacco is prerequisite. The availability of quality tobacco depends on the climatic conditions and in an event of any adverse climatic events like untimely rains, drought, etc. may limit the availability of the same.

Partnership constitution of few entities

Two entities in the group i.e. Mittapalli Agro Exports (MAEX) and Mittapalli Agro Enterprises (MAE) has been constituted as partnership firm which has the risk of withdrawal of capital and may also restrict the financial flexibility at times of stress. However, the partners have been infusing USL as and when required to support operations.

Key strengths

Experienced promoters with established presence in the industry

Mr. Mittapalli Panduranga Rao is the founder of the group and has a vast experience of over four decades in the tobacco industry. Group is currently managed by the next generation of the Mitapalli family; Mr. Mittapalli Ramesh, who is the Managing Director in one of the group companies Mittapalli Agro Products Pvt Ltd (MAPPL) has over two decades of experience in Tobacco processing and exports. Mr. Mittapalli Ramesh is also managing partner in Mittapalli Agro Enterprises (MAE) and Mittapalli Agro Exports (MAEX) and is actively involve in the day-to-day operations of the group with other family members and are ably supported by technically efficient and experienced staff.

Location advantage with the presence of the unit in prime tobacco cultivating area

The group operates from Guntur, which is a prime area for the Indian tobacco Industry. Andhra Pradesh state (especially areas around Guntur) is the major hub for tobacco cultivation. The group benefits from the locational advantage for logistics with respect to raw material procurement as well as shipment of finished products. The products are shipped from the nearby ports to the export destinations. Processing unit is located near National Highway- 5 and is well connected with road, rail and sea. The tobacco leaves after procurement are processed by way of threshing and re-drying which the group gets done on job-work basis. The group has own warehouses to keep the tobaccos and is capable of handling and exporting around 7000 Tons of Tobacco annually.

Liquidity Analysis- Stretched

The liquidity position of the group is stretched characterized by elongated operating cycle and highly utilised working capital limits of around 95% for all 3 entities during the last 12-month period ended in October 2023. However, the group has no major term debt repayment obligations. Liquidity is supported by an above unity current ratio at 1.91x March 31, 2023 (PY: 1.55x) and regular infusion of funds from promoters to support the operations.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
