

# **Sri Laxmi Vinayaka Rice Industries**

March 11, 2025

Facilities/Instruments	Amount (₹ crore)	Rating <sup>1</sup>	Rating Action
Long Term Bank Facilities	30.00 (Reduced from 30.27)	CARE B+; Stable	Reaffirmed

Details of instruments/facilities in Annexure-1.

## Rationale and key rating drivers

The rating assigned to the bank facilities of Sri Laxmi Vinayaka Rice Industries (SLVRI) continues to factor in its modest scale of operations and thin profitability margin that is susceptible to raw material price fluctuations. Rating also continues to be tempered by agro-climatic risks, highly fragmented and competitive nature of industry and constitution of the entity as a partnership firm. Reduction in sales in FY24 has impacted liquidity of the firm, however, CARE Ratings Limited (CARE Ratings) positively takes note of infusion of funds by partners to support it. These rating weaknesses are partially offset by the expected recovery in scale of operations in FY25, experience of partners for more than a decade in rice milling industry and location advantage.

# Rating sensitivities: Factors likely to lead to rating actions Positive factors

 Increase in scale of operations marked by total operating income to Rs. 140 crore on a sustained basis while maintaining PBILDT margin above 2.50%.

#### **Negative factors**

- Deterioration of capital structure marked by overall gearing ratio beyond 6.50x or ICR below 1.20x on sustained basis
- Withdrawal of capital by partners or repayment of unsecured loans and decrease in TOI below Rs. 75 Cr.

#### Analytical approach: Standalone

## Outlook: Stable

CARE ratings believe that SLVRI's business profile will continue to remain steady supported by long experience of partners in the business which will help them in addition of new clients.

## **Detailed description of key rating drivers:**

#### Key weaknesses

#### Weak financial risk profile

The total operating income (TOI) deteriorated sharply to Rs. 79.41 crore in FY24 (PY: Rs. 145.46 crore) though PBIDT remained similar at absolute terms at Rs. 3.46 crore. The margins remain thin and are also prone to volatility due to price fluctuations in procurement costs of raw materials. The overall gearing improved on account of fund infusion and stood at 2.09x as of Mar 31, 2024 (PYE: 5.67x).

#### Working capital intensive operations

Working capital limits sanctioned remain fully utilized indicating stretched liquidity position. Further, the operating cycle of the company has significantly elongated to 176 days as of Mar 31, 2024 (PYE: 60 days), led by an increase in average inventory days. As most sales are made in the last quarter, the firm increases its inventory level to cater the demand. There was an increase in unsold inventory due to significant drop in sales in FY24. As paddy in India is harvested mainly at the end of two major agricultural seasons Kharif (June to September) and Rabi (November to April) the millers must stock enough paddy by the end of each season. SLVRI's average collection period allowed to customers is 15-30 days and pays its vendors in 21 days.

# Seasonal nature of availability of paddy and margins susceptible to raw material price fluctuations

The major procurement of Paddy happens during the months of October to January and April to July. The firm's raw material being paddy, for proper harvest and availability of paddy, the weather conditions should be adequate. Adverse weather conditions directly affect the supply and availability of the paddy and raw material price fluctuations. The central Government of India (GOI), every year decides a minimum support price of paddy which limits the bargaining power of rice millers over the farmers. The sale of rice in the open market is also regulated by the government through levy quota and fixed prices. Due to the above said regulations along with the intense competition, the bargaining power of the rice millers against the suppliers of paddy and the customers is limited.

<sup>&</sup>lt;sup>1</sup>Complete definition of ratings assigned are available at <a href="https://www.careedge.in">www.careedge.in</a> and other CARE Ratings Limited's publications.

#### Highly fragmented and competitive nature of industry

The Indian rice mill industry is highly unorganized and fragmented in nature. Based on product type, the rice and paddy market can be segmented into variety of products and features a fragmented and competitive landscape owing to the presence of many small-scale companies. The market also features some large companies holding prominent positions, making the market intensely competitive.

#### Constitution of the entity as a partnership firm

SLVRI's constitution as a partnership concern with low net worth base restricts its overall financial flexibility in terms of limited access to external funds for any future expansion plans. At the same time, there is inherent risk of withdrawal of capital and dissolution of the firm in case of death/insolvency of partner.

# **Key strengths**

#### Expected recovery in scale of operations in FY25

Due to poor monsoons and low harvest, SLVRI was unable to supply the grains at competitive pricing to its largest buyer, resulting in a sharp decrease in revenue in FY24. Since then, the firm has been able to onboard new clients and increase sales to existing clients. SLVRI recorded sales of Rs. 85 crore in 10MFY25, surpassing last year's revenue. Healthy sales are expected in the last two months of the current financial year.

#### Experience of partners for more than a decade in rice milling industry

SLVRI was established in 2007, promoted by Mr. K. Satyanarayana and Mrs. K. Surya Kumari. Mr. K. Satyanarayana, the managing partner of the firm has experience of more than a decade in rice milling and processing industry. Through their vast experience in the rice milling business, the firm is able to establish healthy relationship with key suppliers, customers, local traders and dealers facilitating the rice business within the state. The firm has been reconstituted in 2024 after the demise of Mr. Satyanarayana, with Mr. Varun Komarina (S/O late Mr. Satyanarayana) taking his place.

#### Location advantage

The firm's processing facility is situated at Koppal, Karnataka which is one of the largest producers of paddy in India. Its presence in the region gives additional advantage over the competitors in terms of easy availability of the paddy as well as favourable pricing terms. SLVRI owing to its location is also able to cut on the freight component to certain extent of incoming raw materials.

#### **Liquidity**: Stretched

Liquidity is stretched, marked by fully utilised bank limits during last 12 months ending Dec 24. Operating cycle has elongated to 176 days as of Mar 31, 2024 (PYE: 60 days). To support its operations, the firm has availed unsecured loans from partners of Rs. 11 crore in FY24.

#### About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

#### Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
