Commercial Paper	1,500.00 (Reduced from 2,500.00)	CARE A1+	Reaffirmed

Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

The rating assigned to the market instruments of Nuvama Wealth and Investment Limited (NWIL) factors in the established presence of the Nuvama group in the wealth management business, strong and resourceful promoters i.e PAG, experienced management team and improving scalability while reducing cost to income ratio. The rating is however constrained by concentrated resource profile and volatility in the capital markets which exposes the group to the risks relating to sustenance of the income profile across market cycles. The rating also takes into account the exposure to the evolving regulatory landscape and attrition risk inherent in the wealth management business.

Rating sensitivities: Factors likely to lead to rating actions.

Positive factors

- Improvement in the profitability on a sustained basis with consolidated return on net worth (RoNW) of >20%.
- Sustained growth in asset under management (AUM) with the proportion of annual recurring revenue (ARR) >50%.

Negative factors

- Any material changes in the shareholding pattern
- Material and prolonged erosion in the AUM with high client attrition and employee attrition
- Regulatory action in wealth management segments resulting in change in the business profile.
- Overall gearing exceeding 3.5x on a consolidated basis.
- Venturing into unrelated businesses

Analytical approach: Standalone along with factoring in its linkage with the parent

Standalone along with factoring in its linkage with the parent i.e. NWML, owing to its strong operational and business linkages being a 100% subsidiary of NWML.

Outlook: Stable

CARE Ratings Limited (CARE Ratings) believes that NWIL will continue to demonstrate stable financial performance on account of its established presence in the wealth management business while maintaining comfortable capitalization and business synergies with the parent.

Detailed description of the key rating drivers:

Key strengths

Established market position in wealth management business.

NWML operates in four business segments namely Wealth Management (UHNI and Affluent/HNI), Asset Management, Asset Services and Capital Markets (Institutional Equities and Investment Banking). It is the second-largest independent wealth management player as reflected in the client assets which stood at ₹ 3,45,957 crore as on March 31, 2024 (₹ 4,52,047 crores as on December 31, 2024), with net new money of ₹ 13,453 crore (₹ 13,123 crores in 9MFY25) in wealth segment and ₹ 1,233 crore (₹ 4,165 crores in 9MFY25) in Asset Management segment. The asset management business being relatively at a nascent stage, has an AUM of ₹ 6,967 crore as on March 31, 2024 (₹ 11,267 crores as on December 31, 2024).

¹Complete definition of ratings assigned are available at www.careedge.in and other CARE Ratings Limited's publications.

NWML has a subsidiary, Nuvama Wealth Finance Limited (NWFL) which is a registered non-banking finance company (NBFC) that provides loans against securities, ESOP funding, to the clients of the wealth management business with a loan book of ₹ 3,061 crores as on March 31, 2024. NWML has approx 1,200+ relationship managers as on March 31, 2024 (1350+ as on December 31, 2024).

Furthermore, Nuvama Wealth and Investment Limited (NWIL) which is wholly owned subsidiary of NWML, which primarily provides wealth management solutions and also provides margin trade funding and ESOP Funding having a loan book of ₹ 1,802 crore as of March 2024.

Furthermore, Nuvama Clearing Services Limited (NCSL), wholly owned subsidiary of NWML, is a professional clearing member engaged in clearing business and settles trades of clients and further provides fund accounting services.

Strong and resourceful promoter

PAG is an Asia based alternative investment manager with US \$58 billion of assets under management in private equity, real assets, credits & markets. It has 8 offices in Asia with additional offices in London and New York. PAG is focussed primarily in three sectors in India viz financial sector, health sector and pharma sector. Thus, NWML (wealth management business) has been identified as a key focus area for the group's overall investment plan. PAG had invested ₹ 2,366 crore for majority stake in NWML, including primary and secondary investments. As on December 31, 2024, PAG holds 54.93% stake in Nuvama.

Association with PAG has benefitted Nuvama in terms of client acquisition in the wealth and asset management business and in raising the resources at competitive prices. PAG is expected to continue to support the group going forward.

Experienced management team

NWML's senior management team has significant experience and expertise in the wealth management business, which has helped them grow into second-largest independent player in the wealth management industry. Mr. Ashish Kehair, Managing Director and CEO has more than two decades of experience in areas of Private Banking, Wealth Management. Furthermore, the board of NWML comprises of 9 directors; of which, four are independent directors. Apart from the senior management, the team leaders and relationship managers have average experience of over five years.

Comfortable asset quality

NWFL, the lending arm and 100% subsidiary of NWML, operates as a lender for the wealth clients of the business. With key products such as loans against securities (LAS) and ESOP has a loan book of ₹ 3,061 crore as on March 31, 2024 (₹ 2,244 crore as on March 31, 2023), which contributes 14% to the overall consolidated profits of NWML for FY24. These loans are extended to the existing clients of the wealth management business. The reported asset quality indicators remain comfortable with gross and net NPA of 0%, collateral cover of around 3 times and zero credit losses since inception. Since the loan book is backed by financial assets, the books are susceptible to volatility in the capital markets.

Key weaknesses

Concentrated resource profile

The resource profile of NWML remains concentrated with the company's borrowings largely being from PP-MLDs (around 56% of the consolidated borrowings as on March 31, 2024), followed by considerable reliance on commercial papers (CPs) (21%). The other source of fund includes non-convertible debentures (6%), bank facilities (14%) and others (3%).

Furthermore, the company was able to raise borrowings at competitive rates during FY24 and the ability of the company to reduce its cost of funds will be a key monitorable. As of March 2024, the average cost of borrowings stood at 8.83% (PY: 8.51%).

Exposure to volatile capital markets, regulatory risk, and attrition risk

NWML's earnings are exposed to the volatility in the capital markets and lower net inflows could impact the revenue growth. The revenues are further susceptible to regulatory changes and any unanticipated change can adversely impact the business. Furthermore, the ability to retain key personnel is important in the wealth management business as change in relationship personnel may bring a change in relationship with the client impacting the client attrition.

Liquidity: Strong

The company has strong liquidity with no negative cumulative mismatch as per the asset liability maturity profile of the company as on March 31, 2024. NWML, on a consolidated basis, has strong liquidity cushion of ₹ 2,345 crore as of March 2024 including cash and cash equivalent of ₹ 1,491 crore and the unutilised lines of ₹ 214 crore.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
