

Ramky Estates And Farms Limited

April 09, 2025

Facilities/Instruments	Amount (₹ crore)	Rating ¹	Rating Action
Long-term bank facilities	225.00	CARE BBB; Stable	Reaffirmed

Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

Reaffirmation in long-term rating for bank facilities of Ramky Estates and Farms Limited (REFL) factors in sustained sales momentum, marked by stable growth in pre-sales and collections.

The rating continues to derive strength from the resourcefulness and experience of promoter, and availability of large land bank for future development.

However, the above strengths are partly offset by project execution and sales risk, expected deterioration in capital structure with debt to be availed for ongoing projects, moderate committed receivable coverage indicating high reliance on fresh sales for funding of the project, limited geographical presence, and inherent cyclicity risk due to presence in real estate sector.

CARE Ratings Limited (CARE Ratings) also considers the release of corporate guarantee (CG) given to Srinagar Banihal Expressway Limited (SBEL, Group company), however, the group exposure remains significant.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors

- Collection of above ₹1000 crore on sustained basis.
- Strong sales momentum resulting in inventory overhang of below 24 months.
- Decline in exposure towards the group company.

Negative factors

- Slower-than-envisaged sales momentum resulting in lower annual collection of ₹500 crore or below on a sustained basis.
- Significant increase in group exposure, leading to cash flow mismatches.

Analytical approach: CARE Ratings has considered the consolidated business and financial risk profiles of REFL and its nine subsidiaries and one step-down subsidiary, four associates, and one joint venture (JV), which are all engaged in the same business activity – real estate development, and thus, have management and financial linkages. The list of subsidiaries and step-down subsidiaries is provided in Annexure-6.

Outlook: Stable

The stable outlook reflects CARE Ratings' belief that REFL will continue to be benefited from experienced promoters with stable achievement of sales and collections in the ongoing and upcoming projects while maintaining comfortable capital structure

Detailed description of key rating drivers:

Key strengths

Experienced and resourceful promoters with ample land bank

REFL is part of the Ramky group, which has presence in diverse business segments including engineering, procurement, and construction (EPC), waste management, real estate, and life sciences. Incorporated in 1995, REFL has a track record of 30 years in executing projects across residential, commercial, retail, affordable housing, integrated townships, and plotting ventures.

Ayodhya Rami Reddy, chairman of the Ramky group, is a civil engineer and currently a member of parliament. He manages the group's strategic decisions and has business experience of over two decades. Nanda Kishore, REFL's managing director, is a graduate of the Indian Institute of Management (IIM) and has over 25 years of experience in reputable organisations. He is supported by professionals with vast experience in the real estate sector. Alla Sharan Reddy, son Ayodhya Rami Reddy, and a post-graduate in construction management, is also involved in the business. The promoters and the professional management

¹Complete definition of ratings assigned are available at www.careedge.in and other CARE Ratings Limited's publications.

team are expected to drive the business growth. As on February 28, 2025, the company and its subsidiaries have completed over 31 projects with a saleable area of 10.77 msf across Hyderabad, Bengaluru, Chennai, and Warangal.

Comfortable leverage position with strong net worth base

Due to lower reliance on external debt and promoters' infusion of ₹1,522 crore in form of equity for the expansion and growth of the company resulting to comfortable capital structure marked by overall gearing of 0.10x as on March 31, 2024 (0.04x as on March 31, 2023). Increase in overall gearing was considering increase in total debt to ₹192 crore as on March 31, 2024, against ₹75 crore debt as on March 31, 2023. Debt/collection (D/C) ratio remains comfortable at 0.11x as on March 31, 2024. D/C ratio is expected to deteriorate considering anticipated debt for ongoing project, however, this is expected to remain comfortable below 0.50x for the near term.

Satisfactory sales velocity and collection, despite higher levels of inventory holding

The sales velocity remained stable and satisfactory to ₹ 1,053 crore in FY24 (FY23: ₹1,068 crore) while maintaining healthy collections at ₹ 917 crore for FY24 against ₹ 777 crore for FY23 due to the favourable demand for its projects in Hyderabad. However, due to the launch of new projects, the inventory overhang remains over three years due to large unsold inventory of 2743 units (44%) of 6274 available units for sale

Key weaknesses

Exposure to group entities

REFL has significant exposure to its group companies through loans and advances, and corporate guarantees extended to them. As on March 31, 2024, the total exposure stood at ~₹914 crore (including ₹445 crore of CG). Although this represents a reduction from ₹2,312 crore (including ₹1,050 crore of CG) as on March 31, 2023, the exposure remains high. Significant increase in exposure to group companies will be a key rating monitorable.

Execution and sales risk

As on February 28, 2025, REFL is executing 14 projects with a total estimated cost of ~₹5,778 crore, of which it has incurred ₹2,638 crore—equivalent to 46% of the total estimated cost, up from 26% as on September 30, 2023. As on February 28, 2025, REFL has launched ~10.84 lakh square feet (including completed projects), with only 46% area sold. The intermediate stage of construction and moderate sales momentum exposes the company to project execution and sales risks.

High reliance on customer advances

REFL has committed receivables of ₹817 crore as on February 28, 2025, which only covers 25% balance project cost of ₹3,419 crore and outstanding debt of close to ₹330 crore. This indicates high reliance on fresh sales for funding of the project. Hence, the company's ability to implement the project within the envisaged timelines and cost, achieving sales per the plan, is critical from the credit perspective.

Exposed to geographical concentration risk

The group is exposed to geographical concentration risk, as the ongoing development is largely limited to the Hyderabad market. The group's attempts to foray in newer geographies in Bengaluru and Vizag. However, downturn in Hyderabad market may impact the developer's revenues, going forward.

Inherent cyclical nature of real estate sector

The company is exposed to the cyclicity associated with the real estate sector, which has direct linkages with the general macroeconomic scenario, interest rates, and the level of disposable income available with individuals. In case of real estate companies, profitability highly depends on property markets. A high-interest rate scenario can further discourage consumers from borrowing to finance real estate purchases and may depress the real estate market.

Liquidity: Adequate

Adequate liquidity marked by moderate committed receivable ratio of 25% as on February 28, 2025. The total unencumbered cash balance at the group level is at ~₹9 crore as on September 30, 2024, and sufficient customer advance to meet FY25 debt obligation. For FY26, the debt repayment is close to ₹30 crore against which the company is expecting the collection of ₹1,300-1,500 crore. Due to comfortable capital structure with overall gearing at 0.10x as on March 31, 2024, leaving headroom to raise for additional capex.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
