Rationale and key rating drivers

The ratings for Housing and Urban Development Corporation Limited (HUDCO) continue to factor in its status as a strategically important entity to the Government of India (GoI) for implementation of various government policies in social housing and urban infrastructure-related sectors and its strong parentage with GoI as a majority shareholder (75.0% stake as on December 31, 2024). The ratings also derive comfort from its portfolio quality as majority of the same is backed by central or state government guarantees out of their budgetary provisions, notwithstanding the relatively weaker financial profiles of some of these states. So far, HUDCO's asset quality metrics have remained adequate with improving trajectory over the past few years with net non-performing assets (NNPA) of 0.3% as on December 31, 2024, as against 0.4% as on March 31, 2024 (0.5% as on March 31, 2023). Further, the company has a diversified resource profile, healthy capitalisation levels with relatively low, albeit increasing, gearing and adequate liquidity profile.

CARE Ratings Limited (CARE Ratings) notes that post the transition from a non-banking finance company - housing finance company (NBFC-HFC) to non-banking finance company - infrastructure finance company (NBFC-IFC) in August 2024, HUDCO's disbursements towards infrastructure financing have increased and hence, its assets under management (AUM) have grown to Rs. 1,18,931 crore as on December 31, 2024, registering a ~41% year-on-year (YoY) growth. Furthermore, HUDCO's profitability has improved in the recent past, with a return on average total assets (RoTA) of 2.4% (annualized, provisional) in 9M FY2025, supported by low credit cost and operating expenses.

¹Complete definition of the ratings assigned are available at www.careedge.in and other CARE Ratings Ltd.'s publications

The credit profile of HUDCO is, however, constrained by its concentrated loan book as its top 20 exposures accounted for 81.0% of its total loan book and 451.2% of its tangible net worth as on March 31, 2024. Any chunky exposure slippage could increase its gross NPA materially, thereby impacting its credit cost and profitability. During 9M FY2025, HUDCO's stage 2 exposure has increased by ~Rs. 6,385 crore on account of slippage of one such exposure and its performance shall remain a key monitorable.

Simultaneously, CARE Ratings has withdrawn the outstanding ratings of 'CARE AAA; Stable [Triple A; Outlook: Stable] assigned to the Non-Convertible Debenture bearing ISIN INE031A08814 and Fixed Deposits, respectively, with immediate effect. The above action has been taken at the request of the company and 'No Due Certificate' received from the debenture trustee and confirmation received from the company that the ratings have not been utilized for issuance of fixed deposits.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors- Factors that could, individually or collectively, lead to positive rating action/upgrade:

Not applicable

Negative factors- Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Material changes in the shareholding pattern and/or reduction in strategic importance to GoI.
- Significantly deteriorating asset quality profile.

Analytical approach: Standalone; factoring in strategic importance to and majority shareholding by GoI.

Outlook: Stable

CARE Ratings Limited (CARE Ratings) expects that HUDCO will continue to be strategically important to the GoI and will continue to maintain its healthy profitability, capitalization and asset quality.

Detailed description of the key rating drivers:

Key strengths

Strategic importance and majority shareholding by the GoI

HUDCO is majority owned by the GoI (with 75.0% stake as on December 31, 2024). It is a strategically important entity for GoI and has played a significant role in the implementation of its various initiatives in urban infrastructure and social housing projects. HUDCO is the central nodal agency (CNA) for government scheme of 'Housing For All' and is actively involved in action plan schemes like Jal Jeevan Mission (JJM), Atal Mission for Rejuvenation Urban Transformation (AMRUT), Pradhan Mantri Awas Yojna etc. With substantial investment expected under National Infrastructure Pipeline (NIP), HUDCO is expected to actively participate in meeting the said requirements. HUDCO lends under these schemes and provides consultancy services for appraisal of projects sanctioned under schemes.

Being majority owned by the GoI, HUDCO receives support in terms of (i) board representation with two government nominee directors (besides two independent directors and three functional directors, including Chairman and Managing Director), (ii) business growth, (iii) access to low-cost funds and foreign currency lines from multilateral institutions, among others and refinance assistance from National Housing Bank (NHB)/ India Infrastructure Finance Company Ltd (IIFCL). CARE Ratings expects HUDCO to remain a strategically important entity for the GoI.

Healthy AUM growth with majority towards government sector

HUDCO, being incorporated in 1970, has completed over five decades of operation reaching to an AUM of ₹92,654 crore as on March 31, 2024 (+14% y-o-y). With pick up in disbursements in urban infrastructure financing segment in 9M FY25, its AUM reached Rs. 1,18,931 crore as on December 31, 2024, growing by ~41% y-o-y. With this, share of infrastructure financing has increased to 66% as on December 31, 2024. Since it has received the certificate of registration as an NBFC-IFC from RBI in August 2024, HUDCO has requested for extension till March 31, 2026 to achieve the threshold of 75% of the AUM as urban infrastructure.

HUDCO has majorly lent to the government sector forming 98.30% of loan book as on December 31, 2024, as it had ceased its lending towards private sector since 2013. Of gross loans as on March 31, 2024, 92% has been secured by government guarantee leading to lower credit risk. The company faces regional concentration particularly in Delhi, Andhra Pradesh, Rajasthan,

Maharashtra and Telangana; however, in this regard with the revision in RBI circular, exposures covered by state/Central guarantees will not be subject to concentration norms.

Diversified resource profile

HUDCO has a diversified funding profile with funds raised through bonds (tax-free and taxable), bank loans, commercial paper, refinance lines from NHB/IIFCL, public deposits and others. As on March 31, 2024, out of the total borrowing of ₹74,032 crore (+18% y-o-y), taxable bonds constituted 40% (including ₹20,000 crore of GoI fully serviced bonds), tax-free bonds formed 17%, bank loans formed 41% followed by NHB/IIFCL refinance with 1%. HUDCO has stopped accepting fresh public deposits from July 01, 2019; however, redemption for the already taken deposits are being made on respective due dates.

As on December 31, 2024, borrowings slightly increased to ₹1,00,807 crore, constituting taxable bonds including GoI fully serviced bonds (37%), followed by bank loans (42%), tax-free bonds (12%), and remaining through NHB/IIFCL refinance and foreign currency borrowing. Further, the average cost of funds has remained largely stable and stood at 7.34% as on December 31, 2024. However, the incremental cost of funds have improved and stands at 6.80% as on December 31, 2024.

Healthy capitalisation profile

HUDCO's capitalisation profile is comfortable as reflected in the capital adequacy ratio (CAR) of 57.7% as on March 31, 2024, down from 73.3% as on March 31, 2023, and well above the regulatory minimum requirement. HUDCO's CAR is supported by 20% risk weight for state government guaranteed projects. As on December 31, 2024, the CAR moderated to 48.3%. As on March 31, 2024, gearing levels stood at 4.5x, up from 4.1x as on March 31, 2023, and further increased to 5.6x as on December 31, 2024 due to increase in borrowings. CARE Ratings expects the capitalisation profile to remain comfortable, in line with the risk profile of its lending book.

Adequate earning profile

HUDCO reported a net profit of Rs. 1,981 crore during 9M FY2025, translating into RoTA of 2.4% and RoNW of 15.3% (annualized), as against Rs. 2,117 crore, 2.4% and 13.2% respectively, in FY2024. While there was a slight increase in its gearing, an improvement in lending spread along with reduction in opex and credit cost helped it maintain a stable earnings profile. Its credit cost remained negative on account of reversal of provision as it was able to make recoveries from some stressed exposures. Its ability to maintain/ control its credit cost will be key for its earnings profile.

Key weaknesses

Concentrated loan book, asset quality remains monitorable

CARE Ratings notes that the asset quality of HUDCO has improved, with GNPA% and NNPA% to 1.9% and 0.3%, respectively, as on December 31, 2024 from 2.7% and 0.4% respectively, as on March 31, 2024, and 3.4% and 0.5% respectively, as on March 31, 2023. Further, the management is carrying an adequate provision on GNPA of 85.6% as on December 31, 2024, which limits the incremental credit cost from NPA book. However, its credit profile is constrained by its concentrated loan book as its top 20 exposures account for 81.0% of its total loan book and 451.2% of its tangible net worth as on March 31, 2024. Any chunky exposure slippage could increase its gross NPA materially, thereby impacting its credit cost and profitability. However, the risk is mitigated to some extent given a major part of its loan book is backed by government guarantee. During 9M FY2025, HUDCO's stage 2 exposure has increased by Rs. 6,385 crore on account of slippage of one such exposure and its performance shall remain a key monitorable.

Liquidity: Adequate

The liquidity profile of HUDCO is adequate. Though there are negative mismatches in the Asset Liability Management statement as on December 31, 2024, CARE Ratings draws comfort from HUDCO's quasi sovereign status, strategic importance in developing housing finance sector and established track record to raise funds at competitive rates. Also, it has sanctioned undrawn bank lines in the form cash credit, working capital demand loans and short-term loans amounting to ₹9,524 crore as on March 29, 2025, which if accounted for, results in positive cumulative mismatches for all buckets. With GoI support, HUDCO has strong financial flexibility and can access additional funds from banks and the capital market, if the need arises.

Environment, social, and governance (ESG) risks

Given that HUDCO is engaged in the lending business, exposure of any of its assets to environmental risks poses related credit risks for HUDCO. The company ensures that projects funded by it meets required parameters towards environmental protection, for which necessary stipulations have been incorporated at the appraisal stage. HUDCO provides consultancy services in the area(s) of Environmental Engineering Projects pertaining to the housing and urban development sector. As a part of environmental engineering consultancy, HUDCO Bangalore Regional Office has undertaken Architectural and Engineering consultancy assignment

with 3 STAR green building rating of Phase – III quarters for HAL staff consisting of 584 multi-storied residential apartments in different locations of HAL's campus area. Since HUDCO's lending is project specific, its direct exposure to social risks remains limited.

About the company and industry

Industry classification

Macro-economic Indicator	Sector	Industry	Basic Industry
Financial services	Financial services	Finance	Non Banking Financial Company (NBFC)

HUDCO was previously incorporated as Housing and Urban Development Finance Corporation Private Limited on April 25, 1970, as a private limited company under the Companies Act, 1956. Subsequently, the name was changed to HUDCO and a fresh certificate of incorporation was issued on July 9, 1974. On December 9, 1996, HUDCO was notified as a public financial institution by Department of Company Affairs, Ministry of Finance. It is mandated to provide long-term finance for social housing and core urban infrastructure development in the country. It is a central public sector undertaking and a public financial institution within the ambit of Clause (72) of section 2 of the Companies Act, 2013. HUDCO is also a housing finance company registered with NHB.

On April 18, 2024, HUDCO was conferred with Navratna status by the Government of India. It was earlier classified as a housing finance company (HFC) and received the certificate of registration as a Non-Banking Financial Company – Infrastructure Finance Company (NBFC-IFC) from the Reserve Bank of India (RBI) on August 29, 2024, allowing it to finance various infrastructure sectors in addition to housing. Consequently, the company's exposure limits are increased for financing to various infrastructure sectors.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
