Rationale and key rating drivers

CARE Ratings Ltd. had, vide its press release dated May 06, 2024, placed the rating(s) of RCN Impex Private Limited (RIPL) under the 'issuer non-cooperating' category as RIPL had failed to provide information for monitoring of the rating as agreed to in its Rating Agreement. RIPL continues to be non-cooperative despite repeated requests for submission of information through e-mails dated March 22, 2025, April 01, 2025, April 11, 2025 among others.

In line with the extant SEBI guidelines, CARE Ratings Ltd. has reviewed the rating on the basis of the best available information which however, in CARE Ratings Ltd.'s opinion is not sufficient to arrive at a fair rating.

Users of this rating (including investors, lenders and the public at large) are hence requested to exercise caution while using the above rating(s).

About the company

RCN Impex Private Limited (RIPL) was incorporated on January 5, 2012 by Mr. A. Arunraj. RIPL is primarily engaged in the business of processing cashew kernels through its processing units at Panruti (Cuddalore district, Tamil Nadu) Kollam (Kerala) aggregating to 15,000 metric tonnes per annum as on June 27, 2017. The units at Kollam are ISO 9001:2008, ISO 22000:2005 & HACCP (Hazard Analysis & Critical Control Points) certified. Cashew processing is a seasonal business since the raw nut availability is seasonal. Countries which are north of the equator, including India, Vietnam, and producers in West Africa, harvest in the first part of the calendar year up to end of May. Countries which are south of the equator including producing in East Africa harvest from October to January. RIPL procures the raw cashew nut domestically as well through imports owing to better quality and relatively lower prices as compared to the domestic market. Imports are from the countries such as Dubai, Africa, etc. The suppliers are paid immediately, both in the domestic as well as imports market. Domestic procurement is from the traders who in turn import the raw materials and majority of the raw material is procured in and around Kollam which is hub of cashew processing.
