*Secured Long-Term Borrowings

Rationale and key rating drivers

Ratings for bank facilities and market instruments of Indian Railway Finance Corporation Limited (IRFC) continue to factor in majority ownership by Government of India (GoI) and IRFC's strategic role as a dedicated financing arm of the Indian Railways (IR), responsible for arranging funds for meeting planned capital outlay of IR. The company's principal business is to borrow funds from commercial markets to finance acquisition of new rolling stock and construction of developmental projects or infrastructure for IR. However, CARE Ratings Limited (CareEdge Ratings) notes that IRFC has not made material disbursements in the last two fiscals (FY2024 and FY2025). The government allocated no extra budgetary resources for IR in its budget for FY25-26. IRFC plans to diversify its loan book by funding entities, which have forward or backward linkage with IR, and is in the process of establishing systems and processes for it.

Ratings also factor in IRFC's strong asset quality with history of nil non-performing assets (NPAs), comfortable capitalisation profile, and adequate liquidity position. CareEdge Ratings also draws comfort from demonstrated government support as evident from favourable lease agreements that protect IRFC against exchange rate volatility, interest rate fluctuations, and liquidity risk by way of transfer of risks to Ministry of Railways (MoR). However, its profitability remains moderate, because of pre-agreed spread for the lending activity and the company remains exposed to credit concentration risks, which are largely mitigated by strong counterparty in the form of IR.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors: Not applicable

¹Complete definition of ratings assigned are available at www.careratings.com and other CARE Ratings Limited's publications.

Negative factors

- Material changes in government support and / or strategic role played by IRFC in supporting IR or reduction in GoI's shareholding below 51%.
- Significant deterioration in IRFC's standalone credit profile, including its profitability and asset quality profile.

Analytical approach:

Standalone, factoring in majority ownership by GoI and IRFC's role as the dedicated financing arm for supporting expansion of IR.

Outlook: Stable

Stable outlook reflects CareEdge Ratings' expectations that the company will continue to receive timely support from GoI through favourable lease agreement, owing to its strategic role as a dedicated funding arm of IR.

Detailed description of key rating drivers:

Key strengths

Sovereign ownership; apex body for financing requirements of IR

Majority owned by GoI, IRFC is a Schedule 'A' Public Sector Enterprise under the administrative control of MoR. In line with the divestment objective of GoI, IRFC commenced its initial public offering (IPO) in January 2021 and raised equity of ₹4,633.38 crore, which included fresh equity raise of ₹3,088.92 crore and offer for sale of shares by GoI amounting to ₹1,544.46 crore. Through IPO, GoI divested 5% of its shareholding, resulting in decrease of overall shareholding of GoI to 86.36% as on June 30, 2021, from 100% till December 31, 2020, and continues to be so as on March 31, 2025.

The favourable lease agreement with MoR protects IRFC against exchange rate volatility, interest rate fluctuations, and liquidity risk. Of the five board of directors, two are nominees from GoI and one is independent director. IRFC has been accorded a status of "Navratna" by GoI underpinning importance of the venture to GoI. CareEdge Ratings believes that given the position of IRFC as a dedicated financing arm of IR, IRFC will continue to be strategically important for IR. With majority government ownership, CareEdge Ratings expects timely support from GoI to be forthcoming and will continue to monitor material change in ownership of GoI and / or its support to IRFC.

Strategic role in providing financial assistance to meet planned outlay of IR

IRFC is an arranger of finance for MoR and raises money from the market to part-finance the planned capital outlay of IR. The MoR is responsible for acquiring rolling stock and project assets, improvement, expansion, and maintenance of railway infrastructure, while IRFC is responsible for mobilising resources necessary for acquiring rolling stock/project assets ordered by the MoR. Resources raised are used towards part-funding for creation of assets (through lease financing) for IR. At the beginning of each fiscal year, the MoR notifies IRFC of its financing requirements that are to be met through market borrowings. At the end of each year, a finance lease agreement is drawn in relation to the rolling stock acquired by the MoR from IRFC funds in the previous year. The lease is for 30 years comprising primary lease period of 15 years followed by a secondary lease period of another 15 years. Lease rentals comprise IRFC's capital recovery, cost plus a net interest margin (NIM), which are covered under the primary lease period. In the last few years, IRFC has provided funding for railway infrastructure asset projects, such as electrification, and doubling of railway line, among others. The company's resources have been used for acquiring rolling stock assets, financing railway infrastructure assets, and meeting other developmental needs of IR. Considering its proven track record to raise funds at competitive rate and its ownership, CareEdge Ratings expects IRFC to continue to remain strategically important for GoI.

As on March 31, 2025, 62% (increased from 56% as on March 31, 2024) of assets under management (AUM) were towards lease receivables from MoR, 37% (43%) were advances against lease of railway infrastructure assets and the remaining 1% (1%) as loans provided to Railway PSUs and other entities having integration with railways. CareEdge Ratings notes that IRFC under its plan to diversify its loan book has sanctioned loans to non-IR entities like NTPC Renewable Energy Limited (NREL). IRFC will continue to provide funding to entities having forward or backward linkage with IR or to infrastructure projects, preferably to strong assets while continuing to maintain its nil NPA status and the company is in the process of establishing systems and processes for it.

Strong asset quality considering majority exposure to MoR and MoR-owned entities

As a non-banking finance company (NBFC), with majority ownership by GoI, IRFC does not have to comply with Reserve Bank of India's (RBI's) regulatory requirements on asset classification, liquidity coverage ratio, provisioning, and prudential exposure norms to the extent of its exposure to MoR, which restricts an NBFC's maximum exposure to a sector or an entity. The recovery risk is mitigated considering the entire exposure of IRFC to MoR / MoR-owned entities, which are controlled by GoI. As a result, IRFC continues to have strong asset quality with a history of nil NPAs. While CareEdge Ratings expects the asset quality to remain strong in the near-to-medium term, diversification in lending to railway-related entities and associated asset quality shall remain a key monitorable.

Healthy capitalisation profile, despite with a high gearing

IRFC's capitalisation profile remains strong (as zero-percent risk weight is assigned to MoR's exposure) with overall capital adequacy ratio (CAR) at 672.85% as on March 31, 2025 (614.47% as on March 31, 2024). The capitalisation metrics are also supported by tangible net worth (TNW) of ₹52,663 crore as on March 31, 2025, up from ₹49,174 crore as on March 31, 2024, considering sequential positive internal accruals. Although gearing level is high at 7.8x as on March 31, 2025 (8.4x as on March 31, 2024), the overall credit risk remains low due to low counterparty related risks. On completion of moratorium period of five years for project assets, their lease agreements are signed, which results in an increase in lease rental, leading to increase in cash flows in addition to internal accruals. Considering muted disbursements in the recent past and healthy internal accruals, CareEdge Ratings expects the gearing to improve further going forward.

Diversified borrowings profile

IRFC's total borrowings remained largely unchanged at ₹412,129 crore as on March 31, 2025, against ₹412,032 crore as on March 31, 2024, given that the incremental disbursement was subdued at ₹732 crore for FY25. Borrowings were availed from lender categories, such as banks, other financial institutions, and foreign institutional investors. As on March 31, 2025, borrowings from domestic bonds market (including 54EC bonds) formed 54.64% of the total borrowings, followed by rupee term loan from banks forming another 23.21%, ~16.07% in the form of foreign / external commercial borrowings (ECBs), 4.25% through National Small Saving Fund (NSSF), and the remaining 1.84% in the form of short-term loans.

Going forward, CareEdge Ratings expects IRFC's borrowing mix to remain diversified.

Key weaknesses

Moderate, but stable, profitability metrics

IRFC operates on a cost-plus-based model, and per the lease agreement with MoR, lease rentals are calculated as equal to half-yearly payments to be made by the MoR based on weighted average cost of incremental borrowing in the relevant year together with a reasonable markup mutually agreed between the MoR and IRFC. IRFC has moderate financial profile marked by modest revenue growth, controlled borrowing costs, marginal credit costs, and overall profitability protected under lease agreement with MoR.

With subdued disbursements in the last two financials years, total income increased y-o-y by 2% in FY25. The NIM (including lease income) continued to remain at moderate levels of 1.37% for FY25 (1.34% in FY24), given IRFC's cost-plus-based model. The operating expenses / average total asset remained low at 0.03% in FY25 due to its wholesale lending model, while credit costs remained negligible with nil NPA and IRFC being exempted from providing standard provisions against its exposure to IR. Accordingly, return on total assets (ROTA) remained same at 1.3% for FY25 and FY24. However, the return on TNW declined to 12.3% for FY25 from 13.0% for FY24, due to a rise in net worth supported by internal accruals. CareEdge Ratings expects profitability to be at similar level in the near-to-medium term.

High credit concentration

IRFC's loan book is highly concentrated as the entire exposure is to MoR or MoR-related entities. As on March 31, 2025, 62% loans and advances were towards lease receivables from MoR, 37% were advances against lease of railway infrastructure assets, and remaining 1% as loans provided to RVNL and NTPC. The development of IRFC's business depends on MoR's strategy concerning the growth of IR. However, IRFC is exempted from RBI's credit concentration norms. IRFC is strategising to diversify its asset base through lending to entities having integration with railways. CareEdge Ratings expects the share of loans to non MoR entities to marginally increase in the medium term.

Liquidity: Strong

Per the asset liability maturity (ALM) statement dated March 31, 2025, IRFC's liquidity profile is adequate, however, there are negative cumulative mismatches in 1- 3-year bucket. IRFC's liquidity profile remains comfortable considering GoI ownership and support from GoI in the form of regular equity infusions and favourable lease agreement, where IRFC can get advance lease rentals from MoR, if need arises. Due to IRFC's status as a government company, it is exempted from RBI's guidelines regarding applicability of liquidity coverage ratio for NBFCs.

Assumptions/Covenants: Not applicable

Environment, social, and governance (ESG) risks:

Given that IRFC is engaged in lending primarily to MoR, its ESG risks are directly linked to that of MoR. While MoR has high carbon footprint owing to its presence in business of transportation, it has committed to become carbon neutral by 2030 primarily through sourcing its energy requirements from renewable sources. It is taking initiatives for effective water and waste management to reduce negative impact on environment. MoR scores favourably on social risk, given its importance as one of the key modes of transportation in the country. Owing to high involvement of GoI in appointment of board of directors and management, the governance risk remains moderate.

About the company and industry**Industry classification**

Macroeconomic indicator	Sector	Industry	Basic industry
Financial services	Financial services	Finance	Non-banking financial company (NBFC)

IRFC is a GoI undertaking under the purview of MoR and a financing arm of MoR. It is also registered as systemically-important non-deposit-taking non-banking financial company (NBFC – ND-SI) and Infrastructure Finance Company (NBFC- IFC) with the RBI. The company is a notified Public Financial Institution (PFI) under the Companies Act. IRFC's principal business is to borrow funds from financial markets to finance the acquisition / creation of project assets, which are then leased out to IR. The funds are utilised for acquiring rolling stock assets and building up infrastructure, constituting significant part of annual capital expenditure of IR. The company has also been assigned the task of funding Railway Projects through Institutional Finance (EBR-IF) route. A significant portion of IRFC's revenue is generated from the leasing of rolling-stock assets, comprising locomotives, passenger coaches and freight wagons, to the IR.

IRFC operates on a cost-plus-based model, and per the agreement, lease rentals are calculated as equal to half-yearly payments to be made by the MoR based on weighted average cost of incremental borrowing in the relevant year together with a reasonable markup mutually agreed between the MoR and IRFC. While economic ownership of assets vests with MoR, IRFC retains legal title of the asset. MoR pays lease rentals to IRFC, which are sufficient to meet IRFC's debt obligations. Apart from leasing assets to IR, IRFC under the directives of MoR, also extends loans to other entities of MoR, such as RVNL among others. Responsibility of debt servicing lies with MoR as debt servicing is done from revenues generated by MoR from these projects.

About us:

Established in 1993, CareEdge Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the Reserve Bank of India. With an equitable position in the Indian capital market, CareEdge Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CareEdge Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CareEdge Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit. Disclaimer:

This disclaimer pertains to the ratings issued and content published by CARE Ratings Limited ("CareEdge Ratings"). Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. Any opinions expressed herein are in good faith and are subject to change without notice. The rating reflects the opinions as on the date of the rating. A rating does not convey suitability or price for the investor. The rating agency does not conduct an audit on the rated entity or an independent verification of any information it receives and/or relies on for the rating exercise. CareEdge Ratings has based its ratings/outlook on the information obtained from reliable and credible sources. CareEdge Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. The users of the rating should rely on their own judgment and may take professional advice while using the rating in any way. CareEdge Ratings shall not be liable for any losses that user may incur or any financial liability whatsoever to the user of the rating. The use or access of the rating does not create a client relationship between CareEdge Ratings and the user.

CAREEDGE RATINGS DISCLAIMS WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, TO THE EXTENT PERMITTED BY APPLICABLE LAWS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE.

Most entities whose bank facilities/instruments are rated by CareEdge Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CareEdge Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. CareEdge Ratings does not act as a fiduciary by providing the rating. The ratings are intended for use only within the jurisdiction of India. The ratings of CareEdge Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades. CareEdge Ratings has established policies and procedures as required under applicable laws and regulations which are available on its website.
