Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) has reaffirmed Small Industries Development Bank of India (SIDBI's) ratings at 'CARE AAA; Stable / CARE A1+'. Ratings continue to factor SIDBI's role as the apex financial institution (FI) for promotion and development of the micro, small and medium enterprises (MSME) sector in India, healthy capitalisation levels, stable profitability metrics, strong resource profile, sound asset quality, and comfortable liquidity. Ratings also factor in Government of India's (GoI) and Reserve Bank of India's (RBI) support through budgetary allocations, continued access to the MSE Refinance Fund, equity contributions, past guarantees for foreign currency borrowings, and governance. CareEdge Ratings also takes into consideration concentrated lending profile of SIDBI. Top 10 exposures represented 57.48% of total exposure as of March 31, 2025.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors: Factors that could individually or collectively lead to positive rating action/upgrade:

- Not applicable

Negative factors: Factors that could individually or collectively lead to negative rating action/downgrade:

- Any material changes in the government support and/or strategic role played by SIDBI in supporting the MSME sector.
- Significant dilution in the ownership by GOI and public sector entities.
- Deterioration in SIDBI's asset quality with gross non-performing asset (GNPA) ratio increasing to more than 3% of the total advances.
- Deterioration in SIDBI's standalone credit profile, including its profitability, liquidity and/or capitalisation metrics.

Analytical approach: Standalone

CareEdge Ratings has adopted standalone approach for analysing SIDBI, factoring in expected support from GoI. Funding requirements of subsidiaries have also been taken into consideration.

Outlook: Stable

Stable outlook factors in the continued support from the GOI, and that SIDBI will maintain healthy capitalisation, asset quality, and resource profile going forward.

Detailed description of key rating drivers:

Key strengths

¹Complete definition of ratings assigned are available at www.careratings.com and other CARE Ratings Limited's publications.

Strategic role in MSME development backed by GOI

Established in 1990 under an Act of Parliament, SIDBI serves as the apex financial institution for the promotion, financing, and development of the MSME sector in India. Designated as the nodal agency for MSME development, SIDBI benefits from sustained support from the GoI and RBI through budgetary allocations and access to the MSE Refinance Fund. Its major shareholders include the GoI (20.85%), State Bank of India (15.65%), Life Insurance Corporation of India (13.33%), and NABARD (9.36%), with the remaining stake held by public sector banks. SIDBI plays a pivotal role in MSME financing through direct and indirect lending, refinancing to banks and non-banking financial companies (NBFCs), and implementation of key schemes such as SMILE, CGTMSE, MUDRA, and TReDS. It also facilitates digital financial inclusion via platforms such as Udyamimitra and the GST Sahay app. With government-nominated directors on its board, SIDBI is expected to continue receiving strong capital and strategic support to enhance formal credit access for MSMEs.

Healthy capitalisation levels

SIDBI's capitalisation remains robust, with standalone tangible net worth increasing to ₹33,999 crore as of March 31, 2025, from ₹30,040 crore a year earlier. Under the revised Basel III norms effective April 2024, SIDBI comfortably surpasses the minimum regulatory thresholds for Capital Adequacy Ratio (CAR), Tier 1, and Common Equity Tier 1 (CET1)—reporting 19.62%, 18.58%, and 18.58%, respectively, against the norms of 9%, 7%, and 5.5%. Following regulatory changes, SIDBI is no longer subject to RBI-sanctioned borrowing limits (previously capped at 18x of net owned funds) and is now permitted a leverage ratio of up to 24x of Tier 1 capital. As of March 31, 2025, SIDBI's overall leverage, including deposits, stood at 15.08x (down from 15.88x in FY24). A proposed capital infusion of ₹5,000 crore (earlier 10,000 crore) by the Government of India is expected to further enhance its capital strength.

SIDBI's wholly owned subsidiaries are adequately capitalised and there is no anticipated requirement for capital support from the parent company in the near-to-medium term.

Strong resource profile

SIDBI's resource profile remains strong, supported primarily by domestic borrowings, low-cost MSE Refinance Funds, and a marginal share of overseas borrowings. As of March 2025, domestic borrowings constituted 61.63% of total resources (56.06% as of March 2024), MSE Refinance Funds accounted for 34.41% (39.65% as of March 2024), and overseas borrowings formed 0.23% (0.66% as of March 2024). In FY25, SIDBI was allocated ₹62,000 crore under the MSE Refinance Fund, of which ₹50,040 crore was received in the year, with the remaining received in Q1FY26. A similar level of priority sector lending (PSL) deposit allocation is anticipated in FY26. While MSE Fund allocation may decline as banks meet PSL targets, SIDBI is expected to maintain access to competitive funding, leveraging its apex FI status. A declining interest rate environment is expected to further reduce its overall cost of funds.

Stable profitability metrics

SIDBI's profitability, particularly its return on assets (RoA), continues to be moderated by regulatory caps on lending margins within the MSE refinance segment and its significant dependence on low-cost MSE funds. Spreads on refinancing through external borrowings also low (below 100 bps). In FY25, total advances grew by ~8.83% to ₹4.96 lakh crore, primarily driven by an increased share of higher-cost market borrowings replacing concessional MSE refinance funds. This shift resulted in a rise in lending and borrowing rates. Total income registered a 20.57% growth, supported by improved interest income, with yields rising to 7.03% (FY24: 6.86%). However, cost of funds also increased to 5.73% (FY24: 5.43%), leading to a narrowing of net interest spreads to 1.30% from 1.43% in the previous year. A marginal increase in credit costs (0.43% against 0.41%) further weighed on profitability, although this was partly offset by a reduction in operating expenses, which declined to 0.26%. Consequently, RoA saw a marginal uptick to 0.89% in FY25, compared to 0.87% in FY24. Spreads are likely to remain rangebound leading with opex and credit cost driving profitability metrics.

Strong asset quality metrics

SIDBI's asset quality, as measured by the gross non-performing assets (GNPA) ratio, marginally increased to 0.04% as of March 31, 2025, from 0.02% as on March 31, 2024. In absolute terms, GNPA remains comfortable at ₹183 crore, which is fully provided for, against a loan portfolio of ₹4,96,282 crore as of March 31, 2025. Majority non-performing assets arise from direct lending segment, which constitutes ~8% of the total loan book. Asset quality in the direct lending portfolio is comparatively weaker than in the refinance portfolio; however, its impact on overall asset quality metrics remains negligible.

CareEdge Ratings anticipates SIDBI's asset quality to remain robust given its predominant exposure to indirect finance—mainly banks and high-rated NBFCs—while direct financing exposure continues to be marginal.

Key weaknesses

Concentrated lending portfolio

As of March 31, 2025, indirect financing constituted 91.80% of the portfolio, slightly down from 93.65% a year earlier. Within this segment, refinancing to banks and financial institutions (FIs) and microfinance institutions (MFIs) declined, while refinancing to NBFCs increased. Refinancing to banks and FIs accounted for 77.64% of the total portfolio, followed by NBFCs at 12.93% and MFIs at 1.22%. Year-on-year, refinancing to banks and MFIs decreased by 1.98% and 0.70%, respectively, whereas refinancing to NBFCs and direct financing rose by 0.82% and 1.85%, which is in line with SIDBI's thrust on Direct Finance to provide an able ecosystem for the development of MSMEs in India.

Top 10 exposures represented 57.48% of total exposure as of March 31, 2025, down from 63.21%. This concentration risk is mitigated by low credit risk associated with the bank refinance portfolio, which forms majority exposures. Overall, despite high concentration, portfolio diversification and predominance of low-risk counterparties provide comfort on credit risk.

Liquidity: Strong

SIDBI's liquidity profile is strong as major portion of its loan book comprises refinance book with average period being 1-1.5 year, which is largely funded through rural infrastructure development fund (RIDF) deposits and long-term borrowings of a similar maturity. However, asset and liability management (ALM) statement as on March 31, 2025, exhibits negative cumulative mismatches in 29 days to 6-month buckets, which is expected to be filled through roll over of debts. It also has investments that are highly liquid and can be called at any time.

As of March 31, 2025, liquid investments totalled ₹51,652 crore, including cash and bank balances (₹17,672 crore) and government securities (₹33,980 crore). This excludes scheduled collections of ₹43,357 crore while scheduled debt obligations for the next three months stood at ₹1,11,727 crore. Due to its status as an apex financial institution, and that it is owned by GoI and its entities, SIDBI has strong access to capital market, which further strengthens its liquidity position.
