Rationale and key rating drivers

CARE Ratings Limited (CARE Ratings) had, vide its press release dated December 27, 2019, placed the rating of Shree Vardhman Buildprop Private Limited (SVBPL) under the 'issuer non-cooperating' category, as SVBPL had failed to provide information for monitoring of the rating. SVIPL continues to be non-cooperative despite repeated requests for submission of information through e-mails dated September 20, 2025; September 30, 2025 and October 10, 2025. In line with the extant Securities and Exchange Board of India (SEBI) guidelines, CARE Ratings has reviewed the rating on the basis of the best available information, which however, in CARE Ratings' opinion is not sufficient to arrive at a fair rating

Users of this rating (including investors, lenders and the public at large) are hence requested to exercise caution while using the above rating(s).

Outlook: Not applicable

Detailed description of key rating drivers:

CARE Ratings has not received any information except the financials for FY21 (extracted from the Registrar of Companies [RoC]). the following were the weaknesses and strengths (updated for the information available from the RoC).

Key strengths

Experienced promoters

SVBPL is a real estate development company, incorporated in 2010. It belongs to 'Shree Vardhman group' and is promoted by Sandeep Jain who has an experience of about two decades in the real estate industry. The promoter through other group companies have launched and successfully delivered several real estate development projects through different special purpose vehicles (SPVs) in Sonapat, Kurukshetra and Gurgaon (constituting a total saleable area of 13.34 Isf).

Key weaknesses

Ongoing delays in debt servicing

As per the information received from the debenture trustee, the company has delayed in debt servicing of the interest payments

Subdued industry scenario

With the on-going economic conditions, the real estate industry is currently facing issues on many fronts, including subdued demand, curtailed funding options, rising costs, restricted supply due to delays in approvals, etc., thereby resulting in stress on cash flows of developers. The industry has seen low demand in the recent past, primarily due to factors like sustained high level of inflation leading to high interest rates and adverse impact on the buying power and affordability for the consumers
