Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) has reaffirmed ratings for debt instruments and bank facilities of EarlSalary Services Private Limited (ESPL) at 'CARE A-; Stable' and assigned a rating to the non-convertible debenture (NCD) at 'CARE A-; Stable'. CareEdge Ratings has upgraded short-term ratings for the commercial paper (CP) to 'CARE A2+' considering maintenance of adequate liquidity and stable collection efficiency.

Ratings continue to reflect adequate capitalisation at the parent level, supported by a ₹547 crore capital infusion in FY25 through a Series E round. Ratings also consider the consistent growth in scale of operations, with assets under management (AUM) increasing to ₹5,584 crore as on June 30, 2025, from ₹4,064 crore as on March 31, 2024, with moderate profitability.

Further, ratings factor in the business potential of ESPL's technology-driven risk assessment model, which enables a largely digital credit underwriting process, offering high operating leverage and scalability. The experienced management team also supports ratings. Going forward, the company is expected to further scale its operations across India guided by risk calibrated growth strategy.

However, ratings are constrained by ESPL's relatively moderate operating track record and moderate asset quality, marked by elevated write-offs and evolving nature personal loan products, where robustness of the credit engine is constantly evolving. CareEdge Ratings also notes inherent risks associated with the company's predominant exposure to the unsecured loan segment and regulatory uncertainties in the digital lending space. As regulations continue to evolve, their impact on fintech players varies depending on individual business models.

Going forward, the company's ability to maintain sufficient capital cushion while improving asset quality and profitability on a sustained basis will remain a key monitorable.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors- Factors that could, individually or collectively, lead to positive rating action/upgrade:

- Improving profitability with return on AUM of at least 3.5% on a sustained basis.
- Improving asset quality metrics including write-offs on a sustained basis.
- Improving liability profile and cost of funds with larger share from banks.

¹Complete definition of ratings assigned are available at www.careratings.com and other CARE Ratings Limited's publications.

Negative factors - Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Expected/Visible signs of stress in asset quality with gross non-performing assets (GNPA) over 4%, write-offs and lower collection efficiencies.
- Declining capital levels or deteriorating leverage with overall gearing of over 3x at consolidated levels.
- AUM to tangible net worth exceeding 5x at consolidated levels.

Analytical approach: Consolidated

CareEdge Ratings has taken a consolidated view of Social Worth Technologies Private limited (SWTPL) for assessing ESPL's financial position. This gives a better view, since SWTPL holds 100% of the ESPL. Co-lending with partners takes place from the parent. The list of subsidiaries considered for consolidation is per Annexure 6.

Outlook: Stable

The stable outlook factors in maintenance of healthy business and financial parameters in the medium term. Further, the stable outlook reflects expectation of continued operational and technological support from its parent, SWTPL.

Detailed description of key rating drivers:
Key strengths
Adequate capitalisation supported by regular capital infusions

As on June 30, 2025, ESPL is a wholly owned subsidiary of its technology parent, SWTPL. SWTPL's investor base includes, The Rise Fund (TPG), Norwest Capital LLC, Eight Roads Ventures, Chiratae Ventures, and Piramal Finance Limited. In FY25, SWTPL raised ₹547 crore with participation from existing investors including TPG Capital and Norwest Capital LLC, bringing the cumulative capital raised to ₹1,532 crore by June 30, 2025.

Of this, ₹150 crore was down streamed to ESPL in FY25 and ₹50 crore in Q1FY26, totalling to ₹900crore of capital support from SWTPL since inception. This reflects the parent's ability to attract external funding and its continued commitment to ESPL's growth. The capital support has enabled ESPL to maintain a healthy capital buffer. As on June 30, 2025, the consolidated tangible net worth stood at ₹1697 crore and gearing improved to 1.13x as on June 30, 2025, and March 31, 2025, from 1.45x as on March 31, 2024, driven by equity infusion. ESPL's tangible net worth stood at ₹1030 crore and gearing increased to 2.39x as on June 30, 2025, from 2.00x as on March 31, 2025. As on June 30, 2025, ESPL's capital adequacy ratio stood at 26.05% (March 31, 2025: 27.15%) which is well above the regulatory requirement. CareEdge Ratings also takes note of SWTPL's planned equity infusion in FY26 and expects the overall consolidated gearing to remain below 3x in the medium term supported by regular capital infusions from external investors and promoters to help ESPL sustain its capital position and growth momentum in the medium term.

Improvement in scale of operations

ESPL's AUM increased from ₹4,064 crore as on March 31, 2024, to ₹5,287 crore as on March 31, 2025, and further to ₹5,584 crore as on June 30, 2025. This growth was driven by its branchless, digital-first lending model, primarily facilitated through its mobile application, Fibe. The company's credit underwriting—covering origination, risk assessment, and disbursement—is largely automated, enabling efficient portfolio expansion and algorithm-based monitoring of asset quality.

ESPL competes with banks and NBFCs in the personal loan segment, catering to a digitally savvy, younger demographic seeking loans for purposes such as home improvement, medical needs, emergencies, skill development, and insurance. Recently, the company has also forayed into loans against mutual funds, loans for solar panel installations, education loans, loans for healthcare facilities, insurance, etc. wherein ESPL has partnered with multiple players in this category to provide point of sale funding. Its technology-led approach offers a competitive advantage by enabling end-to-end loan processing in minimal time.

With a pan-India presence, ESPL had sanctioned loans over 30 states and union territories, serving more than 9 lakh borrowers as on June 30, 2025. While technology has supported rapid growth and operating leverage, CareEdge Ratings notes that maintaining asset quality will remain a key monitorable.

Experienced management team

Fibe Group was co-founded by Akshay Mehrotra (Managing Director and Group CEO) and Ashish Goyal (Director), who collectively bring over fourdecades of experience in retail and financial services. Akshay has a background in strategic planning and marketing with leading Indian brands and currently leads product strategy and business development at ESPL. Ashish, a seasoned finance

professional, has over 25 years of expertise in business finance, fundraising, risk management, investments, treasury, and strategic initiatives. Vimal Saboo, the CEO of ESPL has more than 25 years of financial services exposure with expertise in risk management, analytics and business.

The management team is further supported by a group of seasoned professionals overseeing key functional areas across the organisation

Moderate financial performance

SWTPL reported consolidated profit after tax (PAT) of ₹116 crore on total income of ₹1,273 crore in FY25 on provisional basis, compared to profit of ₹101 crore on total income of ₹838 crore in FY24, driven by higher income from AUM growth. Revenue stream comprises interest income from on-book portfolio, fees from co-lending partners and processing fees on own and partner-originated loans. Net interest margin (NIM) on AUM stood at 17.28% in FY25 compared to 18.56% in FY24 majorly due to lower yield as the company shifted focus towards higher ticket and longer tenure loans. Operating expenses as a percentage of total AUM improved from 10.61% in FY24 to 8.89% in FY25 reflecting enhanced operating efficiency through economies of scale and Technology innovation. Credit cost (including first loss default guarantee payout) rose from 8.60% in FY24 to 10.87% in FY25 mainly due to stress arising from the macro-economic factors. As a result, return on AUM declined to 2.48% in FY25 compared to 3.36% in FY24, impacted by lower NIM and higher credit cost. Also, the credit cost credit cost (including first loss default guarantee payout) improved to 10.13% in June 2025 quarter led by higher credit standard as well as recovery.

In Q1FY26, SWTPL's consolidated profitability improved with reported PAT of ₹39 crore (Q1FY25: ₹25 crore) on a total income of ₹358 crore (Q1FY25: ₹273 crore) with return on AUM rising to 2.88% (Q1FY25: 2.38%) led by improved credit costs and operating expenses. Going forward, with increase in disbursements, the group's ability to enhance profitability while improving NIM and managing credit cost will remain a key monitorable.

Moderately diversified resource profile

As on June 30, 2025, ESPL's resource profile remains moderately diversified, with the share of NCDs rising to 41% from 38% as on March 31, 2024. Borrowings from banks and non-banking financial (NBFCs)/ financial institutions (FIs) constituted 18% and 31%, respectively, as on June 2025, compared to 16% and 32% as on March 31, 2024. As on June 30, 2025, the share of pass-through certificates (PTCs) stood at 6.9% (March 2024: 7%) and CP declined to 1% from 4% as on March 31, 2024. Going forward, the company's ability to further diversify its funding sources remains critical to support future growth.

Key weaknesses

Moderate track record of operations

ESPL has an operational track record of approximately nine years, with AUM reaching ₹5,584 crore as on June 30, 2025, reflecting strong growth in recent years. However, given its relatively moderate vintage, asset quality performance across economic cycles and geographies remains untested, leading to a degree of uncertainty. CareEdge Ratings notes that the company's credit risk models driven by data analytics and machine learning are expected to evolve further with time and portfolio expansion.

Moderate asset quality metrics, characterised by higher write-offs

As on March 31, 2025, ESPL reported GNPA ratio of 3.07%, up from 2.67% as on March 31, 2024. However, GNPA improved to 2.79% as on June 30, 2025, compared to 3.20% a year earlier, indicating marginal control over delinquencies in Q1FY26. Elevated write-offs persisted, which is typical for entities operating in the unsecured lending segment. Including write-offs, GNPA stood at 10.12% as on March 31, 2025, compared to 8.56% as on March 31, 2024, attributed to macro level stress in the unsecured lending segment.

As the FLDG for colending partnerships is provided by the parent, on a consolidated basis, credit costs (as a percentage of average AUM) increased to 10.87% in FY25 from 8.60% in FY24 and remained elevated at 10.13% in Q1FY26. However, ESPL's provision coverage ratio improved to 71% as on March 31, 2025, from 66% as on March 31, 2024.

CareEdge Ratings notes that high credit costs are characteristic of digital lenders, reflecting the evolving business and risk models. However, this risk is partially mitigated by ESPL's borrower profile—52% of AUM was extended to borrowers earning over ₹40,000 per month, and 80% to those with a CIBIL score above 700 as on June 30, 2025. Going forward, CareEdge Ratings expects the asset quality to stabilise supported by changes in the borrower profile, which will be closely monitored going forward.

Regulatory risk

Ratings also reflect regulatory risks associated with digital lending, given the evolving regulatory framework. Key developments include the RBI's Digital Lending Directions, 2025 (issued on May 8, 2025) and guidelines on FLDG structures (June 08, 2023), which have led to significant operational adjustments across the fintech sector.

As digital lending entities continue to scale, the sector remains exposed to regulatory uncertainties. However, the degree of impact may vary depending on the specific business model adopted. CareEdge Ratings will continue to monitor regulatory developments closely and take appropriate rating actions in response to material changes.

Liquidity: Adequate

As on June 30, 2025, ESPL's asset-liability profile reflected positive cumulative mismatches across all time buckets. The company had cumulative outflows of ₹1,704 crore up to one year, against contractual inflows of ₹2,951 crore, indicating a comfortable liquidity position.

On a consolidated basis, SWTPL held unencumbered liquidity of ₹204 crore, comprising ₹144 crore in cash and bank balances and ₹60 crore in liquid investments which is sufficient for debt obligations up to two months. The company had access to an undrawn overdraft (OD) limit of ₹120 crore to take care of further liquidity needs.

As on June 30, 2025, the company had seven active co-lending partnerships, supporting its liquidity needs for AUM growth. The monthly collection efficiency is stable in the range of 93% to 95% (excluding overdue) in FY25 and Q1FY26.

About ESPL:

Incorporated on September 06, 1994, ESPL (formerly known as Ashish Securities Private Limited), subsidiary of SWTPL is a registered Non-Banking Financial Systematically Important Company (NBFC-SI) (Middle Layer), engaged in financing unsecured consumer loans for salaried individuals. ESPL operates through an online app, Fibe earlier known as EarlySalary. These loans are usually advanced for meeting the short-term liquidity needs of the borrower. As a lending business model, it is highly scalable, enabled by use of automation and deployment of technology for underwriting and risk management. As on June 30, 2025, the company had a tangible net worth and AUM of ₹1030 crore and ₹5584 crore, respectively. As on June 30, 2025, ESPL is 100% held by the parent SWTPL.

About SWTPL:

The holding company SWTPL is the entity through which, external investors route their funds for investment in ESPL. The entire technological back end, credit engine, borrower-facing front-end and the ES app are held in SWTPL's books. Depending on the need for funds at the NBFC level, equity is further down streamed to ESPL. SWTPL also provides FLDG to the off-book lenders, since interest income for these lenders is booked at the company. Fibe, in collaboration with Axis Bank, has also introduced a UPI enabled Rupay Co- branded Credit Card exclusively for its customers (in October 2023) to build its customer base.

CareEdge Ratings shall not be liable for any losses that user may incur or any financial liability whatsoever to the user of the rating. The use or access of the rating does not create a client relationship between CareEdge Ratings and the user.

CAREEDGE RATINGS DISCLAIMS WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, TO THE EXTENT PERMITTED BY APPLICABLE LAWS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE.

Most entities whose bank facilities/instruments are rated by CareEdge Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CareEdge Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. CareEdge Ratings does not act as a fiduciary by providing the rating. The ratings are intended for use only within the jurisdiction of India. The ratings of CareEdge Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades. CareEdge Ratings has established policies and procedures as required under applicable laws and regulations which are available on its website.
