\*Overall market borrowing programme (MBP) for FY21 is ₹69,921.34 crore.

\*\*Overall MBP for FY24 is ₹1,55,500.00 crore.

^Long-term perpetual debt of up to ₹3,000.00 crore has been carved out of MBP FY21 of ₹69,921.34 crore.

^^ Long-term perpetual debt of up to ₹5,000.00 crore has been carved out of MBP FY24 of ₹1,55,500.00 crore.

@ amount outstanding (o/s) for short-term loans (STLs) of less than six months aggregating to ₹20,000 crore and non-fund-based limit of ₹1,000 crore shall not form part of the market borrowing programme of ₹1,70,000 crore.

### Rationale and key rating drivers

Ratings reaffirmation to bank facilities and other instruments of REC Limited (REC) considers healthy profitability, adequate capitalisation profile and improving asset quality metrics. Ratings continue to draw comfort from the company's strategic importance to the Government of India (GoI) for development of power infrastructure in the country, and its quasi-sovereign status that allows it to mobilise resources from diversified channels at competitive borrowing rates. However, rating strengths are partially offset by portfolio vulnerability due to exposure towards the private sector, weak state power utilities (SPUs) and high sectoral concentration risk.

The rating for the perpetual debt instrument (PDI) of REC has been reaffirmed factoring in comfortable cushion of ~9% over the regulatory requirement for the capital adequacy ratio (CAR) of 15%. It reported a CAR of 23.74% as on September 30, 2025, against 25.99% as on March 31, 2025. The rating for PDI also factors in its healthy profitability with return on average total assets (RoTA) of 2.9% for H1FY26 and 2.8% in FY25.

### Rating sensitivities: Factors likely to lead to rating actions

**Positive factors - Factors that could, individually or collectively, lead to positive rating action/upgrade:**

Not applicable

**Negative factors - Factors that could, individually or collectively, lead to negative rating action/downgrade:**

- Significant change in shareholding and/or dilution in REC's strategic importance to GoI.
- Significant deterioration in the standalone financial metrics.

**Negative factors (additional) for perpetual debt - Factors that could, individually or collectively, lead to negative rating action/downgrade:**

- Deteriorating capitalisation levels, with cushion over regulatory benchmark remaining below 5%.
- Weakening profitability levels, with RoTA remaining below 1% on a sustained basis.

**Analytical approach:** Standalone.

CARE Ratings Limited (CareEdge Ratings) has rated REC on its standalone profile, factoring in its sovereign ownership (indirectly through Power Finance Corporation [PFC]) and its strategic importance to GoI.

**Outlook:** Stable

The Stable outlook on long-term ratings of REC reflects CareEdge Ratings' expectation that it will continue to remain a strategically important entity to the GoI.

### Detailed description of key rating drivers:

#### Key strengths

##### Strategic importance to and strong support from GoI

As on September 30, 2025, PFC holds a 52.63% stake in REC Limited, following the transfer of GoI's majority shareholding (52.85%) to PFC on March 28, 2019. This strategic acquisition positioned REC as a subsidiary of PFC, reinforcing its role in

advancing India's energy infrastructure. REC continues to play a critical role in financing power projects across state and private sectors, contributing significantly to the development and modernisation of the country's power ecosystem. The Ministry of Power (MoP) of GoI has designated REC as nodal agency for the implementation of i.) the Revamped Distribution Sector Scheme (RDSS; scheme with total outlay of ₹3,03,758 crore and a Gross Budgetary Support of ₹97,631 crore), ii.) the Electricity (Late Payment Surcharge [LPS] and Related Matters) Rules, and iii.) the PM Surya Ghar: Muft Bijli Yojana in 2024. In recognition of its strategic contributions, REC was conferred the Maharatna status in 2022. CareEdge Ratings expects REC will continue to play a pivotal role in India's power sector and expects its strategic importance to the Government of India to remain strong in the future.

### **Significant market player in the power financing sector**

REC continues to exhibit strong financial performance, with its loan book expanding steadily in recent years. While FY22 witnessed a temporary slowdown in growth due to subdued demand and delayed project execution post-COVID-19, introduction of the LPS framework and the Revolving Bill Payment Facility in FY22 catalysed growth momentum in FY23. REC reported a total loan book to ₹5,56,883 crore as on March 31, 2025, which further increased to ₹5,82,167 crore as on September 30, 2025. As on September 30, 2025, loans to distribution companies (DISCOMs) constituted largest share of REC's portfolio at 40%, followed by generation companies (27%), renewable energy firms (12%), infrastructure projects (10%), transmission companies (8%), and remainder in short-and-medium-term lending.

REC entered the infrastructure financing segment in Q3FY23 with an initial exposure of 0.3% of its gross loan book as on March 31, 2023. With rising demand, the share of non-power sector loans increased to 12% by March 31, 2025. While REC maintains a cap of 30% exposure to non-power sectors, it ensures that at least two-thirds of new sanctions in financial year are directed toward the power sector. The company's ability to diversify while maintaining strong asset quality remains a key monitorable as infrastructure lending evolves into a strategic growth area.

The rising share of loans to the renewable energy (RE) sector, predominantly in the private domain, has led to an increase in REC's overall exposure to the private sector, which rose to 13% as on March 31, 2025, up from 11% a year earlier. Consequently, the share of loans to the government sector declined to 87%, from 89% as on March 31, 2022.

CareEdge Ratings anticipates REC's loan book to maintain its growth momentum in FY26, despite slight moderation. The GoI's continued emphasis on renewable energy and implementation of key distribution sector schemes are expected to further drive growth in REC's lending portfolio, particularly in RE and distribution segments.

### **Diversified resource base**

As a quasi-sovereign financial institution, REC continues to maintain a well-diversified and cost-effective resource profile, enabling it to mobilise funds from a wide range of domestic and international sources. These include external commercial borrowings, international development agencies, domestic financial institutions, long-term bonds, bank loans, commercial papers, capital gains tax exemption bonds, infrastructure bonds, and tax-free bonds. As on September 30, 2025, majority borrowings were from bonds (56%), followed by foreign currency borrowing at 30%, term loan (13%) and rest with others. Furthermore, 99% foreign currency exposure is hedged till maturity.

### **Healthy profitability**

REC reported profit after tax (PAT) of ₹8877 crore in H1FY2025, translating to RoTA of 2.9% (annualised) and return on average tangible net worth (RoNW) of 23.8% (annualised) compared to ₹15,713 crore, 2.7% and 22.3% respectively, in FY25. Its earnings profile is supported by adequate margins, which remained ~3.3-3.6% in relation to average total assets (ATA). Its economies of scale help it operate with relatively lower operating expenses. Its credit cost has also remained contained in the last few years, supported by recoveries from non-performing assets. In Q1FY26, REC witnessed foreign exchange exposure loss due to forex fluctuations, which was negated by negative credit cost in the quarter. Going forward, its ability to manage its forex risk to keep cost contained will be important. CareEdge Ratings expects profitability to remain adequate, with credit cost and forex cost remaining monitorable.

### **Adequate capitalisation**

REC's capitalisations remain adequate with CAR of 25.99% and gearing of 6.6x as on March 31, 2025, against 22.9% and 6.72x in March 2024. As on September 30, 2025, its CAR stood at 23.74% with a gearing of 6.39x. Its capitalisation is supported by healthy internal accruals with steady growth. REC has been maintaining capitalisation above regulatory benchmark for CAR and Tier I capital.

### Improved asset quality metrics

REC has demonstrated continued improvement in its asset quality metrics, driven by strategic resolutions and prudent credit management. Its gross non-performing assets (GNPA) declined to 1.06% as on September 30, 2025 (1.35% as on March 31, 2025) from 2.71% in March 2024. This improvement was supported by successful resolutions through the National Company Law Tribunal (NCLT) and write-offs totalling ₹2,484 crore. The company continues to carry adequate provision on its GNPA of 72% as on March 31, 2025 (77% as on September 30, 2025).

As on March 31, 2025, government sector loans, which constitute 87% of REC's total loan book, remained entirely non-delinquent, underscoring the strength and reliability of sovereign-backed exposures. Within the private sector, NPAs were primarily concentrated in loans extended to conventional generation companies (gencos) and renewable energy (RE) firms. However, asset quality in these segments also improved, with NPAs in private sector conventional genco loans reducing to 39% of the respective exposure (from 62% in the previous year), and NPAs in RE loans remaining stable at 1%.

However, CareEdge Ratings notes that its gross stage 2 (GS2) loan book declined to 2.7% as on September 30, 2025 (7.9% as on March 31, 2025) from 3.7% in March 2024, on which it carried provision cover of 2.1% in September 2025 (provision coverage ratio increased due to reduction in GS2 loan book, mainly considering recoveries of ₹11,413 crore in Q2FY26). CareEdge Ratings further notes that majority stage II loans are backed by state government guarantees, and hence, not expected to flow to stage III. Further flow from this book to GNPA bucket would require incremental provision cover on this exposure, leading to an increase in its credit cost.

### Key weaknesses

#### Exposure to sectoral and borrower concentration risks, despite diversification initiated in the non-power sector

Owing to its mandate, REC's operation is concentrated towards power sector, comprising 99.7% of gross loan as on March 31, 2023. In Q3FY23, the company forayed into infrastructure sector with ₹1,453 crore making 0.3% of gross loan as on March 31, 2023. With healthy sectoral demand, the share of loan in non-power sector in infrastructure sector stood at 10% as on September 30, 2025. Although, maximum exposure limit is always restricted to 30% of outstanding loan, subject to 2/3rd new sanctions in a FY towards the power sector. Its ability to diversify sectors, while keeping asset quality strong is a key monitorable aspect, as infrastructure lending is a new venture for the company.

REC was exempted from following single entity/group exposure norms and concentration limits that are applicable to non-banking finance companies (NBFCs) till March 31, 2022. Owing to its business model and strategic importance to GoI, the Reserve Bank of India (RBI) vide its letter dated August 24, 2022, allowed existing exposure as on August 24, 2022, to run off till maturity without invoking regulatory violation and conform to RBI credit concentration norms regarding new exposure.

As an infrastructure finance company (IFC), the total permissible exposure for lending and investing is 30% of Tier-I capital in case of a single borrower and 50% in case of a single group of borrowers, respectively. Borrower concentration continues to make the company's credit profile vulnerable with top 10 customers contributing to 36.31% and top 20 customers contributing to 57.61% of the loan book as on March 31, 2025. Owing to the mandate for wholesale lending, CareEdge Ratings expects customer-wise concentration to persist going forward. As the company grows in renewable energy and Infrastructure segment, CareEdge expects private sector exposure to gradually increase, and hence, asset quality of these segments shall remain a key monitorable.

### Liquidity: Strong

REC's asset liability mismatch (ALM) profile is characterised by sizeable cumulative negative mismatches in the up to one-year buckets, given the relatively longer tenure of the loans extended by it in comparison to tenure of its liabilities. Per its ALM Statement (including the interest component) as on March 31, 2025, REC has positive cumulative mismatches across time bucket. Its on-book liquidity stood at ₹1,740 crore as on March 31, 2025, and undrawn sanction lines of ~₹15,500 crore. REC's liquidity profile is supported by its strong financial flexibility, arising from sovereign ownership and diversified funding profile and undrawn sanctioned bank lines.

### Assumptions/Covenants:

Not applicable

## Environment, social, and governance (ESG) risks

Given that REC is engaged in the lending business, it is exposed to environmental risks indirectly through its portfolio of assets. If entities on whom REC have an exposure faces environmental or regulatory risk, it could translate to credit risks for REC. As part of its appraisal process for all power projects it finances, REC identifies and assesses potential environmental risks of projects. Environmental issues are identified through due diligence, site visits and review of applicable compliances, among others. REC introduced policies for competitive financing of clean energy projects across the country, including solar, wind, biomass projects and e-mobility.

Social risks in the form of cybersecurity threat or customer data breach or mis-selling practices can affect REC's regulatory compliance and reputation, and hence, remain a key monitorable. REC has been supporting social causes through its CSR arm, REC Foundation. In FY24-25, REC spent ₹294.01 crore on social activities. No data breaches were reported for REC in FY25.

REC's Board comprises seven Directors, with three Independent Directors, one nominee Director each from GoI and PFC. The Board also includes one female Director.

## About the company and industry

### Industry classification

Macroeconomic indicator	Sector	Industry	Basic industry
Financial services	Financial services	Finance	Non-banking financial company (NBFC)

REC was incorporated in 1969 under the Companies Act, 1956. In 1998, the company was registered with RBI and classified as an IFC by the RBI in 2010. The company is established to promote and finance projects aimed at integrated system improvement, power generation, promotion of decentralised and non-conventional energy sources, energy conservation, renovation and maintenance, power distribution with focus on pump-set energisation, implementation of GoI schemes.

REC assists state electricity boards/power utilities/state governments, rural electric cooperatives and others by providing technical guidance, consultancy services and training facilities for formulation of economically and financially viable schemes. Long-term loans are offered to state, centre and private companies for projects. Short-term/medium-term loans are offered to borrowers to power utilities to meet their working capital requirements, including purchase of fuel for power plants, systems, and network maintenance, among others for a tenure of 1-3 years. The company also provides debt refinancing schemes generally available for commissioned projects. It also provides term loan for equipment manufacturing. REC also offers non-fund-based products, including, Letter of Undertaking in lieu of bank guarantee.

### About us:

Established in 1993, CareEdge Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the Reserve Bank of India. With an equitable position in the Indian capital market, CareEdge Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CareEdge Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CareEdge Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit. ### Disclaimer:

This disclaimer pertains to the ratings issued and content published by CARE Ratings Limited ("CareEdge Ratings"). Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. Any opinions expressed herein are in good faith and are subject to change without notice. The rating reflects the opinions as on the date of the rating. A rating does not convey suitability or price for the investor. The rating agency does not conduct an audit on the rated entity or an independent verification of any information it receives and/or relies on for the rating exercise. CareEdge Ratings has based its ratings/outlook on the information obtained from reliable and credible sources. CareEdge Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. The users of the rating should rely on their own judgment and may take professional advice while using the rating in any way. CareEdge Ratings shall not be liable for any losses that user may incur or any financial liability whatsoever to the user of the rating. The use or access of the rating does not create a client relationship between CareEdge Ratings and the user.

CAREEDGE RATINGS DISCLAIMS WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, TO THE EXTENT PERMITTED BY APPLICABLE LAWS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE.

Most entities whose bank facilities/instruments are rated by CareEdge Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CareEdge Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. CareEdge Ratings does not act as a fiduciary by providing the rating. The ratings are intended for use only within the jurisdiction of India. The ratings of CareEdge Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades. CareEdge Ratings has established policies and procedures as required under applicable laws and regulations which are available on its website.
