### Rationale and key rating drivers

Reaffirmation of ratings assigned to debt instruments and bank facilities, along with the assignment of a rating to the perpetual debt of Poonawalla Fincorp Limited (PFL) factor in the expectation of strong support from the Cyrus Poonawalla group, having healthy financial flexibility, which is also reflected from the fact that PFL has been able to raise incremental funds at competitive rates in the debt market. The Cyrus Poonawalla group holds 63.95% stake (as on December 31, 2025) in PFL through their Investment Holding Company – Rising Sun Holdings Private Limited (RSHPL, rated 'CARE AAA; Stable / CARE A1+'), with Adar Poonawalla as the chairman of the board. RSHPL had infused capital in PFL, which reflects timely need-based financial support and the strategic importance of the financial services business to the group.

The Cyrus Poonawalla group is one of the leading players in the pharmaceuticals and biotechnology segment. The group's flagship company, Serum Institute of India Private Limited (SIIPL; rated 'CARE AAA; Stable/CARE A1+'), is one of the world's largest manufacturers of measles and Diphtheria, Tetanus and Pertussis (DTP) vaccines. SIIPL has diverse product offerings in the vaccine segment, including the COVID-19 vaccine 'Covishield'. Ratings also factor in experienced senior management team led by of Arvind Kapil as the company's managing director (MD) and chief executive officer (CEO) and other seasoned professionals, and revised product strategy post the change in management.

Ratings continue to factor in the company's diversified product approach in the Retail and MSME segments and the company's foray in six new products under its offerings, gold loans, consumer durable loans, prime personal loans, shopkeeper loans, education loans, and commercial vehicle financing. Ratings factor in the healthy capitalisation and improvement in the overall resource base.

Notwithstanding an increase in gross non-performing assets (GNPA) in Q2FY25; the same has shown reduction in the last four quarters. The company maintains an overall comfortable asset quality. This rise in GNPA in Q2FY25 was primarily due to stress in the erstwhile small ticket personal loan (STPL) book, for which the company had made adequate provisions and write-offs.

<sup>1</sup>Complete definition of ratings assigned are available at [www.careratings.com](http://www.careratings.com) and other CARE Ratings Limited's publications.

However, since then the company has recalibrated the product dynamics including the credit underwriting process. CareEdge Ratings expects the new book generation to have a better asset quality. The company has shown a gradual quarter-over-quarter recovery in profitability from Q2FY25 till Q3FY26 and is expected to improve further in the upcoming quarters.

CareEdge Ratings also takes note of the equity infusion of ₹1,499.98 crore made by promoters in PFL through preferential issue in September 2025, which reflects the promoters' long-term commitment to PFL. This capital raise is expected to further strengthen the company's capitalisation profile and support the growth in loan book.

Ratings also consider the growing, yet relatively moderate, scale with assets under management (AUM) of ₹55,017 crore (standalone) as on December 31, 2025. The company's ability to profitably scale up the business with new product lines, while keeping asset quality under check, remains a key monitorable.

CareEdge Ratings has withdrawn ratings assigned to the non-convertible debentures bearing ISIN INE511C07805 and INE511C07789, principal protected market linked debentures bearing ISIN INE511C07771 and perpetual debt bearing ISIN INE511C08936 considering redemption of the said instrument and post receiving the payment confirmation.

### **Rating sensitivities: Factors likely to lead to rating actions**

#### **Positive factors: Factors that could individually or collectively lead to positive rating action/upgrade:**

Not applicable

#### **Negative factors: Factors that could individually or collectively lead to negative rating action/downgrade:**

- Weakening of the linkages with the parent group, promoter group or promoter family.
- Overall gearing exceeding 5x on a sustained basis.
- Deterioration in the asset quality parameters such that the net non-performing assets (NNPA) remain above 2% on a sustained basis.
- Any deterioration in profitability on a sustained basis.

#### **Analytical approach:** Standalone

CareEdge Ratings has evaluated the standalone credit risk profile of PFL factoring in linkages with the parent, RSHPL (rated 'CARE AAA; Stable / CARE A1+'). Ratings continue to factor in the expectation of need-based timely support to PFL from the Cyrus Poonawalla group, whose flagship company is SIIPL (rated; 'CARE AAA; Stable / CARE A1+').

#### **Outlook:** Stable

CareEdge Ratings believes PFL will continue to demonstrate a stable business profile with the expectation of need-based timely support from the Cyrus Poonawalla group, whose flagship company is SIIPL, given the high strategic importance, shared brand name, and management control.

#### **Detailed description of key rating drivers:**

#### **Key strengths**

**Strong and resourceful promoter**

The Cyrus Poonawalla group holds 63.95% (December 31, 2025) stake in PFL through RSHPL, which is the group's Investment Holding Company, having investments in insurance, retail, pharma, and the financial services segment. As of March 2024, the group's flagship company, SIIPL, has infused funds of ₹6,782 crore in RSHPL through CCPS. This capital was used to infuse funds in different businesses of the group, including PFL, with RSHPL making an equity infusion of ₹3,206 crore in PFL in May 2021. RSHPL has investments of ₹8,247.63 crore as on September 30, 2024, on its balance sheet in listed and unlisted instruments. PFL is strategically important to the group, as indicated by sharing of the 'Poonawalla' name, Adar Poonawalla being the board's chairman, and the large investment made by the group in lending business. The Cyrus Poonawalla group is one of India's reputed business houses and is a leading player in the pharmaceuticals and biotechnology segments. The group's flagship company, SIIPL, is one of the world's largest manufacturers of vaccines, supplying to ~160 countries. SIIPL has a robust financial profile with a total operating income (TOI) of ₹9,549 crore with a profit after tax (PAT) of ₹4,279 crore in FY24, while its net worth stood at ₹41,186 crore as on March 31, 2024. SIIPL has a healthy liquid investment portfolio of ₹7,570 crore and cash and bank balance of ₹1,072 crore as on March 31, 2024. SIIPL generated strong cash accruals of ~₹4,800 crore in FY24. Thus, the group has a robust financial profile with healthy cash accruals and minimal debt obligations.

**Experienced management team**

PFL is being led by Adar Poonawalla as the board's chairman and non-executive director and a team of seasoned professionals having specialisation in the financial services business with a track record of successful market leadership. The company is governed by a 10-member board of directors, including five independent directors. The board comprises qualified and experienced professionals with considerable experience in functional areas. The board is supported by a qualified senior management team led by Arvind Kapil, Managing Director, and CEO. He took over the charge of the management in June 2024 and is a seasoned finance professional with over 25 years' diversified experience in the commercial and retail lending domain. Apart from him, the company has strengthened the senior level management by hiring seasoned professionals having over two decades of experience with reputed large private sector banks and non-banking financial companies (NBFCs). Arvind Kapil and the new management is driving the existing AI-focused digitisation initiatives and significant focus on increasing the company's physical presence. This would be instrumental in setting up the initial foray in the new products, which the management has launched recently.

**Diversified product approach in the retail segment**

The management's business plan revolves around diversified product strategy, targeting credit-tested, better-quality retail, and MSME businesses in urban and semi-urban locations. PFL plans to achieve a 5x-6x growth in AUM, from FY24 levels, over the next five years. The company has recalibrated some of its existing products for business and operational efficiency. The company has a diversified product basket including personal loans, loans to professionals, business loans, consumer loans, loan against property (LAP), medical equipment loans, supply chain finance, and preowned car finance. The company has launched six new products, gold loans, consumer durable loans, prime personal loans, shopkeeper loans, education loans, and commercial vehicle financing. The AUM as on December 31, 2025, stood at ₹55,017 crore, of which the discontinued products constituted is less than 1% of the total portfolio. PFL has adopted 'phygital' model, a combination of strong ground level presence with increased branch network and an effective AI-focused tech-led model. PFL has achieved a certain level of operating efficiency through the increasing use of technology and AI focused digitalisation.

**Comfortable asset quality metrics although witnessed challenges in recent times**

PFL's GNPA, which had increased from 1.16% as on March 31, 2024, to 2.10% as on September 30, 2024, has come down to 1.84% as on March 31, 2025. NNPA stood at 0.59% as on March 31, 2024, and 0.85% as on March 31, 2025. In 9MFY26, asset

quality parameters improved further with GNPA and NNPA at 1.51% and 0.80%, respectively. The increase in GNPA in the interim was primarily considering some stress witnessed by the company in erstwhile small ticket personal loan (STPL) book parked under personal and consumer product. The AUM of personal and consumer book as on December 31, 2025, stood at ~₹15,428 crore, which is 28% of the total AUM. However, since the company has recalibrated the product dynamics including the credit underwriting process and has provided adequately for the erstwhile STPL book on which stress was witnessed, CareEdge Ratings expects the new book generation to have a better asset quality. With the launch of new products over and above the existing products, the new management has realigned the company's product mix with greater focus on better asset quality in urban and semi-urban geographies. The company had secured to unsecured proportion in the range of 56:44 of on book AUM as December 31, 2025. The company's ability to grow its portfolio, while maintaining comfortable asset quality metrics will remain a key monitorable.

### **Healthy capitalisation and diversified resource profile**

The sizeable equity infusion of ₹3,456 crore in FY22 and stake sale of Poonawalla Housing Finance Limited resulted in the company's healthy capitalisation. CareEdge Ratings has also noted equity infusion of ₹1,499.98 crore by the promoters, reflecting their long-term commitment to PFL. This capital raise is expected to further strengthen the company's capitalisation profile and support the growth in loan book as envisaged by the management. This is in line with CareEdge Ratings' expectation that PFL will raise need-based capital including support from the promoter group to meet its growth requirements. PFL reported a tangible net worth of ₹9,797 crore as on December 31, 2025, and a total borrowing of ₹42,498 crores. The gearing as on December 31, 2025, was 4.34x against 3.28x as on March 31, 2025. With the launch of new products and the company having plans to grow its AUM by 5x-6x from the FY24 levels, over the next five years, the company has sufficient headroom available in terms of capitalisation to grow its book in the near term from current levels and is expected to maintain the comfortable capitalisation level going forward. The company has a diversified resource profile including bank and debt capital markets borrowings. PFL's standalone borrowings as on December 31, 2025, comprised term loans (43%) followed by non-convertible debentures (NCDs) (32%), cash credit and working capital demand loans (7%), commercial paper (9%), external commercial borrowing (ECB) (7%) sub-debt (1%) and others (1%). The management maintains a liquidity buffer in the form of free cash and undrawn bank lines, and as on December 31, 2025, the company had a liquidity of ₹6,488 crore (including undrawn lines) of which ₹1,912 crore is in the form of cash and cash equivalent including investments. The overall gearing increased in 9MFY26, aligned with CareEdge Ratings' expectation and remained at 4.34x as on December 31, 2025. For PFL, the diversification of the resource profile with increasing relationships across different categories of banks and capital market investors has resulted in a stable liability profile. With the improving scale of operations and branch network, and launch of new products, CareEdge Ratings expect the gearing to further increase in the medium term. With better asset quality expected for the new products, the company's profitability is expected to improve in medium term.

### **Key weakness**

#### **Moderate, though improving, scale of operations and market position**

As on December 31, 2025, PFL's standalone AUM stood at ₹55,017 crore, up from ₹35,631 crore as of March 31, 2025. The AUM is currently spread across four major asset classes (excluding a discontinued portfolio), offering the advantage of diversification. While the scale of operations and market positioning remain moderate within each asset class, PFL has demonstrated quarter-over-quarter growth across all segments in 9MFY26. Post the change in management, PFL has forayed in new products which are expected to aid the AUM growth going forward. The company had secured to unsecured proportion in the range of 56:44 of on book AUM as on December 31, 2025. The growth in AUM will be driven by digital and physical channels including branches.

However, the company's ability to profitably scale up its portfolio across diverse segments, improve its market position, and manage the credit costs remain key monitorable.

### **Liquidity: Strong**

As on December 31, 2025, PFL's asset liability maturity (ALM) profile shows a surplus position upto 3-years time buckets, aided by a large equity base, lower debt level, and inherently short-to-medium duration of assets. PFL had a strong liquidity of ₹6,488 crore (including undrawn lines) of which ₹1,912 crore is in the form of cash and cash equivalent including investment as on December 31, 2025.

### **Environment, social, and governance (ESG) risks**

Although PFL's service-oriented business model limits its direct exposure to environmental risks, credit risk may arise if operations of asset class of the portfolio are adversely impacted by environmental factors.

While the company continues to have strong cybersecurity policy and framework, social risks in the form of cybersecurity threat or customer data breach or mis-selling practices can affect PFL's regulatory compliance and reputation and hence remain a key monitorable. The issuer has implemented AI-led customer service agents, predictive analytics, and robust grievance redressal mechanisms to enhance customer experience and mitigate social risks. There have been no reported instances of data breach or regulatory penalties in this regard.

PFL's Board comprises 10 Directors, with five Independent Directors and two female Directors. The company also addresses governance risks through transparent disclosures, a well-defined code of conduct, and proactive grievance redressal mechanisms for customers and partners.

CAREEDGE RATINGS DISCLAIMS WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, TO THE EXTENT PERMITTED BY APPLICABLE LAWS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE.

Most entities whose bank facilities/instruments are rated by CareEdge Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CareEdge Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. CareEdge Ratings does not act as a fiduciary by providing the rating. The ratings are intended for use only within the jurisdiction of India. The ratings of CareEdge Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades. CareEdge Ratings has established policies and procedures as required under applicable laws and regulations which are available on its website.
