

Indus Infra Trust

June 05, 2026

Facilities/Instruments	Amount (₹ crore)	Rating ¹	Rating Action
Long-term bank facilities	7,901.52	CARE AAA; Stable	Reaffirmed
Long-term / Short-term bank facilities	500.00	CARE AAA; Stable / CARE A1+	Assigned
Issuer rating	0.00	CARE AAA; Stable	Assigned
Commercial paper	1,000.00	CARE A1+	Reaffirmed

Details of instruments/facilities in Annexure-1.

The list of facilities / instruments falling under the purview of various financial sector regulators (FSRs), along with the names of respective FSRs has been disclosed under Annexure-7.

Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) has assigned issuer rating of CARE AAA; Stable and long-term / short-term rating of CARE AAA; Stable / CARE A1+ to bank guarantee of Indus Infra Trust. CareEdge Ratings has also reaffirmed the rating of CARE A1+ to commercial paper (CP) of ₹1,000 crore and rating of 'CARE AAA; Stable' to outstanding bank facilities aggregating ₹7,901.52 crore of Indus Infra Trust (Indus InvIT). Indus InvIT plans to issue CP as an interim bridge funding for acquisition of assets. The CP shall be issued in 2-3 tranches for a likely tenor of up to 100 days and shall be repaid from proceeds of qualified institutional placement (QIP). Indus InvIT has outstanding CP of ₹250 crore as on June 3, 2026.

Indus InvIT completed acquisition of three operational hybrid annuity model (HAM) projects, GR Bilaspur Uрга Highway Private Limited (GBUHPL), GR Ena Kim Expressway Private Limited (GEKEPL), and GR Ujjain Badnawar Highway Private Limited (GUBHPL) from GR Infraprojects Limited (GRIL, rated 'CARE AA+; Stable/ CARE A1+') under right of first offer (ROFO) agreement in Q4FY26 at an aggregate enterprise value (EV) of ₹2,639 crore. CareEdge Ratings also notes Indus InvIT's announcement on December 25, 2025, regarding signing of binding share purchase agreements (SPAs) for the proposed acquisition of 100% shareholding in four operational HAM projects from KNR Constructions Limited (KNR), of which KNR Palani Infra Private Limited is acquired on May 29, 2026, and balance is likely to be consummated after receipt of regulatory approvals and fulfilment of conditions precedent under SPA. Therefore, Indus InvIT has portfolio of 14 operational NH- HAM assets as on June 03, 2026, having established track record of timely annuities receipt. Provisional commercial operations date (PCOD) has been achieved in all three projects proposed to be acquired from KNR. CareEdge Ratings expects acquisition of KNR's assets gradually in FY27 and will fund them through a mix of unit holder infusion and debt.

On a consolidated basis, Indus InvIT has net outstanding debt of ₹3,858 crore and EV of ₹8,878 crore (per external valuation report) as on March 31, 2026, which translates to net debt/EV of 43.46%. Post the proposed addition of three KNR assets and equity issuance through qualified institutional placement (QIP), net debt/EV is expected to remain comfortable in the medium term. Indus InvIT's debt coverage indicators are expected to remain strong due to low leverage at portfolio level marked by peak debt / construction annuities receivables of 0.52x and strong credit profile of counterparty being National Highways Authority of India (NHAI, rated 'CARE AAA; Stable'). Assets will be transferred to Indus InvIT post receipt of at least first annuity, in line with estimation, and there is a provision for holding back an amount in case of deviation in completion cost or Change in Law (CIL) amount per terms of the SPA. This mitigates risk related to variations in cash flows pending final completion certification and annuities receipt track record for some assets. Proposed equity infusion and low leverage is expected to provide adequate headroom to Indus InvIT for future asset acquisitions.

Ratings continue to factor stable cash flows from underlying operational National Highways HAM assets having low leverage and benefit of geographical diversification. Existing assets have received 87 annuities till March 31, 2026, without major delays or deductions.

Ratings continue to consider benefit of cash pooling at Indus InvIT level leading to robust cash flows and well-defined waterfall mechanism, including maintenance of debt service reserve account (DSRA) for one-quarter debt servicing requirement, imparting strong debt coverage indicators. Per terms, if in quarter, the debt service coverage ratio (DSCR) falls below 1.10x, the entire surplus will be trapped in Indus InvIT. CareEdge Ratings also notes receipt of CIL for goods and service tax (GST) on annuities from NHAI and major deviations impacting debt coverage indicator is a key rating monitorable.

¹Complete definition of ratings assigned are available at www.careratings.com and other CARE Ratings Limited's publications.

These rating strengths are tempered by the inherent operation and maintenance (O&M) and major maintenance (MM) risk associated with road projects and interest rate risk. CareEdge Ratings notes that O&M and MM assumptions factored in by Indus InvIT are based on the independent report. However, debt coverage indicators are expected to be strong even after assuming higher cost in line with similar projects rated by CareEdge Ratings. Existing special purpose vehicles (SPVs) have entered fixed-price O&M and MM contracts with Aadharshila Infratech Private Limited (AIPL: sponsor and project manager; rated 'CARE AA+; Stable') and has entered back-to-back fixed-price O&M and MM sub-contracts with GRIL. This arrangement is expected to continue for future assets, which is a credit positive, given GRIL's established experience in construction and maintenance of these roads.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors: Not applicable

Negative factors

- Substantial delay in receipt of annuities or considerable deduction in annuities payments on a sustained basis or higher-than-envisaged O&M and MM expense leading to overall DSCR falling below 1.2x.
- Significant debt-funded acquisition of assets, resulting in deterioration of overall DSCR below 1.2x.
- Non-adherence to terms of sanction such as cash trap, debt service reserve account and others.
- Deterioration in credit profile of counterparty.

Analytical approach: Consolidated

Indus InvIT's credit profile factors in the consolidated business and financial risk profiles of underlying assets under Indus InvIT. Debt at the Indus InvIT level will be serviced from cash flows, which are up-streamed from underlying SPVs. The DSCR testing for restricted payment conditions would be at the Indus InvIT level. Entities consolidated in Indus InvIT for analytical purpose are listed under Annexure-6.

Outlook: Stable

The Stable outlook is considering expectation of stable cash flows from underlying assets of Indus InvIT having strong counterparty and low leverage.

Detailed description of key rating drivers:

Key strengths

Healthy operational track record of existing underlying assets

Indus InvIT has a portfolio comprising 14 operational HAM projects (including KNR Palani acquired in FY27), which are diversified across Gujarat, Uttar Pradesh, Maharashtra, Andhra Pradesh, Bihar, Punjab, Chhattisgarh, Madhya Pradesh and Tamil Nadu. Existing 13 assets as on March 31, 2026, have a track record of receiving 87 annuities from NHAI without delays or deductions. These projects also derive benefits from favourable features of HAM projects (1) Inflation-indexed completion cost and O&M annuities and (2) Interest annuities linked to bank rate or one-year marginal cost of funds-based lending rate (MCLR) of top five scheduled commercial banks.

The assets existing as on March 31, 2026, have a residual concession period of 8.91 to 13.77 years providing long-term cash flow visibility to Indus InvIT. Of acquired 14 assets, twelve assets have received final commercial operations date (COD), while balance two have received PCOD with minimal residual work. PCOD achieved for the entire length in most projects and physical progress is above 97% for these projects. CareEdge Ratings understands that balance construction responsibility lies with GRIL when the land is handed over, which mitigates risk to an extent.

Strong credit profile of counterparty

Incorporated by the Government of India (GoI) under an Act of Parliament as a statutory body, NHAI functions as the nodal agency for development, maintenance, and management of national highways in the country. NHAI is vested with executive powers for developing national highways in India by the Ministry of Road Transport and Highways (MoRTH). Outlook on NHAI reflects outlook on the sovereign, whose direct and indirect support continues to be the key rating driver.

Strong debt coverage indicators and low leverage

Indus InvIT's consolidated cash flow has a robust cover with strong debt coverage indicators owing to low leverage. Debt structure stipulates DSRA of one quarter and financial covenant requiring a minimum DSCR of 1.10x. If the DSCR falls below 1.10x in any quarter, the entire surplus will be trapped at Indus InvIT. On a consolidated basis, Indus InvIT has net outstanding debt of ₹3,858 crore and EV of ₹8,878 crore (per external valuation report) as on March 31, 2026, which translates to net debt/ EV of 43.46%.

Post the proposed addition of three KNR assets and equity issuance through QIP, net debt/EV is expected to remain comfortable in the medium term. Debt coverage indicators of Indus InvIT are expected to remain strong due to low leverage at portfolio level post-acquisition of assets, marked by peak debt /construction annuities receivables of 0.52x and strong credit profile of the counterparty. Assets will be transferred to Indus InvIT on receipt of at least first annuity per estimation. The acquisition structure provides adequate downside protection to the trust, as consideration payable for proposed assets is subject to customary holdback and adjustment mechanisms. These include adjustments, considering finalisation of CIL claims, including those pertaining to GST, material negative Change of Scope impacting annuity payments, and true-up of the final completion cost for balance works pending at the time of acquisition. Such provisions mitigate the risk of adverse cash flow variations post-acquisition and provide flexibility to Indus InvIT in settling the final consideration.

Sound and resourceful management group

Indus InvIT is backed by the experienced management team of sponsor, AIPL and investment manager, GR Highways Investment Manager Private Limited (GRHIMPL). Board of directors of GRHIMPL comprise professionals having vast experience in infrastructure, finance, and funds raising. The management team has a rich experience in sectors including, road and highways sector, and brings expertise across business strategy, operational, and financial capabilities. Indus InvIT operations are also managed by qualified professionals.

Impact of GST

With annuity payments brought under the GST regime, operational HAM projects are eligible to receive a CIL payment on annuities. While GST on interest annuities is being fully released by NHAI, GST on construction annuity and O&M annuity will be received per approved CIL rate under extant guidelines laid down by the authority. As of March 2026, the CIL rate has been approved by NHAI for eight SPVs in existing portfolio, one SPV was bid excluding GST and balance SPVs are under process for finalisation of the CIL rate. However, SPVs have sufficient input tax credit (ITC) to discharge their GST obligations until clarity on CIL is received. CareEdge Ratings expects that the applicability of GST is credit neutral for Indus InvIT.

Key weaknesses

Inherent O&M risk largely mitigated by strong cash flows and track record of GRIL

O&M and MM assumptions factored in by Indus InvIT in its base case are based on an independent report. Riding quality is good based on roughness index. However, debt coverage indicators are expected to be strong even after assuming higher cost in line with similar projects rated by CareEdge Ratings. Existing SPVs have entered fixed-price O&M and MM contracts with AIPL and AIPL has entered back-to-back fixed-price O&M and MM sub-contracts with GRIL with an option to renegotiate the price at the end of seven years. This arrangement is expected to continue for future assets, which is a credit positive, given GRIL's established experience in construction and maintenance of these roads. No MM reserve (MMR) is proposed under the lending documentation, however, cash pooling at Indus InvIT level will help in generating sufficient cashflows to incur the MM expense in the year, when it falls due.

Inherent interest rate risk and risk related to acquisition of debt-funded assets in future

Indus InvIT is exposed to inherent interest rate risk as its interest annuities and interest on debt have floating interest rates linked to an external benchmark. Reductions in bank rate can impact interest annuities, and an increase in interest rate on term debt can lead to higher interest obligation. Hence, material change in these components could impact debt coverage indicators. However, risk is mitigated to an extent as the movement in interest rate on term debt and interest on annuities will move in the same direction.

Indus InvIT plans to add operational assets limited to the road sector in the medium term. It has a ROFO agreement with GRIL and is also looking into NHAI-operational HAM projects of other developers. Acquisition of weak assets with large debt and low revenue potential, significantly reducing DSCR below 1.2x, will be a key rating sensitivity.

Liquidity: Strong

Indus InvIT's liquidity position is strong, marked by fixed stream of revenue and creation of DSRA for one quarter of debt servicing till the debt tenor. Indus InvIT had DSRA balance of ₹164.37 crore as on March 31, 2026. Debt structure stipulates financial covenant of minimum DSCR of 1.10x. If in any quarter the DSCR falls below 1.10x, the entire surplus will be trapped in the Indus InvIT. Term loans will be amortised in a structured quarterly repayment.

Assumptions/Covenants: Not applicable

Environment, social, and governance (ESG) risks: Not applicable

21.	Expected Loss Ratings (For Loan Facilities (Fund / Non-Fund Based) from Banks / NBFCs / NHB / FIs)	RBI
22.	Expected Loss Ratings (Listed / Proposed to be Listed Bonds / Debentures / Preference Shares (All Securities))	SEBI
23.	Expected Loss Ratings (Unlisted / Proposed to be Unlisted Bonds / Debentures / Preference Shares (All Securities))	MCA
24.	Unlisted PTCs / Securitisation Notes (Originated by Entities Not Regulated by RBI) *	Investor-side regulator such as IRDAI, PFRDA @

* Includes securitisation transactions involving assignee payout, acquirer's payout.

²SEBI: Securities and Exchange Board of India; RBI: Reserve Bank of India; MCA: Ministry of Corporate Affairs; IRDAI: Insurance Regulatory and Development Authority of India; PFRDA: Pension Fund Regulatory and Development Authority

~ The rated instrument may involve issuance of different instruments such as debt securities (listed or otherwise), bank loans, commercial paper (listed or otherwise), among others. The regulator of the instrument may accordingly be SEBI, RBI or MCA and can only be determined upon issuance. In the press releases subsequent to issuance(s), CareEdge Ratings shall separately capture the rated quantum details and names of respective regulators.

^ Includes bank facilities such as liquidity facility, second loss facility that are part of securitisation transactions.

There is no instrument being rated and hence, Regulator of the Instrument is not applicable. The rating scale and definitions are being followed as stipulated in SEBI Master Circular for CRAs.

@ These ratings were assigned in regulatory regime prior to introduction of SEBI CRA Circular dated February 10, 2026, and the investor side regulators have accordingly been included.

Note: For facilities / instruments falling under the purview of FSRs other than SEBI, the grievance / dispute redressal mechanisms and investor protection mechanisms provided by SEBI shall not be available.

Note on complexity levels of rated instruments: CareEdge Ratings has classified instruments rated by it based on complexity. Investors/market intermediaries/regulators or others are welcome to write to care@careedge.in for clarifications.
