Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) had, vide its press release dated July 30, 2025, placed the rating(s) of National Electronics (NE) under the 'issuer non-cooperating' category as NE had failed to provide information for monitoring of the rating as agreed to in its Rating Agreement. NE continues to be non-cooperative despite repeated requests for submission of information through e-mails dated June 15, 2026, June 26, 2026, June 30, 2026 among others.

In line with the extant SEBI guidelines, CareEdge Ratings has reviewed the rating on the basis of the best available information which however, in CareEdge Ratings opinion is not sufficient to arrive at a fair rating.

Users of this rating (including investors, lenders and the public at large) are hence requested to exercise caution while using the above rating(s).

The ratings for NE have been revised on account of non-availability of requisite information. The ratings have been revised on account of delays in debt servicing as recognized from publicly available information.
