Details of instruments/facilities in Annexure-1.

The list of facilities / instruments falling under the purview of various financial sector regulators (FSRs), along with the names of respective FSRs has been disclosed under Annexure-7.

Rationale and key rating drivers

Reaffirmation of ratings assigned to bank facilities and instruments of Bharat Petroleum Corporation Limited (BPCL) continues to be supported by its strong parentage as a Maharatna Central Public Sector Enterprise (CPSE) controlled by the Government of India (GoI) and its high strategic importance to the GoI.

Ratings also factor in BPCL's strong market position with market share of ~27% among public sector undertakings (PSUs) in FY26 (refers to April 01 to March 31). This is supported by sizeable oil refining capacity, a broad-based marketing and distribution network, and superior processing capabilities, as reflected by a high Nelson Complexity Index (NCI).

Ratings derive further strength from its healthy scale of operations, with throughput improving to 41.20 MMT in FY26 from 40.50 MMT in FY25. Operating margin improved in FY26 over FY25, supported by lower crude oil prices against stable prices of motor spirit (MS) and high-speed diesel (HSD), improved product crack spreads, and significant reduction in liquified petroleum gas (LPG) under recoveries. In addition, BPCL is receiving compensation of ₹7,594 crore towards LPG under recoveries, in 12 monthly instalments starting November 2025. Healthy product cracks led to an increase in gross refining margin (GRM) from USD 6.82 per barrel in FY25 to USD 11.74 per barrel in FY26.

However, in the near term, Q1FY27 performance is expected to be significantly impacted due to the ongoing US-Iran crisis, resulting in elevated crude and LPG prices and limited pass-through in retail fuel and LPG prices. In the medium-to-long term, financial performance is expected to remain healthy, supported by a reduction in LPG under-recoveries and stable marketing margins, despite softening in GRMs.

The rating strengths are also tempered by exposure to volatility in crack spreads and foreign exchange movements, project implementation risks arising from sizeable capital expenditure (capex) plans, and inherent regulatory risks.

CARE Ratings Limited (CareEdge Ratings) has withdrawn its rating assigned to BPCL's non-convertible debentures (NCDs; ISIN Nos: INE029A08073 and INE029A08065) with immediate effect, as the company has repaid the rated instrument and there is no amount outstanding against the same.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors

- Not applicable

Negative factors

- Dilution in GOI's stake in BPCL to less than 51% or reduction in its strategic importance to GOI.
- Sustained weakening of operational performance, marked by lower throughputs and GRMs.

¹Complete definition of ratings assigned are available at www.careratings.com and other CARE Ratings Limited's publications.

Analytical approach: Consolidated

For arriving at ratings, CareEdge Ratings has considered the consolidated financials of BPCL, owing to the financial and operational linkages and fungible cash flows between the parent and subsidiaries/joint ventures (JVs). The list of entities consolidated is placed at **Annexure-6**. Government notching has also been considered, owing to BPCL's parentage and strategic importance to the GoI.

Outlook: Stable

The 'Stable' outlook on the rating reflects that the rated entity shall continue to remain a dominant player in the oil refining and marketing business underpinning its strategic importance to the GoI, which should help it to maintain its strong credit profile.

Detailed description of key rating drivers:**Key strengths****Strong parentage and strategic importance to the GoI**

BPCL is majority owned by GoI (52.98% as on March 31, 2026) and is strategically important to GoI for achieving its socio-economic goals. Oil marketing companies (OMCs) have a dominant position in the domestic market for key petroleum products such as high-speed diesel (HSD), motor spirit (MS), superior kerosene oil (SKO) and liquefied petroleum gas (LPG). OMCs serve critical policy functions for the supply of fuel throughout the country and these companies have been consistently supported by GoI by way of absorbing a good portion of their sales-related under-recoveries through subsidies. Ministry of Petroleum and Natural Gas (MoPNG), vide its communications dated October 03, 2025 and October 24, 2025, approved a compensation of ₹7,594.00 crore to BPCL towards under-recoveries incurred on the sale of domestic LPG up to March 31, 2025, and March 31, 2026.

Strong market position in oil refining and marketing business with geographical diversification

BPCL (on a consolidated basis) has three major refineries, spread across Mumbai, Kochi, and Madhya Pradesh, with a total refining capacity of 35.30 MMTPA as on March 31, 2026. BPCL is India's second-largest OMC, with a domestic sales volume of over 54.18 million metric tonne in FY26 and market share of 27.27% and is India's fourth-largest refining company, representing ~14% of India's total refining capacity. The company is also a market leader in terms of throughput per outlet. With 25,323 retail outlets as on March 31, 2026 (23,642 retail outlets as on March 31, 2025), BPCL has the second-largest nationwide marketing set up in the country for the sale of petroleum products.

In LPG as well, BPCL had a market share of 27.53% in FY26 and a network of over 6,278 distributors and 57 LPG bottling plants across the country with a domestic customer base of ~8.60 crore connections. BPCL achieved highest ever bottling volume of 8.3 MMT in FY26.

BPCL, through its subsidiary, Bharat Petro Resources Limited (BPRL), has presence in the upstream exploration and production business, with ownership of 15 blocks in six countries as on March 31, 2026.

Healthy operational performance in FY26 with improved GRM

The capacity utilisation for the company's refineries has consistently remained high and above 100% over past three years ended FY26, indicating strong operating efficiency. In terms of NCI, its Bina refinery has the highest NCI of 11.76 among the public sector refineries in India, which enables it to process heavy oil and oil of APIs with high quality. The refineries at Mumbai and Kochi are near the coast, which provides an advantage to the company in terms of saving transportation costs.

In FY26, the GRM also improved from USD 6.82/ bbl in FY25 to USD 11.74/ bbl in FY26, mainly considering lower crude oil prices and improved product spread. Historically, BPCL's refining margins have been significantly higher than the benchmark GRM. BPCL had one of the highest distillate yields at 84.54% in FY26 among PSU refineries.

Comfortable financial risk profile

Overall gearing ratio continues to remain comfortable at 0.55x as on March 31, 2026, against 0.77x as on March 31, 2025. Overall debt level reduced as on March 31, 2026, basis healthy profitability, further supported with steady accretion of profit to reserves provided for a comfortable capital structure. Going forward, despite projected availment of debt for its capex plans, overall gearing is expected to remain below unity considering strong net worth base and scheduled repayment of debt. Debt coverage indicators continue to remain healthy with interest coverage for FY26 at 14.46x (7.47x at FY25) and total debt to gross cash accruals (GCA) of 1.63x as on March 31, 2026 (against 2.91x as on March 31, 2025).

Liquidity: Strong

The liquidity of BPCL remained strong with ₹20,169 crore as cash and liquid investments as on March 31, 2026. The company has investments in the quoted equity shares of Oil India Limited (rated 'CARE AAA; Stable/ CARE A1+'), which provides additional comfort to its liquidity.

The company has undrawn working capital limits of ~₹27,000 crore and its internal accruals and available liquidity are expected to be sufficient to meet its debt repayments obligations of ~₹13,000-14,000 crore p.a. over the next three years. For capex requirement, the company plans to avail the debt on a need basis.

Apart from its strong market position, BPCL also derives strong financial flexibility from its parentage of GoI, which provides it easy access to funds at attractive rates. The company generated healthy cash flow from operations of ₹43,727 crore in FY26, and its operating cycle has remained comfortable at below 20 days over past three years. This provides a headroom to absorb the significant losses expected in Q1FY27.

Key weaknesses

Sizeable capex plans

BPCL has a planned large capex of ~₹1.70 lakh crore to be implemented over five years, FY25-FY29 despite a part of capex is non-committed in nature. One of the major capex is towards expansion of the Bina refinery's capacity from current 7.8 MMTPA to 11 MMTPA and setting up of 2.2 MMTPA capacity of bulk Petchem plant over four years at a total cost of ~₹50,000 crore.

Having expended ₹20,400 crore in FY26, the company is expected to incur capex of ~₹25,000 crore in FY27 where ₹11,000 crore shall be towards refinery projects, ₹10,000 crore towards marketing, pipelines infrastructure and RO expansion, ₹1,700 crore towards city gas distribution (CGD) infrastructure among others and equity infusion of ~₹2,250 crore in its subsidiary towards upstream projects. Going forward, capex requirement shall increase to ₹25,000-30,000 crore p.a. and the same is expected to peak in FY28 which shall be mainly towards expansion of Bina refinery.

There is no specific funding pattern/debt envisaged for the projected capex and shall depend on the availability of the cash accruals. The capex is planned to be funded largely through available cash, liquid investments, internal accruals and debt and there is no risk expected from funding side given the sovereign ownership of the entity and strong financial risk profile. The timely execution of projects within the estimated costs and economic ramp-up of operations post completion of the projects will remain key monitorable. However, this risk is mitigated to an extent due to BPCL's vast experience in successfully undertaking such large projects in the past.

Exposure to volatility of crack spreads and foreign exchange rates

The crude oil prices and crack spreads are a function of many dynamic markets and fundamental factors, such as the global demand-supply dynamics, geopolitical stability in countries with oil reserves, policies of the Organization of the Petroleum Exporting Countries (OPEC), and foreign exchange rates, among others. These factors have translated into a high level of volatility in oil prices and cracks. Being an oil refining and marketing company, the pricing of major petroleum products naturally hedge crude purchase prices to a large extent. Thus, the company's profitability is exposed to the volatility of crack spreads and foreign exchange fluctuations.

BPCL's profitability was impacted in FY23 due to the stagnant retail prices against high crude prices. Even though average crude oil prices reduced in FY24 from FY23, the retail prices were unchanged since April 2022, resulting in a higher marketing margin in FY24. In FY25, the profitability was impacted owing to lower crack spread and narrowing Russian crude discount which again recovered in FY26 with improved crack spread. Its profitability is again expected to be significantly impacted in Q1FY27 due to sharp increase in crude oil prices without corresponding increase in retail prices of petrol and diesel.

Regulatory risk

The GoI's policy and decisions with respect to finished product pricing, subsidy sharing, windfall taxes, duties, cess, and dividend payments can have a significant bearing on BPCL's profitability, cash flows and liquidity position. During elevated crude prices, GoI may choose to pass on the fiscal burden by sharing of profits of PSUs through higher fiscal levies, higher dividend declaration or providing discounts to OMCs, which has the potential to impact BPCL's income and accruals. Refiners are required to comply with the increasingly stringent product specifications (such as equivalent of Bharat Stage VI) as stipulated by regulators.

Environment, social, and governance (ESG) risks

ESG pillar	Updated risk factors / key observations
------------	---

<p>Environmental</p>	<ul style="list-style-type: none"> • Oil refining, pipeline transportation, storage and downstream operations remain inherently exposed to oil spills, leaks and process-safety events. BPCL has instituted safety and risk-management systems including HIRA, QRA, HAZOP studies, Process Safety Management, incident reporting, emergency response plans and corrective/preventive action mechanisms to mitigate these risks. • BPCL has committed to achieving Net-Zero Scope 1 and Scope 2 emissions by 2040. In FY25, 45 energy conservation initiatives across refineries resulted in savings of over 40,000 MTOE and GHG emission reduction of 131,396 MTCO₂e. • Renewable energy capacity stood at 154.86 MW as on March 31, 2025, comprising 143.06 MW solar and 11.8 MW wind, with another 171 MW under development. BPCL also added 150 MW through NTPC’s solar utility tender. • BPCL solarised 12,244 of its 23,642 retail outlets as on March 31, 2025, supporting the company’s transition towards lower-carbon operations. • BPCL is expanding clean-energy and low-carbon initiatives including EV charging infrastructure, compressed biogas, biofuels, green hydrogen and carbon capture initiatives. It had 6,563 EV charging stations at retail outlets as on March 31, 2025, and achieved 16.35% ethanol blending in FY25. • Water management remains a key environmental risk for refining operations. BPCL reported reduction in water withdrawal from 61,080 TKL in FY24 to ~57,003 TKL/56,966 KL in FY25, supported by recycling, reuse, and water-conservation initiatives. Its major refineries operate with zero liquid discharge systems.
<p>Social</p>	<ul style="list-style-type: none"> • BPCL has an Employee Satisfaction Enhancement (ESE) Department and an open-door grievance mechanism covering employees and workers. Grievance channels include the Samadhan portal, HR/line managers, ESE, POSH committee, whistle-blower mechanism and Human Rights Policy framework. • BPCL provides 100% coverage of health insurance and accident insurance to permanent employees and permanent workers. It also expended ₹240.05 crore on employee and worker well-being measures in FY25. • Occupational health and safety remain a material social risk. FY25 LTIFR was 0.00 for employees and 0.022 for workers. The company reported two recordable worker injuries and two worker fatalities during the year; BPCL stated that incidents are investigated and corrective/preventive actions are tracked through audits and CAPA processes. • BPCL invested ₹179.37 crore in CSR initiatives in FY25, focused on health and sanitation, education, skill development, community development, and environmental sustainability.
<p>Governance</p>	<ul style="list-style-type: none"> • BPCL reported no monetary/non-monetary fines or penalties under the BRSR disclosure basis for FY25 and no disciplinary action against Directors, KMPs, employees or workers for bribery/corruption. It has an anti-fraud policy and defined conflict-of-interest processes for the Board and senior management. • The company has a dedicated investor grievance mechanism, including a designated investor email ID and formal shareholder grievance channels. In FY25, 26 shareholder complaints were filed, and none were pending at year-end.

About the company and industry

Industry classification

Macroeconomic indicator	Sector	Industry	Basic industry
Energy	Oil, gas & consumable fuels	Petroleum products	Refineries & marketing

BPCL, a GoI undertaking (52.98% holding as on March 31, 2026) and a Fortune 500 company, was originally incorporated as Bharat-Shell Refineries Limited (BSRL) on November 03, 1952, by Shell Petroleum Company Limited, and subsequently in 1977, the name was changed to BPCL. BPCL is an integrated oil refining and marketing company. It is India's second-largest OMC, with a domestic sales volume of over 54.18 MMT in FY26. It is India's fourth-largest oil refining company, with a total refining capacity of 35.30 MMT (including the Bina Refinery), representing ~14% of India's total refining capacity. With ~25,323 retail outlets as on March 31, 2026, BPCL has the second-largest marketing set up in the country for the sale of petroleum products. BPCL, through its wholly owned subsidiary BPRL, has participating interest (PI) in 15 blocks spread across countries. Apart from stakes in eight blocks in India, BPRL also has PI in seven blocks in Mozambique, Brazil, Indonesia, and UAE and equity stake in two Russian entities.

23.	Expected Loss Ratings (Unlisted / Proposed to be Unlisted Bonds / Debentures / Preference Shares (All Securities))	MCA
24.	Unlisted PTCs / Securitisation Notes (Originated by Entities Not Regulated by RBI) *	Investor-side regulator such as IRDAI, PFRDA @

* Includes securitisation transactions involving assignee payout, acquirer's payout.

~ The rated instrument may involve issuance of different instruments such as debt securities (listed or otherwise), bank loans, commercial paper (listed or otherwise), among others. The regulator of the instrument may accordingly be SEBI, RBI or MCA and can only be determined upon issuance. In the press releases subsequent to issuance(s), CareEdge Ratings shall separately capture the rated quantum details along with names of respective regulators.

^ Includes bank facilities such as liquidity facility, second loss facility that are part of securitisation transactions.

There is no instrument being rated and hence, Regulator of the Instrument is not applicable. The rating scale and definitions are being followed as stipulated in SEBI Master Circular for CRAs.

@ These ratings were assigned during regulatory regime prior to introduction of SEBI CRA Circular dated February 10, 2026 and the investor side regulators have accordingly been included.

Note: For facilities / instruments falling under the purview of FSRs other than SEBI, the grievance / dispute redressal mechanisms and investor protection mechanisms provided by SEBI shall not be available.

Note on complexity levels of the rated instruments: CareEdge Ratings has classified instruments rated by it based on complexity. Investors/market intermediaries/regulators or others are welcome to write to care@careedge.in for clarifications.

About us:

Established in 1993, CareEdge Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the Reserve Bank of India. With an equitable position in the Indian capital market, CareEdge Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CareEdge Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CareEdge Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit. Disclaimer:

This disclaimer pertains to the ratings issued and content published by CARE Ratings Limited ("CareEdge Ratings"). Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. Any opinions expressed herein are in good faith and are subject to change without notice. The rating reflects the opinions as on the date of the rating. A rating does not convey suitability or price for the investor. The rating agency does not conduct an audit on the rated entity or an independent verification of any information it receives and/or relies on for the rating exercise. CareEdge Ratings has based its ratings/outlook on the information obtained from reliable and credible sources. CareEdge Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. The users of the rating should rely on their own judgment and may take professional advice while using the rating in any way. CareEdge Ratings shall not be liable for any losses that user may incur or any financial liability whatsoever to the user of the rating. The use or access of the rating does not create a client relationship between CareEdge Ratings and the user.

CAREEDGE RATINGS DISCLAIMS WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, TO THE EXTENT PERMITTED BY APPLICABLE LAWS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE.

Most entities whose bank facilities/instruments are rated by CareEdge Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CareEdge Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. CareEdge Ratings does not act as a fiduciary by providing the rating. The ratings are intended for use only within the jurisdiction of India. The ratings of CareEdge Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades. CareEdge Ratings has established policies and procedures as required under applicable laws and regulations which are available on its website.
