Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) had, vide its press release dated August 01, 2019, placed the rating of Made Easy Education Private Limited (MEEPL) under the 'issuer non-cooperating' category as it failed to provide information for monitoring of the rating. MEEPL continues to be non-cooperative despite repeated requests for submission of information through e-mails communications dated April 18, 2026, April 28, 2026 and May 8, 2026. In line with the extant SEBI guidelines, CareEdge Ratings has reviewed the rating on the basis of best available information which, however, in CareEdge Ratings' opinion is not sufficient to arrive at a fair rating.

Users of this rating (including investors, lenders and public at large) are hence requested to exercise caution while using above rating(s).

Analytical approach: Standalone

Detailed description of key rating drivers:

At the time of last rating on June 2, 2025, following were the rating strengths and weaknesses (updated with information available from the Ministry of Corporate Affairs).

Key strengths

Moderate financial risk profile

The company's overall gearing ratio improved to 0.22x, as on March 31, 2022 (PY: 0.30x). Total debt to gross cash accruals (TD/GCA) also improved to 1.22x, as on March 31, 2022 (PY: 2.43x). Improvement in the financial risk profile is mainly considering repayment of loans. However, MEEPL's total operating income (TOI) reduced by 4% year-on-year (y-o-y) from ₹52.28 crore in FY21 to ₹50.16 crore in FY22.

Experienced and well-qualified promoters

The company's promoter, Balendra Singh is an IT-BHU graduate, and has been conferred with many awards including Education Excellence Award 2015 (presented by Home Minister of MP) and "National Education Excellence Award 2014" – Best Entrepreneur promoting Education Award for IES, GATE and PSUs (presented by Governor of Gujarat). He is ably supported by his family in addition to other experienced professionals.

Key weaknesses

Project implementation risk pertaining to setting up 10-MW solar power project

The company is exposed to risks pertaining to setting up the 10-MW solar power project. The entire land required for the project (expected to be ~45 acres) has been identified and land acquisition is under process. The company is in the process of finalising engineering, procurement, and construction (EPC) and operations and maintenance (O&M) contracts.

Counterparty payment risks pertaining to power off-take

The company entered long-term power purchase agreement (PPA) with Madhya Pradesh Power Management Company Limited (MPPMCL) for supply of entire power at a fixed tariff of ₹5.452/kWh for 25 years under the Madhya Pradesh State Solar Policy. The company is exposed to counterparty credit risk since MPPMCL is the sole off-taker of power and has a relatively weak financial risk profile.

Vulnerability of power generation to climatic conditions

MEEPL's solar project is to be based on polycrystalline silicon technology, which has a proven track record in global markets, lower degradation and lower land requirement, though there is lack of long-term track record of performance of solar modules in Indian conditions.
