

Dhabriya Polywood Limited

March 30, 2022

Ratings

Facilities/Instruments	Amount (Rs. crore)	Rating ¹	Rating Action
Long Term Bank Facilities	33.03 (Enhanced from 29.96)	CARE BBB-; Stable (Triple B Minus; Outlook: Stable)	Reaffirmed
Total Bank Facilities	33.03 (Rs. Thirty-Three Crore and Three Lakh Only)		

Detailed Rationale & Key Rating Drivers

The rating assigned to the bank facilities of Dhabriya Polywood Limited (DPL) continues to derive strength from its proven track record of around three decades in PVC (Polyvinyl Chloride) and UPVC (Unplasticized polyvinyl chloride) based products with reputed clientele, diversified product profile having wide applications across different user industry resulting in low customer concentration risk, healthy order book position and vast experience of the promoters in the industry. The ratings also take cognizance of DPL's moderate capital structure & debt coverage indicators and adequate liquidity.

The ratings, however, continues to remain constrained on account of DPL's moderate scale of operations in a highly fragmented and competitive industry and moderate profitability which is susceptible to volatility in the raw material prices and exchange rate fluctuations, and project implementation risk.

Rating Sensitivities

Positive Factors - Factors that could lead to positive rating action/upgrade:

- Sustained increase in DPL's scale of operations along with improvement in PBILDT margin to more than 15% on a sustained basis
- Sustained improvement in capital structure with overall gearing less than 0.50 times and operating cycle to less than 100 days

Negative Factors- Factors that could lead to negative rating action/downgrade:

- Any debt-funded project undertaken by the company which results in deterioration of capital structure beyond unity
- Decrease in scale of operations marked by TOI to less than Rs 100 Crore owing to subdued demand from real estate sector

Detailed description of the key rating drivers

Key Rating Strengths

Established track record with diversified product profile and reputed clientele

Incorporated in 1992, DPL has an established track record in manufacturing wide range of PVC and UPVC based products, furniture, and modular kitchens. DPL has set up a dealer network across key locations and caters to project demand by reputed builders across India. Dealer network contributes around 60-65% of DPL's revenue and balance is derived from contract-based project demand. As on February 28, 2022, DPL has an order book of Rs.96.10 crore and its subsidiary company Dynasty Modular Furnitures Private Limited (Subsidiary company) had an order book of Rs.5.91 Crore, to be completed in 1.5 - 2 years reflecting healthy order book position.

Low customer concentration risk

DPL has a diversified clientele base marked by top five customers accounting for only 8.85% and 7.87% of its TOI during FY21 (FY refers to the period April 01 to March 31) and 9MFY22 (refers to period from April 01 to December 31) respectively.

Moderate capital structure and debt coverage indicators

DPL's capital structure continues to remain moderate marked by an overall gearing of 0.88x as on March 31, 2021 as against 0.87x as on March 31, 2020. Increase in total debt is due to higher utilisation of working capital facilities and disbursement of new term loans which was partially offset by repayment of unsecured loans in FY21 and accretion of profits to reserves to net worth.

Further, the debt coverage indicators of the company stood moderate with total debt to gross cash accruals of 6.13 years as on March 31, 2021, deteriorated from 5.27 years as on March 31, 2020 mainly on account of decrease in GCA level and increase in total debt. The interest coverage ratio of the company stood moderate at 3.20x in FY21, improved from 3.04x in FY20 owing to reduction in interest cost.

Experienced management

Mr. Digvijay Dhabriya, Managing Director, holds a bachelor's degree in Mechanical Engineering and has two decades of experience in the industry. He is actively supported by the second generation of the family and a team of experienced professionals across different functions in taking strategic decisions concerning the company.

¹Complete definition of the ratings assigned are available at www.careedge.in and other CARE Ratings Ltd.'s publications

Key Rating Weaknesses

Growing scale of operations, albeit on a modest base along with moderation in profitability during 9MFY22

DPL reported marginal decline in its total operating income (TOI) to Rs. 106.96 crore (PY: Rs.112.44 crore) due to disruption in operations due to nation-wide lockdown in Q1FY21 (refers to period from April 01 to June 30). Operations scaled up from Q2FY22 (refers to period from July 01 to September 30) with gradual lifting of lockdown restrictions and as per provisional results for 9MFY22, DPL reported a TOI of Rs.93.76 crore as against Rs.74.96 crore during 9MFY21.

DPL's profitability remained stable in FY21 marked by PBILDT margin of 13.09% (PY: 13.46%) and PAT margin of 4.18% (PY: 3.92%). However, partial lockdown restrictions during Q1FY22 (refers to period from April 01 to June 30) has led to lower absorption of fixed costs leading to moderation in PBILDT and PAT margins to 9% and 1.91% during 9MFY22.

Project implementation risk

DPL completed setting up of solar power plants at Sitapura Unit and Malviya Nagar Unit and it was commissioned in October 2020 and May 2021 respectively. The power generated from solar plants is used for captive consumption. The ongoing project of shifting its manufacturing facility from Coimbatore (Tamil Nadu) to Bangalore (Karnataka) has been hit by COVID led disruptions and has faced significant time overrun. As per revised timelines, DPL is envisaged to complete the project and commence commercial operations from its new facility from April 2022.

Susceptibility of margins to volatile raw material prices and foreign exchange fluctuation risk

Considering DPL's main raw material and highest cost component, PVC, is a derivative of crude oil, the company's profitability remains susceptible to fluctuations in crude oil prices. Nevertheless, DPL has been able to pass on the increase in raw material prices to the customers, albeit with a time lag. In addition to this, the profitability is also exposed to fluctuations in foreign currency, as the company imports around 14% of its raw material requirement without any active hedging policy.

Presence in a highly fragmented and competitive industry and exposed to real estate sector

DPL's presence in the highly fragmented industry with presence of few numbers of organized and large numbers of unorganized players exposes the company to high competition. Further, the demand of its products comes mainly from real estate sector which exposes it to cyclical real estate sector.

Liquidity: Adequate

DPL's liquidity is characterized by sufficient cushion in cash accruals vis-à-vis term loan repayment obligations along with its modular capex requirements. Average utilisation of its fun-based limits remains moderate at 75% during trailing 12 months ending February 2022. However, owing to higher inventory holding period and early settlement of creditors, the operating cycle of the company elongated to 193 days in FY21 (FY20: 173 days). The current ratio stood moderate at 1.61x as on March 31, 2021, however, quick ratio stood below unity level at 0.74x as on March 31, 2021 due to high inventory. Further, DPL is envisaged to generate GCA in the range of Rs.7- 12 crore during FY22-FY24 against repayment obligation ranging around Rs.5.50 - Rs.7.65 crore.

Analytical approach: Consolidated. The company has operational synergies with its subsidiaries and hence consolidated approach has been considered. List of subsidiaries has been attached as Annexure-6.

About the Company

Jaipur (Rajasthan) based DPL was originally incorporated as a private Limited company in 1992 by Mr. Digvijay Dhabriya as "Dhabriya Agglomerates Private Limited" for carrying out trading and manufacturing of PVC and UPVC based products. Later, in August 2014, it was reconstituted into public limited company and assumed its current name i.e. DPL. It got listed on stock exchange in 2014.

The company has three manufacturing facilities located at Sitapura and Malviya Nagar, Jaipur and third one at Coimbatore, Tamil Nadu. DPL's plant is certified with International Organization for Standardization (ISO) like ISO 9001:2008 and 14001:2004.

DPL has three subsidiaries mainly PGB, PPP and DMF. The manufacturing facility of DMF is located at Jaipur and PPP's plant is located at Coimbatore.

About CARE Ratings Limited:

Established in 1993, CARE Ratings Ltd. is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India (SEBI), it has also been acknowledged as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). With an equitable position in the Indian capital market, CARE Ratings Limited provides a wide array of credit rating services that help corporates to raise capital and enable investors to make informed decisions backed by knowledge and assessment provided by the company.

With an established track record of rating companies over almost three decades, we follow a robust and transparent rating process that leverages our domain and analytical expertise backed by the methodologies congruent with the international best practices. CARE Ratings Limited has had a pivotal role to play in developing bank debt and capital market instruments including CPs, corporate bonds and debentures, and structured credit.

Disclaimer

The ratings issued by CARE Ratings Limited are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings Limited has based its ratings/outlooks based on information obtained from reliable and credible sources. CARE Ratings Limited does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings Limited have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings Limited or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE Ratings Limited is, inter-alia, based on the capital deployed by the partners/proprietor and the current financial strength of the firm. The rating/outlook may undergo a change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE Ratings Limited is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE Ratings Limited's rating.

Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
