*The ratings are based on credit enhancement in the form of a 'Letter of Comfort' issued by Dewan Housing Finance Corporation Ltd. (DHFL), rated **CARE AAA" (Triple A); Stable**, in favour of AHFL's lenders.

All the above ratings are backed by a letter of comfort issued by Dewan Housing Finance Corporation Ltd.

Detailed Rationale & Key Rating Drivers of DHFL (LOC provider)
Detailed Rationale & Key Rating Drivers

The rating factors in consistent track record of Dewan Housing Finance Corporation Limited (DHFL) in the housing finance sector spanning over three decades across business cycles and expertise in lending to the lower-middle income group borrower segment while maintaining asset quality. The growing credit demand in this market segment coupled with the Government's thrust on providing affordable housing are expected to enable DHFL in further strengthening its business position in this segment. The ratings also factor in DHFL's experienced management, adequate capital adequacy, diversified resource profile, stable profitability and increasing share of non-housing loans, which is a relatively riskier segment. Capitalization levels, gearing and asset quality are the key rating sensitivities.

Detailed description of the key rating drivers
Key rating strengths
Consistent track record of business performance across business cycles and expertise in lending in the niche market segment of Lower and Middle Income group

DHFL has a consistent track record of over three decades in the housing finance business spanning across business cycles. Over the years, the company has developed expertise in lending to borrowers in the lower and middle income group segment while maintaining stable asset quality. The penetration of housing finance market in India continues to be low and India's urban housing shortage is primarily driven by the LIG and EWS categories. The growing credit demand in this market segment coupled with the Government's thrust in providing affordable housing throughout the country through various schemes/ programmes is expected to enable DHFL in further strengthening its business position in this segment.

Experienced management

The company's management team is led by Mr Kapil Wadhawan who is the Chairman and Managing Director (CMD). Mr. Harshil Mehta is JMD & CEO of the company. He is assisted by an experienced management team. The group few years back had formed group management centre (GMC) which has inducted experienced professionals from the industry. The GMC comprises of Mr. Srinath Sridharan, Mr. M. Suresh (former MD and CEO – Tata AIG) and Mr. G Ravi Shankar (former CEO and CFO roles in GE, Jet Airways and Geometric Limited). The role of the GMC is to provide strategic direction to group companies and bring in better governance.

Diversified resource profile and average capitalization levels

The company has demonstrated track record of raising capital (both equity and debt) at regular intervals to fund business growth and has a diversified resource profile. As on March 31, 2018, bank borrowings comprised 42% of the total borrowings [P.Y.: 42%], NHB refinance- 3% [P.Y.: 4%], market borrowings- 40% [P.Y.: 42%], public deposits- 11% [P.Y.: 8%] and external commercial borrowings- 3% [P.Y.: 4%]. DHFL's overall gearing remain stable at 10.54x as on March 31, 2018 [P.Y.: 10.29x]. The company also recently concluded public issuance of NCD of Rs.12,000 crore.

As on March 31, 2018, company's CAR and Tier I CAR stood at 15.29% [P.Y.: 19.12%] and 11.52% [P.Y.: 14.75%] respectively.

Comfortable asset quality

Over the years, DHFL has developed the expertise in lending to the low-middle income group segment while maintaining comfortable asset quality parameters. However, asset quality of its LAP and project finance portfolio remains to be seen. The company reported Gross NPA ratio of 0.96% as on March 31, 2018 [P.Y.: 0.94%] and Net NPA ratio of 0.56% [P.Y.: 0.58%]. The Net NPA to Net worth ratio stood at 5.85% as on March 31, 2018 [P.Y.: 5.30%].

Stable profitability

During FY18, NIM remains stable at 2.46% as compared to 2.50% in FY17. DHFL reported PAT of Rs.1172 crore in FY18 as against PAT of Rs.2896 crore (including one-time gain of Rs.1969 crore) in FY17. During FY18, DHFL's ROTA (adjusted for one time profit) as well as adjusted ROTA (adjusted for off book assets and one time profit) remained stable at 1.17% [P.Y.: 1.16%] and 1.02% [P.Y.: 1.03%].

Comfortable liquidity profile

As on March 31, 2018, the liquidity statement showed positive cumulative mismatch in the short term bucket of up to 1 year. Further, DHFL also has unutilized funding lines of Rs.3,603 crore (including NHB sanctions, unutilized CC facilities and unavailed term loan and pool buyout sanctions) which is expected to enable the company in bridging the probable mismatches.

Key rating weaknesses**Exposure to low and middle income segment with increasing proportion of LAP, SME and builder loans segment**

DHFL has exposure to the lower and middle income group which is more prone to defaults in case of a stressed economic scenario. Further, the share of LAP, SME and builder loans increased to 39% of the outstanding loan book as on March 2018 from 34% as on March 2017 which is a relatively riskier segment.

Industry Prospects

HFC's are expected to maintain their good profitability on the basis of strong business growth and stable asset quality over the medium term. However, rising competition and the resultant possible dilution in credit underwriting norms, long term funding and asset quality are the key challenges for the sector. However, there are some industry concerns on the LAP book with many players witnessing substantial rise in the delinquency level.

Analytical approach: The rating of instruments of AFSL is based on the assessment of DHFL which has given 'Letter of Comfort' for these instruments. DHFL has been assessed on a standalone basis.
