Total Facilities	81.71 (Rupees Eighty One crore and Seventy One lakh only)		

Details of instruments/facilities in Annexure-1

Detailed Rationale & Key Rating Drivers

For arriving at the rating, CARE has taken a consolidated view of Arman Financial Services Limited (AFSL), which includes its wholly owned subsidiary, Namra Finance Ltd. (NFL) engaged in micro finance lending, apart from the standalone financing business of AFSL. This is on account of the operational, managerial and financial linkages between the two entities.

The rating assigned to AFSL continues to derive strength from AFSL's established track record of operations along-with experienced & professional management, diversified operations across three different loan segments, viz. vehicle finance, MSME lending and micro-finance as well as robust growth in AFSL's loan portfolio over the last one year with increased penetration in existing geographies & products along with addition of MSME loan product. The rating further derives strength from AFSL's increasing geographical diversification of operations which however still remains restricted to five states, its comfortable capital adequacy ratio (CAR), moderate profitability indicators (net interest margin and ROTA) as well as its expanding resource base. The rating also takes cognizance of fund infusion of Rs.50 crore by a private equity player in April 2018 to further support the growth in its loan portfolio.

The rating, however, continues to be constrained on account of moderation in AFSL's asset quality as on FY18 end due to impact of demonetization, limited track record of operations in new geographies and products, risks associated with unsecured lending in microfinance and MSME loans, presence in a highly competitive industry and regulatory risk pertaining to the microfinance business.

AFSL's ability to further expand its loan portfolio through greater geographical and product diversification while improving its asset quality and profitability along with timely tie-up of envisaged funding from banks and financial institutions to support growth in business are the key rating sensitivities.

Detailed description of the key rating drivers

Key Rating Strengths

Established track record of operations along-with experienced and professional management: AFSL is in the finance business since 1992 and has demonstrated a long track record of operations through various business cycles. The company is promoted by Mr. Jayendra Patel who has a wide industry experience of more than two decades. He is supported by Mr. Aalok Patel, son of Mr. Jayendra Patel, who is also on the Board of the Directors of the company and is actively involved in the business. In August 2018, Mr. Alok Prasad joined as the Chairman on the Board of Directors of AFSL. Mr. Prasad has more than 35 years of experience in regulatory, banking and financial services.

Diversified operations across three segments: AFSL on a standalone basis undertakes vehicle finance and MSME lending, while the microfinance lending is done through NFL, its wholly owned subsidiary. All these three segments witnessed healthy growth in disbursements during FY18. Microfinance lending continued to be the largest segment for AFSL constituting 68% of its total loan portfolio as on March 31, 2018.

Healthy growth in loan portfolio during FY18: AFSL's loan portfolio more than doubled during FY18 with healthy growth witnessed in all three segments with release of pent-up demand post wearing off of the impact of demonetization. Branch network and operational set-up created prior to demonetization also acted as catalyst for robust growth in loan portfolio during the year. Further, AFSL shifted its entire loan disbursement to cashless mechanism, which is expected to provide it with better control over the process.

Increasing geographical diversification: AFSL expanded its operations to Uttarakhand in FY18 while increasing its penetration in existing states of Madhya Pradesh, Uttar Pradesh and Maharashtra which resulted in reduced concentration of loan portfolio in Gujarat from 81% in FY17 to 57% in FY18. As on March 31, 2018, AFSL had presence across 53 districts in these five states with a network of 127 branches.

¹Complete definition of the ratings assigned are available at www.careratings.com and other CARE publications

Comfortable CAR with moderate profitability: AFSL's CAR stood comfortable at 23.49% as on March 31, 2018 and improved further to 28.02% as on June 30, 2018 with raising of funds through CCDs in April 2018. Though AFSL's ROTA moderated by around 93 bps y-o-y to 2.15% during FY18 (primarily due to higher provisioning as well as interest expense incurred during the year), it improved substantially to 3.77% in Q1FY19 with normalization of expenses as well as improvement in asset quality.

Fund infusion in April 2018 from private equity player to enable further growth in loan portfolio: AFSL raised Rs.50 crore from a private equity player in April 2018 through issue of compulsory convertible debentures (CCDs). This fund infusion would provide it with the required equity capital to support the growth in its loan portfolio over the next couple of years, while it would be required to raise borrowings in line with its loan disbursements.

Key Rating Weaknesses

Deterioration in asset quality due to impact of demonetization, but normalization witnessed during recent months: AFSL's asset quality deteriorated in FY18 with gross NPA increasing to 1.69% as on March 31, 2018 from 1.44% as on March 31, 2017, reflecting the impact of demonetization on its borrowers, which are primarily engaged in cash based economy. Transition in NPA recognition norms from 120 days in FY17 to 90 days in FY18 for its two-wheeler business also contributed to the higher reported delinquency levels. However, the portfolio quality started stabilizing and even improving, with around 0.50% of gross NPA for MFI loans disbursed post demonetization (from April 2017) as on June 30, 2018 and reduction in PAR > 90 days for other businesses from 3.64% as on March 31, 2017 to 2.60% as on March 31, 2018.

Limited track record of operations in its new geographies and products: AFSL commenced microfinance lending operations in Uttar Pradesh, Maharashtra and Uttarakhand during the last two years. A good understanding of the local economy and its dynamics is required for engaging in a successful microfinance business, given the unsecured nature of lending as well as the target borrower set. Further, AFSL commenced unsecured MSME lending in Gujarat and Madhya Pradesh during end FY17 which scaled up sizably in FY18 and Q1FY19. Collectively, both these translated into limited track record for AFSL in its new geographies & products and its performance in terms of profitability and asset quality is yet to be established.

Risks associated with unsecured lending: Around 79% of the outstanding loan portfolio of AFSL as on June 30, 2018 was contributed by microfinance and MSME lending. The loans in both these business segments are unsecured in nature translating into losses in case of any delinquency, as there is no asset which can be sold to recover the pending loan amounts.

Presence in a competitive and highly regulated industry albeit healthy growth prospects: The SHG - Bank Linkage Program (SBLP) which was launched in 1992 on a pilot basis has grown significantly. SHGs have enabled millions of poor household access to sustainable financial services from the banking system. Apart from MFIs, other models of microfinance like non-governmental organizations (NGOs), co-operatives, trusts etc. have also grown significantly in recent years. AFSL also faces competition from unorganized sector lending. However, growth prospect of micro-finance business in India continues to remain good given the market potential.

Analytical approach: Consolidated

A consolidated approach has been considered for analysis for AFSL and NFL due to the following:

- NFL is a wholly owned subsidiary of AFSL
- Both entities are engaged in similar line of business (lending)
- Both entities operate under common management

About the Company

Promoted by Mr. Jayendra Patel, AFSL is a Non-Deposit taking Non-Banking Financial Company (NBFC) registered with Reserve Bank of India. Initially, AFSL was engaged in the business of two-wheeler financing and microfinance lending business through Joint Liability Group (JLG) model. In compliance with RBI directions, AFSL promoted NFL as its wholly

owned subsidiary to carry out microfinance lending. NFL received NBFC – Micro Finance Institution (MFI) license from RBI on February 14, 2013 and from May 2013, entire new microfinance lending was carried out by NFL. In March 2017, AFSL also commenced MSME lending business.

AFSL, on a consolidated basis, operates across 5 states i.e. Gujarat, Madhya Pradesh, Maharashtra, Uttar Pradesh and Uttarakhand covering 53 districts through a network 127 branches as on March 31, 2018. Microfinance lending is presently the largest business segment for AFSL constituting 68% of the outstanding loan portfolio while the balance was from two-wheeler loans (21%) and MSME loans (11%).

Brief Financials (Rs. crore)	FY17 (A)	FY18 (A)
Total operating income	53.59	80.03
PAT	6.32	7.30
Interest coverage (times)	1.44	1.27
Total Assets	214.64	462.71
Net NPA (%)	1.31	1.60
ROTA (%)	3.09	2.15

A: Audited

During Q1FY19, on a consolidated basis, AFSL reported a total income of Rs.29.15 crore with a PAT of Rs.4.61 crore as against a total income of Rs.13.97 crore and a PAT of Rs.0.94 crore during Q1FY18.

Status of non-cooperation with previous CRA: Not Applicable

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on credit quality and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments.

In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors.
