Detailed Rationale & Key Rating Drivers

CARE had, vide its press release dated June 11, 2019; placed the rating(s) of Ashiana Landcraft Realty Private Limited (ALRPL) under the 'issuer non-cooperating' category as ALRPL had failed to provide information for monitoring of the rating. ALRPL continues to be non-cooperative despite repeated requests for submission of information through e-mails dated June 15, 2020; June 16 2020 and June 17, 2020. In line with the extant SEBI guidelines, CARE has reviewed the rating on the basis of the best available information which however, in CARE's opinion is not sufficient to arrive at a fair rating.

Users of this rating (including investors, lenders and the public at large) are hence requested to exercise caution while using the above rating(s).

Detailed description of the key rating drivers

At the time of last rating on June 11, 2019 the following were the rating strengths and weaknesses:

Key Rating Weaknesses

Recent delays in debt servicing

There were recent delays in servicing of debt obligations on the OCD and bank facilities. The company had delayed the monthly installment due for the month of March 2019 and the interest payment due on OCD on March 31, 2019. This is on the account of tight liquidity position of the company due to slower sales momentum for its ongoing projects.

Project execution risk

The company is developing a residential group housing project in Sector 88-A, Gurgaon. The total estimated cost of the project is Rs. 1038 cr which will be funded through promoter's contribution of Rs. 59.00 cr, debt of Rs. 423 cr and the rest through customer advances. As on Dec 31, 2018, the promoters have brought in Rs 52.6 Cr, Outstanding debt of Rs. 333 cr availed from PNBHFL and the Piramal Group. As on March 31, 2018, the company has incurred Rs.610 cr out of the total project cost of Rs. 1038 cr that is, ~57% of the total project cost as on Dec 31, 2018 (49% upto March 31, 2018). However, the spending on construction remains low with total expenditure of Rs. 247 cr out of the total Rs. 498 cr on the construction and administration portion, that is, 50% of the total construction and administration cost. As significant portion of the cost is yet to be incurred; the project is exposed to execution risk.

Off take risk

Out of total saleable area of the project of 17.24 Isf, For Phase-1 (saleable area of 8.42 Isf), the company has sold 5.45 Isf of area that is ~64% (61% upto Mar 31, 2018) for sale value of Rs 351 Cr till Dec 31, 2018. The sale has remains slow due to the slowdown in the real estate market. In last 12 months ending Feb 2019, the company has been able to generate collections of Rs. 20 cr.. With significant portion of the project yet to be sold, the company remains exposed to project off-take risk.

Subdued industry scenario

The industry has witnessed muted housing demand during recent past. Further, the impact of Real Estate Regulation Act, 2016 remains to be seen on the developers. It is expected that the developers will have to bring about operational transformation in their business models to comply with RERA requirements.

Key Rating Strengths

Experienced promoters with track record of project execution

The company derives strength from experience of the promoters –Ashiana Homes Pvt Ltd (AHPL) and Landcraft Projects Private Limited (LPPL) in the real estate sector. Both the companies have a established track record of executing several real estate projects, including development of township, group housing, commercial complexes, etc. Some of the major completed projects include Ashiana Upvan (Ghaziabad), Ashiana Greens (Ghaziabad), Golf Links Flat (Ghaziabad), Ashiana Palm court (Ghaziabad) etc.
