Detailed Rationale & Key Rating Drivers

The ratings assigned to the bank facilities of Avaada Power Private Limited (APPL) continues to factor in experienced and resourceful promoters, proven track record in renewable energy business, expected equity infusion by a strategic/financial partner and availability of land bank for undertaking future solar power projects. The ratings are also supported by the government led reforms to encourage the investments in the renewable energy sector.

The ratings are however tempered by exposure to project implementation risk, short track record of operational projects, dependency on group companies for EPC business, equity commitment in SPV's, intense competitive industry and susceptibility to government regulations.

Going forward, completion of project within stipulated timelines and budget, increase in the scale of operations, improvement in profitability and envisaged power generation will remain the key rating sensitivities.

Detailed description of the key rating drivers

Key Rating Strengths

Resourceful Promoter: Avaada group is owned and managed by Mr. Vineet Mittal, who is an alumnus of Harvard Business School and an experienced entrepreneur. Under Mr. Vineet Mittal, Welspun Energy Private Limited (WEPL) became a significant player in the renewable energy industry. Within a short span of 3 years, Mr. Mittal had built a renewable energy portfolio of 1,141 MW in WEPL and monetized the same by selling it for Rs. 9,249 crore.

Mr Vineet Mittal is on the board of infrastructure steering committee of the World Economic Forum, B20 Green Growth Action Alliance and Clean Energy Finance Forum, as well as industry advisor to multiple Indian government bodies.

EPC order book to provide medium term visibility: Apart from developing solar power projects, APPL also undertakes EPC work for subsidiaries/group companies. As of Sep 30, 2018, the company has an outstanding order book of over Rs. 892 crore to be executed over the next 9 months providing revenue visibility in the near term.

PE funding expected in Q3FY19; albeit delays: Avaada group is in advanced talks with PE investors for funding amounting to USD 170mn in GRPL. The investors further have an option to invest additional USD 40mn over a period of next 18 months. Initially, the funding was scheduled to happen in Q1FY19, which got delayed and the same is expected by the end of Q3FY19. The funding will act as a seed in capital towards new projects.

Pan India Land Bank: The promoters have identified 4,556 acres of land spread across various states of which acquired rights to 1712 acres of land. The availability of land bank gives significant competitive advantage to the group.

Key Rating Weaknesses

Limited track record of the entity: Avaada group has a limited track record in the renewable energy segment. The company through its subsidiaries has a total portfolio of 1041MW (AC) of which 363MW (AC) is operational which has a track record of less than six months. Further, some of the operational projects faced delays in commissioning. The other projects are at various stages of development. The ability of the company to generate units as envisaged and successfully execute projects without any delays or cost overruns remains a key rating monitor able.

High exposure to SPVs/group companies: The company's revenues are derived by undertaking EPC contracts for setting up group's power projects, which is contingent to the SPV winning them thereby exposing the company to uncertainties in revenue visibility.

Equity Commitments in SPVs: APPL has to commit equity in the subsidiaries once the project is won thereby exposing the company to equity commitment risks.

Fixed time and price contracts: APPL enters into EPC contracts wherein the price, timelines and performance parameters are fixed, failing which APPL is liable to pay damages. The above conditions expose the company to project implementation risk, in case of any delays in execution and increase in input costs. The company enters into back to back orders for procuring materials from the suppliers thereby mitigating the risk to a certain extent.

Increased level of competitive intensity in the industry: Due to technological advancements relatively faster execution of solar energy projects compared with conventional sources is envisaged. Cheaper cost of raw materials and borrowings, government impetus to solar power, renewable purchase obligation targets, renewable energy certificates, etc. has increased the number of players in this industry.

Analytical approach: Combined including Avaada Power Pvt. Ltd., Giriraj Renewables Pvt. Ltd. along with SPV's on account of operational and financial linkages and are together referred to as Avaada Group.

About the Company

Avaada Power Private Limited (APPL) (erstwhile Candor Power Private Limited) is a Vineet Mittal [former co-founder of Welspun Energy Pvt. Ltd. (WEPL)] group entity. APPL is the holding company of Giriraj Renewables Private Limited (GRPL) (CARE A- Stable / A2+). and Clean Sustainable Energy Pvt. Ltd. The promoters of WEPL (Mr. Goenka and Mr. Mittal) sold WEPL's subsidiary, Welspun Renewable Energy Private Limited (WREPL) to Tata Power Renewable Energy Ltd. (TPREL) for Rs. 9,249 crore in September 2016. Post the sale of WREPL, the EPC business of WEPL was demerged to GRPL.

APPL undertakes EPC projects for the renewable power projects won by its SPVs. The company through its subsidiaries has a total portfolio of 1041MW (AC) of which 363MW (AC) is operational and the balance is under various stages of development.

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on credit quality and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments.

In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors.
